L'obiettivo di Flos è quello di offrire sempre la tecnologia più affidabile sul mercato, controllando costantemente i nostri prodotti e aggiornandoli al passo con le evoluzioni tecnologiche quando queste apportino vantaggi ai nostri partner e clienti. Quindi, in caso di necessità di informazioni tecniche e delle ultime info di prodotto, vi invitiamo a visitare la sezione di prodotto o il nostro sito web flos.com, che viene aggiornato quotidianamente.

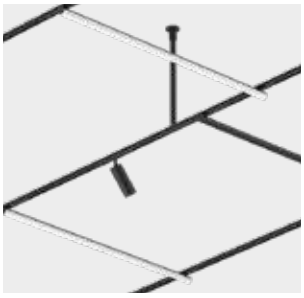

Flos aim is to offer always the best reliable technology available, constantly reviewing our products and upgrading them as soon as technologic evolutions offers benefits for our partners and clients. Thus, when you need technical details and the most recent product information, please browse the product section of our daily updated website flos.com.

FEATURED PRODUCTS

MY CIRCUIT

My Circuit, disegnata da Michael Anastassiades, è la prima struttura per apparecchi d'illuminazione da interni composta da una struttura flessibile che permette disegnare sul soffitto dei tracciati continui e completamente liberi, combinando linee rette con curve di differente raggio.

My Circuit, designed by Michael Anastassiades, is the first structure for indoor lighting consisting of a flexible profile that allows the drawing of continuous and completely free paths on the ceiling, combining linear sections with curves of various radii.

MY CIRCUIT

Per progettare una configurazione, occorre selezionare e combinare in maniera consequenziale i moduli di fissaggio che verranno uniti tra loro fino a disegnare una spina dorsale da fissare al soffitto e che andrà a determinare la forma di My Circuit. Una volta completata la configurazione e dopo averla montata a soffitto, avremo ottenuto la lunghezza totale del percorso della spina dorsale. Su di essa verrà montato il profilo flessibile. Infine, sarà la volta di accessori e apparecchi di illuminazione.

When designing a layout, the fixing modules to be joined together must be chosen and combined consecutively until a central spine is drawn up that is mounted on the ceiling and defines the shape of My Circuit.
Once this layout is completed and installed on the ceiling, you obtain the total length of the central spine. The flexible profile is then installed onto this. Finally come the accessories and luminaires.

My Circuit offre un approccio funzionale all’illuminazione decorativa. My Circuit è un sistema a soffitto flessibile che trae ispirazione dalle piste elettriche per macchinine dell’infanzia di Anastassiades, i cui elementi sono utilizzati per ridisegnare un’interpretazione minimalista e contemporanea di motivi in gesso presenti sui soffitti delle abitazioni d’epoca.

My Circuit offers a functional approach to decorative lighting. A flexible ceiling system, My Circuit is inspired by electric slot cars from Anastassiades’ childhood, whose elements are used to redesign a contemporary, minimalist take on plaster motifs found on the ceiling of period homes.

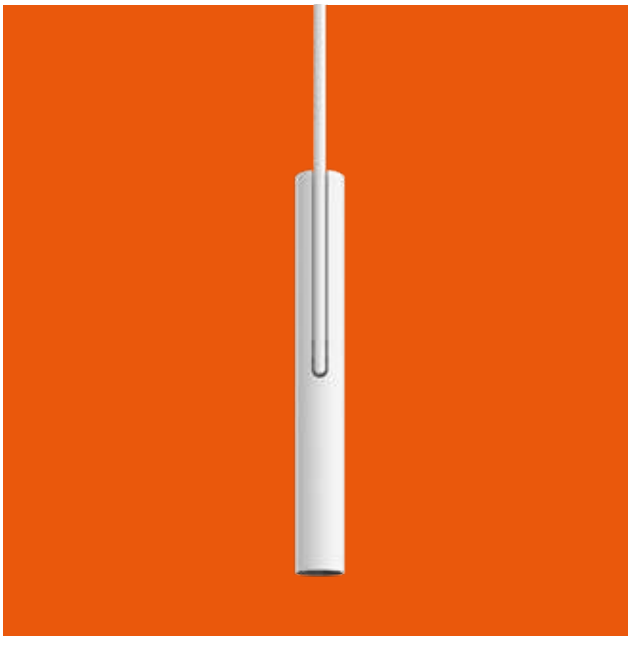

ASTASSIADES

SPOTS

My Circuit presenta due famiglie di faretti: gli eleganti My Spots, dalla mente del designer Michael Anastassiades, e i faretti My Light Shadow Spots che vantano le ben note prestazioni tecniche della famiglia di prodotti Light Shadow.

