HENGE

S34/1

HENGE

S·34

Home is a container in which we live experiences and share them with those who are part of our lives. It is the material expression of what we most love, and wish to be surrounded by, each day. It is the oldest form of "social network", where we live and dream of being connected to our identity, cultivating unique emotions, interactions and bonds. The Home is above all, a dynamic journey, a long-term project that uses physical space to narrate our lives and wrap them up with beauty. It evokes safety and comfort throughout the various stages of our lives. Henge has moved its Home and has created a whole new space, in the center of Milan's Quadrilatero della Moda, Via Della Spiga 34. Just steps away from where it celebrated Milan and the Design Week for 7 incredible years.

Spiga 34 is in the heart of Milan, a space accessible from both Via Della Spiga and Via Senato. From the inside are visible glimpses of the exteriors that cross all of Via Santo Spirito up to the front buildings in Via Montenapoleone. We wanted S34 to be a private place, almost as it was to protect the precious interior, avoiding the shop windows show. A hidden space that invites you to enter and discover the great expressive power of the Henge world.

We thought of space, architecture, and layout as a single interior design project, avoiding the stratification effect typical of a furniture showroom, respecting and emphasizing the variety of volumes using their diversity. Black Burnished Steel has been integrated with a chalky, imperfect finish on the walls to enhance the design of the most technical areas. These details are the unifying elements linked to the architecture of the premises. Each area has been customized in perfect harmony with Henge's unique approach.

Massimo Castagna

34

Unique expressive qualities can establish an emotional conversation between the product and the people around it. The secret of this journey that leads to the soul of precious stones stems from an instinctive love for the beauty of an organic universe, one that is able to surprise you and bring out the amazing prodigious elements that nature forges. Textures, veins, and marks unreasonably considered imperfections are now special features thanks to the Brand's extraordinary wealth of manufacturing know-how and artisan craftsmanship.

This is the origin of the superb new collection, designed by Massimo Castagna, designers Ugo Cacciatori and Isabella Genovese, in collaboration with the renowned design firm Yabu Pushelberg. The process is in continuity with the past, but also capable of overcoming limits and boundaries each time arriving at unique pieces, with a perfect combination of design and daring workmanship. Clean lines and bold geometries become hallmarks of the new collection, which, often playing on unexpected contrasts, represents the authenticity of a beauty that will remain unchanged over time.

By using the formal language of modern taste, Henge brings back ancient craftsmanship techniques with new stories that do not need words to be narrated. Some, very rare ones, can speak for themselves in every language, without the need for an interpreter. The Breccia Medicea is one of them. This material brings out emotions, it is a marble able to energize anything surrounding it. Henge fell in love with its unique expressive ability, as it pours out mythical hues, physical manifestation of its emotions.