My Circuit comes with two projector families: the elegant My Spots, designed by Michael Anastassiades, and the My Light Shadow Spots, with the well-known technical features of the Light Shadow family of products.

MY DISC & MY LINES

My Disc è una lampada slanciata con emissione Down per un'illuminazione verso il basso e d'atmosfera.
Grazie a My Lines è possibile sospendere un apparecchio di illuminazione da My Circuit che, sul piano funzionale, funge nello spazio da lampada da terra.

My Disc is a slim Down emission luminaire for downlight and ambient illumination.
My Lines allows you to suspend a luminaire from My Circuit, which in functional terms acts as a floor lamp in the space.

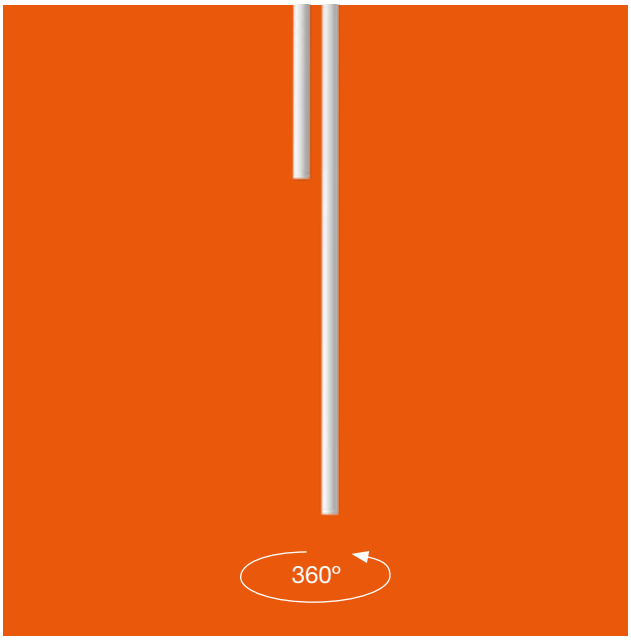

MY DOME & MY SPHERE

My Dome offre la classica sospensione per illuminazione downlight reinterpretata dalla poesia di Michael Anastassiades.
My Sphere è la soluzione di My Circuit dotata di un aspetto estetico più prominente grazie alla sua forma e all'emissione di luce onnidirezionale.

My Dome offers the classic suspension piece for downlight illumination reinterpreted with the poetry of Michael Anastassiades.
My Sphere is the My Circuit solution with an aesthetic presence characterised by its form and omnidirectional light emission.

I fissaggi di My Circuit sono concatenati come sezioni di una pista di macchinine giocattolo. Unendo le sezioni necessarie, andrà a delinearsi il percorso progettato. L'innovativo binario flessibile My Circuit si inserisce nei fissaggi come spina dorsale. Una "sorta" di anima interna che donerà al profilo modulabile la sua forma definitiva.

My Circuit fixations are concatenated like track sections on a Scalextric racing car set. The union of the necessary sections draws the designed route.
The innovative My Circuit flexible track is inserted into the fixations like a central spine. A sort of internal 'soul' that gives the modellable profile its final form.

Gli apparecchi di illuminazione My Circuit presentano adattatori progettati specificatamente per essere raccordate al binario flessibile abbracciandolo dall'esterno.

My Circuit luminaires have adapters specially designed to link with the flexible track by grasping it from the outside.