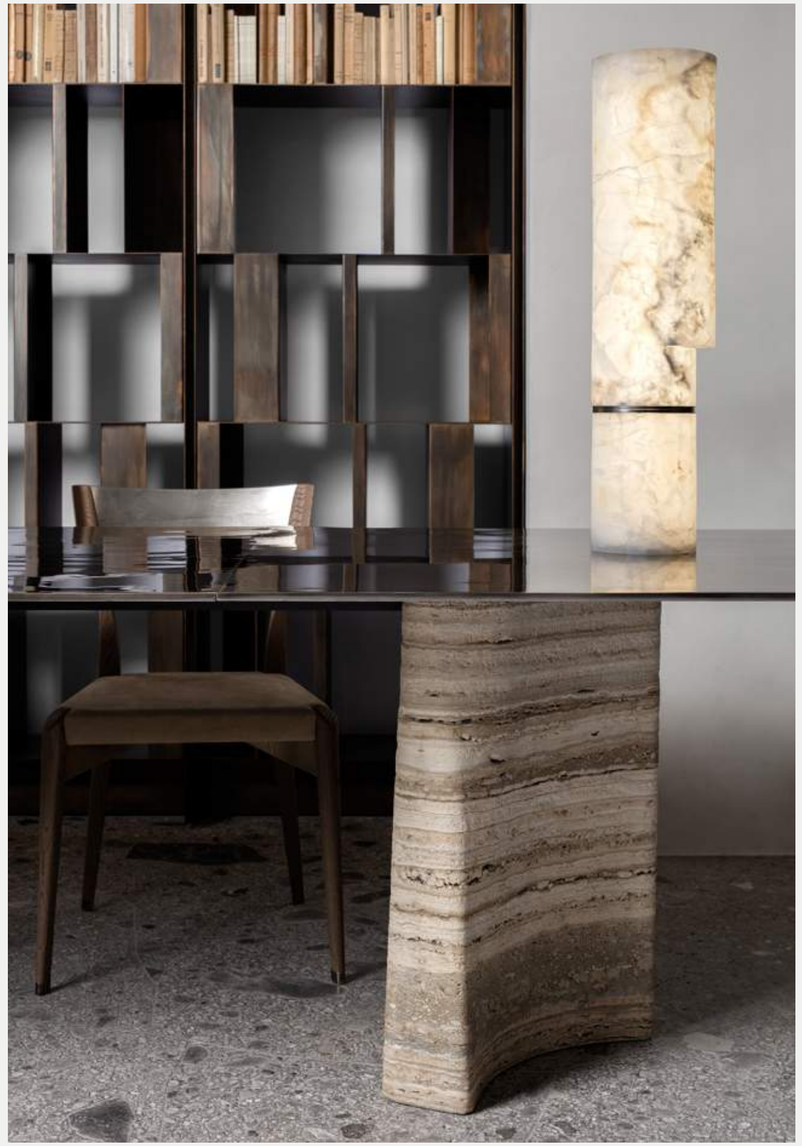

Henge's search for exceptional materials and the Brand's dedication to enhancing them has always been a journey toward an objective stylistic truth - putting all things in an iconic and organic balance. This is the key that makes our latest collection the natural continuation of an ambitious journey that can look into the future with a new perspective.

SUPERB ALL
Designed by Massimo Castagna

Iconic and eccentric fiberglass spheres of varying sizes, suspended with daring narcissism from long, tapered burnished brass and metal stems, in an intersection between geometry and gravity, whimsically weave virtuous narratives, extravagantly emphasizing a metaphorical interplay.

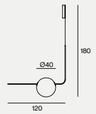

STRUCTURE
Dimmable ceiling energy-saving led lamp (energy efficiency index A) with warm light. Metal structure and light body in gray fiberglass available in different dimensions. Low voltage power supply cable inside the support rod. Transformer incorporated in the ceiling rosette. Standard overall high 200 cm. Can be customized. Available extra warm light 2700K (without extra cost). Dimmable push bottom, different dimming system available upon request.

TEST ONE
Designed by Ugo Cacciatori

A floor or table lamp, the Test series is an elegant and slender stone monolith, characterized by essential lines and rich material opulence. A presence with a strong personality that reveals a hidden expressive soul: brutalism that transforms into sculptural opalescence or lights up through its natural cavities, conspiring for sophisticated atmospheres of intimacy.

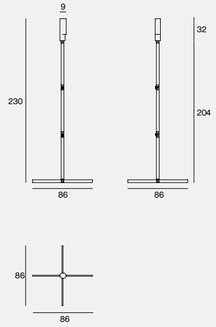

STRUCTURE
Sculptural stone table lamp with hollowed monolithic diffuser element connected by a rotating brass ring with a switch and dimmer function.

DIMENSIONS
Cm 71x15x18

DIMENSIONS 86X86X230H

TEST TREE
Designed by Ugo Cacciatori

Eccentric and sophisticated, in an extravagant high-tech interpretation, the floor lamp, Testtree, synthesizes classic and contemporary in its minimal geometric structure. The slender silhouette of its segmented body, embellished with cylindrical diffusers in Ice Onyx, connected by brass joints, becomes in any ambiance a catalyzing focal point.

STRUCTURE
Floor lamp made of stone elements connected by solid burnished brass joints. Omnidirectional head and wide base with cross-shaped brass bars.

DIMENSIONS
Cm 230x87x87