FLEXIBLE PROFILE

L: 8000 / 15000 / 20000

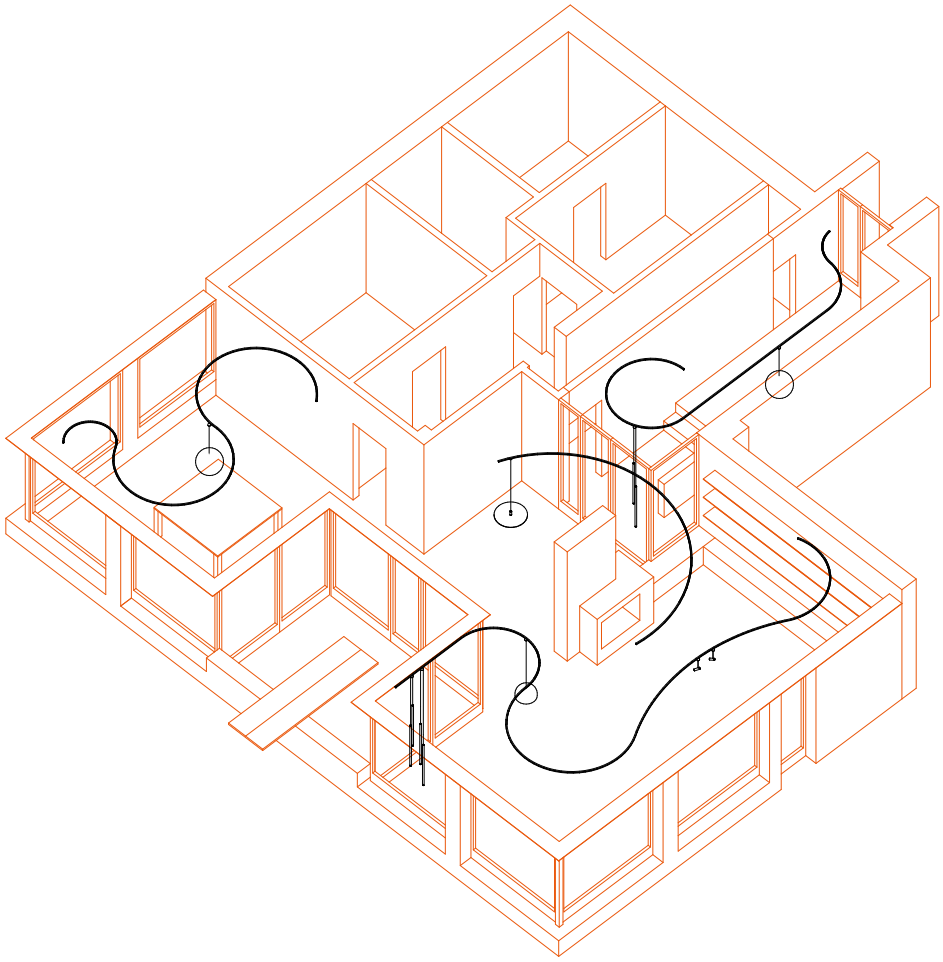

FLOS
FLOS

Il rivoluzionario binario flessibile di Michael Anastassiades rappresenta un nuovo approccio all'illuminazione di uno spazio, fungendo da strumento architettonico che offre una combinazione di illuminazione d'atmosfera diffusa e sofisticata illuminazione d'accento.

Michael Anastassiades' revolutionary flexible track offers a new approach to illuminating a space, serving as an architectural tool that offers a combination of diffused ambient lighting and sophisticated accent lighting.

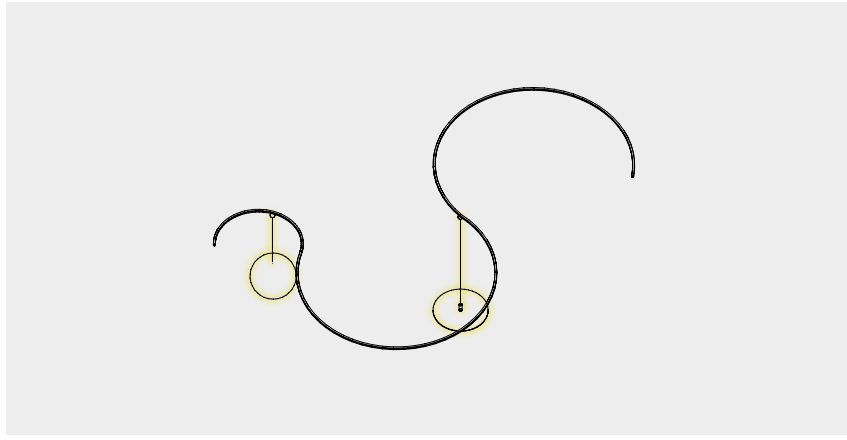

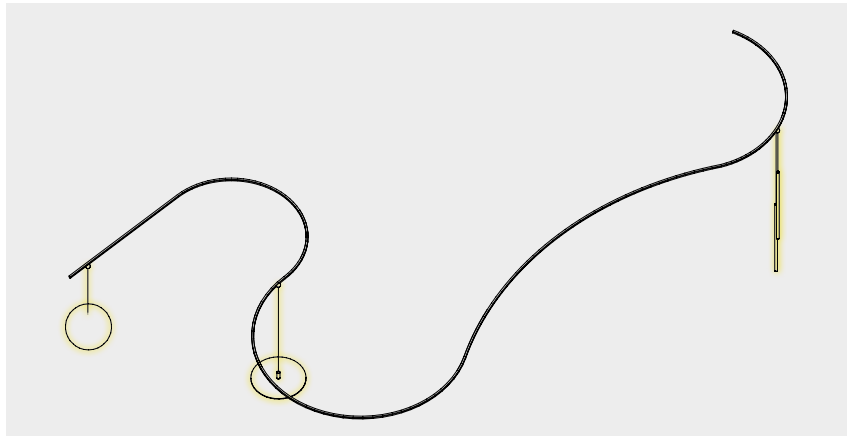

INFINITI LAYOUT

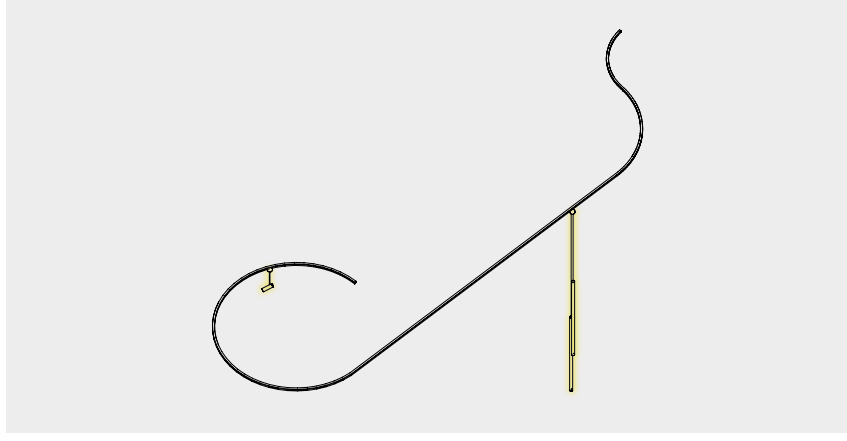

Il sinuoso binario da soffitto permette di agganciare una gamma di opzioni di illuminazione tra cui faretti decorativi ad alte prestazioni, sospensioni a cupola o dischi circolari e lampade sospese terra-soffitto, tutti permeati dall'approccio poetico alla forma di Anastassiades.
Apparentemente sono infinite le soluzioni che My Circuit può offrire, grazie all'approccio ludico alla modularità del suo binario e al ricco ventaglio di elementi di illuminazione che possono esaltarne la presenza o ritrarlo come uno strumento funzionale e discreto.
L'estrema semplicità degli elementi e la versatilità con cui possono essere combinati permette di liberare la creatività del progetto, dando vita a innumerevoli soluzioni.

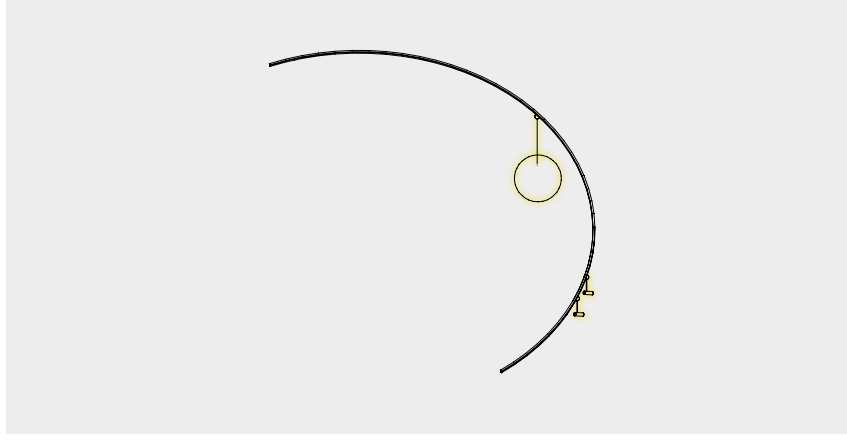

ENDLESS LAYOUTS

Connecting to the sinuous ceiling track is a series of illuminating options that include high performance and decorative spotlights, pendants shaped like circular domes or discs, and suspended floor to ceiling lamps, all defined by Anastassiades' poetic approach to form.
There is seemingly no end to what My Circuit can achieve, thanks to the playful approach to modularity of its track and its rich portfolio of lighting objects that can enhance its presence or leave it as a functional, discreet tool.
The extreme simplicity of the elements and the versatility with which they can be combined allows you to unleash the creativity of a project in countless combinations.

CASAMBI

Controllo individuale di ciascun apparecchio di illuminazione direttamente attraverso un’applicazione per tablet e smartphone (FLOS Control®).

Individual control of each luminaire directly through a tablet or smartphone application (FLOS Control®).

FLOS CONTROL®
BY CASAMBI

L’applicazione FLOS Control® consente di controllare gli apparecchi di illuminazione del sistema in gruppo, controllando scene e programmazione.

In un impianto elettrico tradizionale, con il gateway connesso via Bluetooth si ottiene un controllo totale dell’ambiente.

Disponibile per iOS e Android

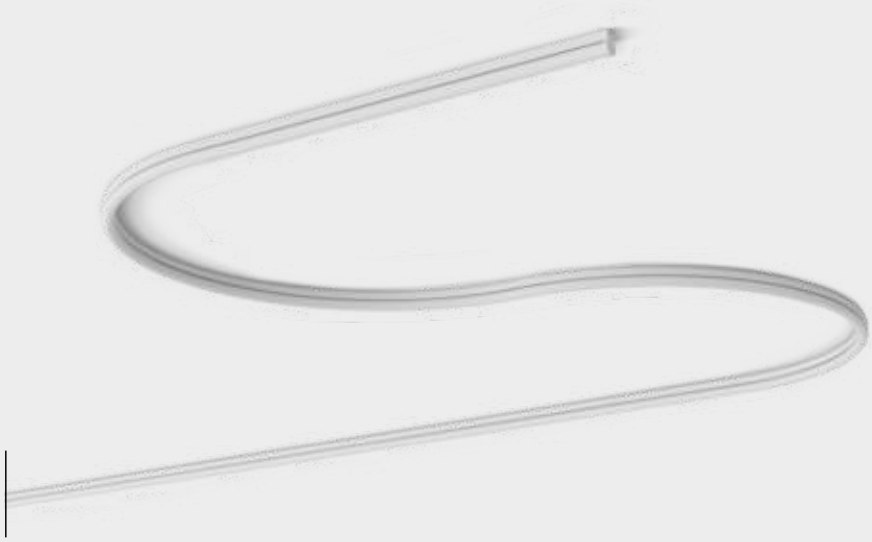

The FLOS Control® application allows you to control the system’s luminaires as a group, controlling scenes and programming.

With a traditional electrical installation and the Gateway connected by Bluetooth, you obtain total control of the ambience.

Available for iOS and Android

LT L

Linea di luce tecnica avvolta all'interno di un pregiato rivestimento (pelle naturale o tessuto) cucito su misura per integrare ogni elemento della composizione. L'innovativo sistema di connessione è stato sviluppato per ottenere una linea sinuosa senza apparente soluzione di continuità.

Technical lighting line covered in a sewn to measure, fine leather or textile fabric cover that integrates all elements of the composition. The innovative connection system has been developed to achieve a sinuous line without apparent interruptions.

BELT

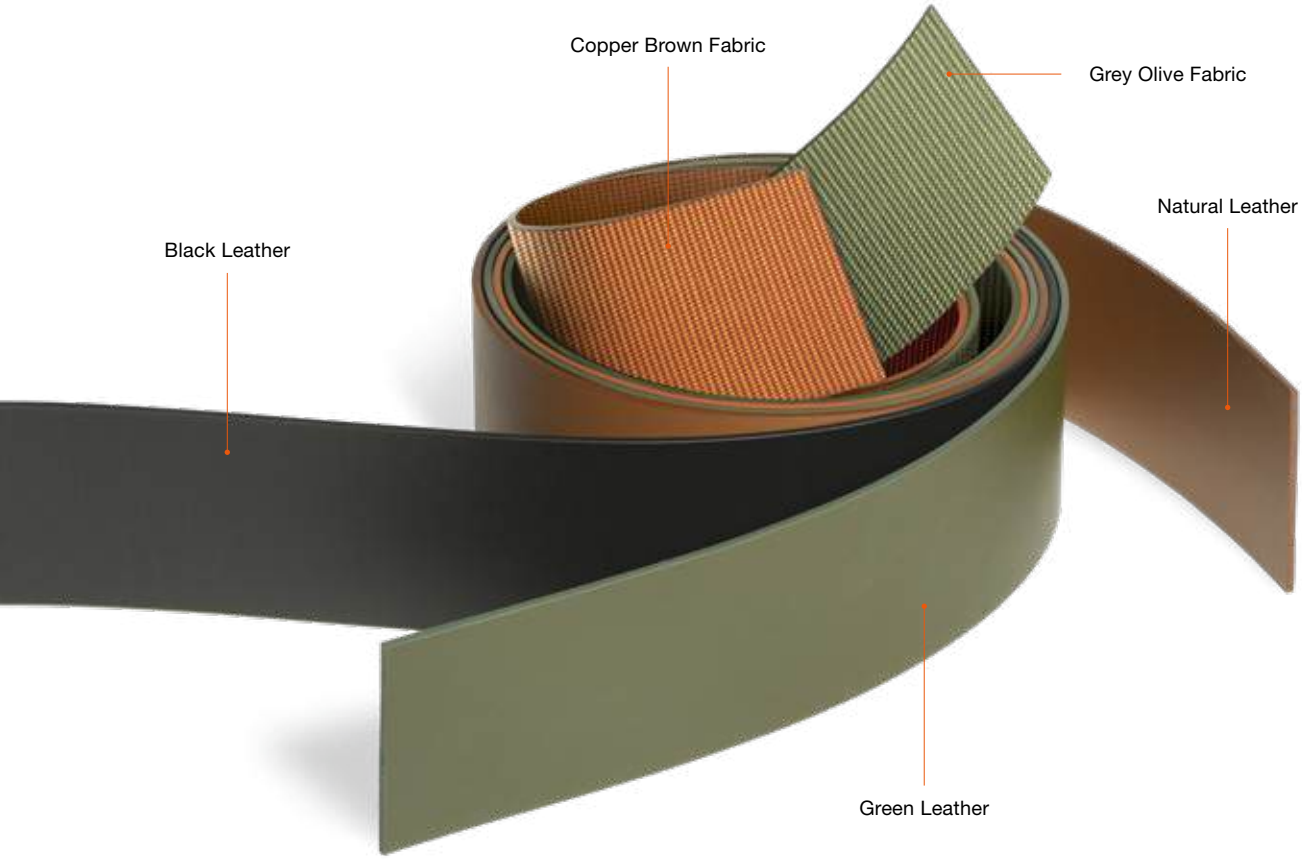

Il rivestimento (di pelle o tessuto) rappresenta il cuore del progetto. Un materiale morbido e caldo che garantisce libertà nello spazio ma al tempo stesso caratterizzato da una certa rigidità che crea armonia nel risultato della composizione finale. A sua volta, la versione Belt Fabric è rivestita in un tessuto tecnico speciale con due finiture: grey olive e copper brown.

The leather or textile fabric is the heart of the project. A soft and warm material that guarantees freedom in the space but, at the same time, is characterized by certain rigidity. The result is a harmonious final composition. Belt is covered in fine leather, treated with natural dyes to obtain the three finishes available in the range: black, green and natural leather. Belt Fabric is covered in a special technical fabric offering two decorative finishes with a knitted texture: grey olive and copper brown.

Belt è pura flessibilità, una linea sinuosa la cui natura è in equilibrio tra la morbidezza della rifinitura in pelle o tessuto e la rigidità dell'alluminio. L'elemento morbido è rappresentato dalla connessione alla rete elettrica, mentre le parti rigide corrispondono alle sorgenti luminose, delle lunghe linee di luce.

Belt is pure flexibility, a sinuous line whose nature is in balance between the softness of the leather or the fabric and the rigidity of aluminium. The soft element is represented by the connection to the electrical grid, while the rigid parts correspond to the light sources, which are long lighting lines.

1 CEILING FEEDING BASE

2 ELECTRICAL LOOP CONNECTOR

3 CEILING MOUNTING

4 SUSPENSION BELTS

5 LIGHT PROFILE

3
4
5

Ogni elemento del prodotto è gestito tramite strisce di pelle o tessuto. Alcune di queste sostengono il peso dell'apparecchio, altre trasportano l'elettricità e ovviamente alcune contengono la luce. La sezione iniziale di ogni composizione scende dal soffitto, oppure sale dalla parete o ancora dal pavimento per poi essere sospesa attraverso tiranti dedicati.

Each element of the product is controlled by leather or textile fabric straps. Some of them support the weight of the device, some carry electricity and some contain light. The initial section of each composition descends from the ceiling or rises from the wall, or even from the floor, and then hangs thanks to dedicated straps.

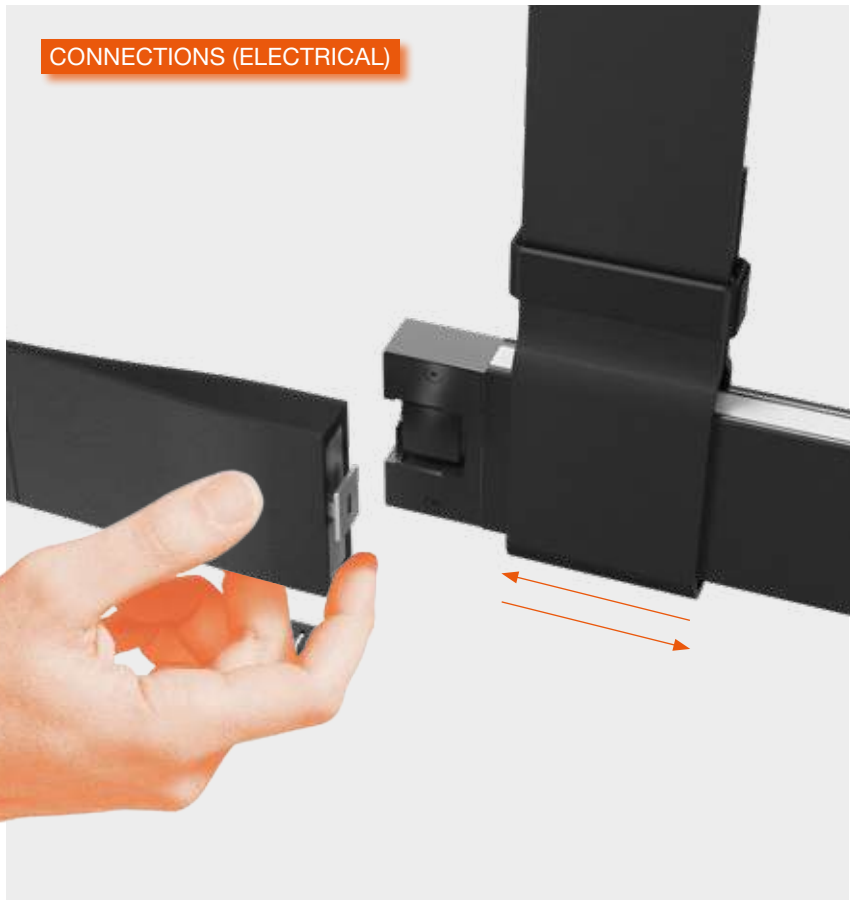

FULL VISUAL COMFORT

Come quando si allaccia una cintura, l'installazione dei tiranti utilizzati per sospendere il profilo luminoso avviene facendo scorrere le fasce attraverso fibbie in metallo dedicate che fungono da agganci a soffitto. Ogni tirante può essere regolato per rispettare la conformazione dell'ambiente.

As for fastening a belt, the installation of the straps used to hang the lighting profile is done by sliding the straps through dedicated metal buckles that act as ceiling hooks. Each strap can be adjusted to respect the configuration of the environment.

Lo speciale microconnettore integrato nel terminale del profilo luminoso permette di realizzare la connessione elettrica attraverso un semplice scatto. L'elemento di connessione viene nascosto all'interno del passante, che funge da sospensione per sostenere la composizione.

The special micro-connector integrated in the terminal of the lighting profile allows the electrical connection to be made with a simple click. The connection element is hidden inside the strap that acts as a suspension to support the composition.

La lunghezza dei profili luminosi e dei tiranti può variare secondo le esigenze di progetto. Nella gamma sono disponibili sei lunghezze diverse, per consentire alla composizione di adattarsi allo spazio crescendo, ruotando, salendo o scendendo in tre dimensioni.

The length of the lighting profiles and the straps can be changed according to the requirements of the project. The range offers six different lengths so the composition can be adapted to the space by growing, rotating, rising or descending in three dimensions.

MULTI SPOT MINI

Il Multi Spot Mini è un modulo di illuminazione a LED con 14 spot a basso abbagliamento, che combina un design compatto con una potente capacità di illumina-zione. Questo modulo offre una soluzione elegante ed efficiente, con un controllo del fascio che garantisce che la luminosità sia focalizzata direttamente verso l'esterno, evitando riflessi indesiderati.

The Multi Spot Mini is a 14-spot LED lighting module with low glare, combining a compact design with powerful lighting capability. This module provides an elegant and efficient solution, with beam control ensuring that brightness is focused directly outward, avoiding unnecessary reflections.

SUSPENSION CONE

Il modulo conico prevede una schermatura totale della sorgente luminosa e integra uno speciale gruppo ottico brevettato per ottenere effetti di luce puntuale professionali ad alto contrasto.

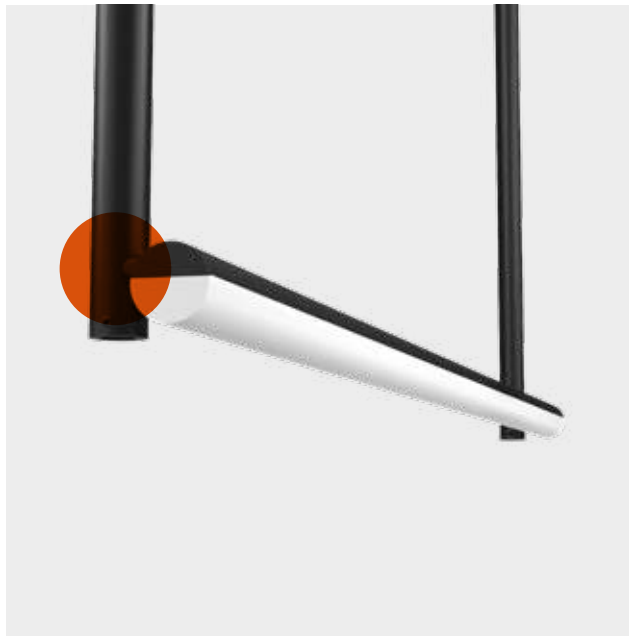

The conical module provides total shielding of the light source and integrates a special patented optical unit to achieve professional high-contrast spotlighting effects.

LIGHT TUBE

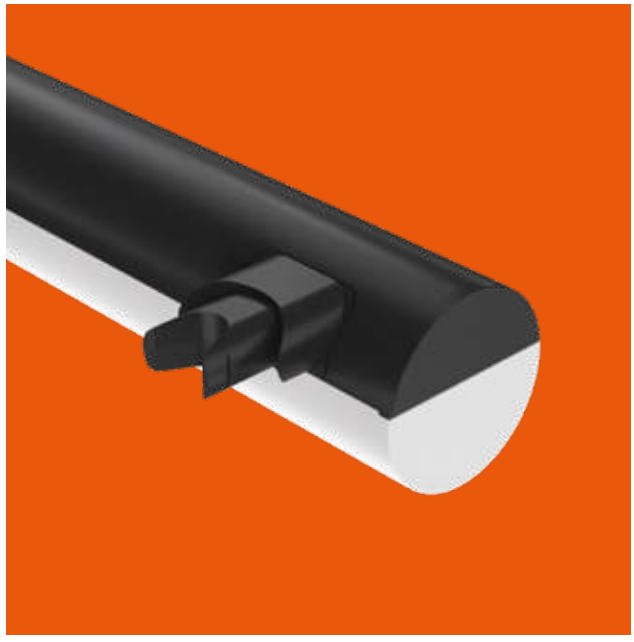

I moduli lineari orizzontali possono essere utilizzati per ottenere luce diretta e indiretta. Rappresentano un segno grafico importante nella struttura, creano ritmicità e continuità visiva nell'installazione attraverso una luce morbida e diffusa.

The horizontal linear modules can be used to obtain direct and indirect light. They represent an important graphic sign in the structure, creating rhythm and visual continuity in the installation through soft and diffused light.

SUSPENSION PANEL

Il pannello circolare è realizzato con uno speciale aggancio che lo rende particolarmente semplice da installare nella struttura. Il profilo interno è in finitura nera a contrasto con il grande diffusore opale ad alta efficienza che garantisce un comfort visivo assoluto.

The circular panel is manufactured with a special hook that makes it very easy to install on the structure. The internal profile features a black finish that contrasts with the large, highly efficient opal diffuser, guaranteeing high levels of visual comfort.

LIGHT TUBE COVERED

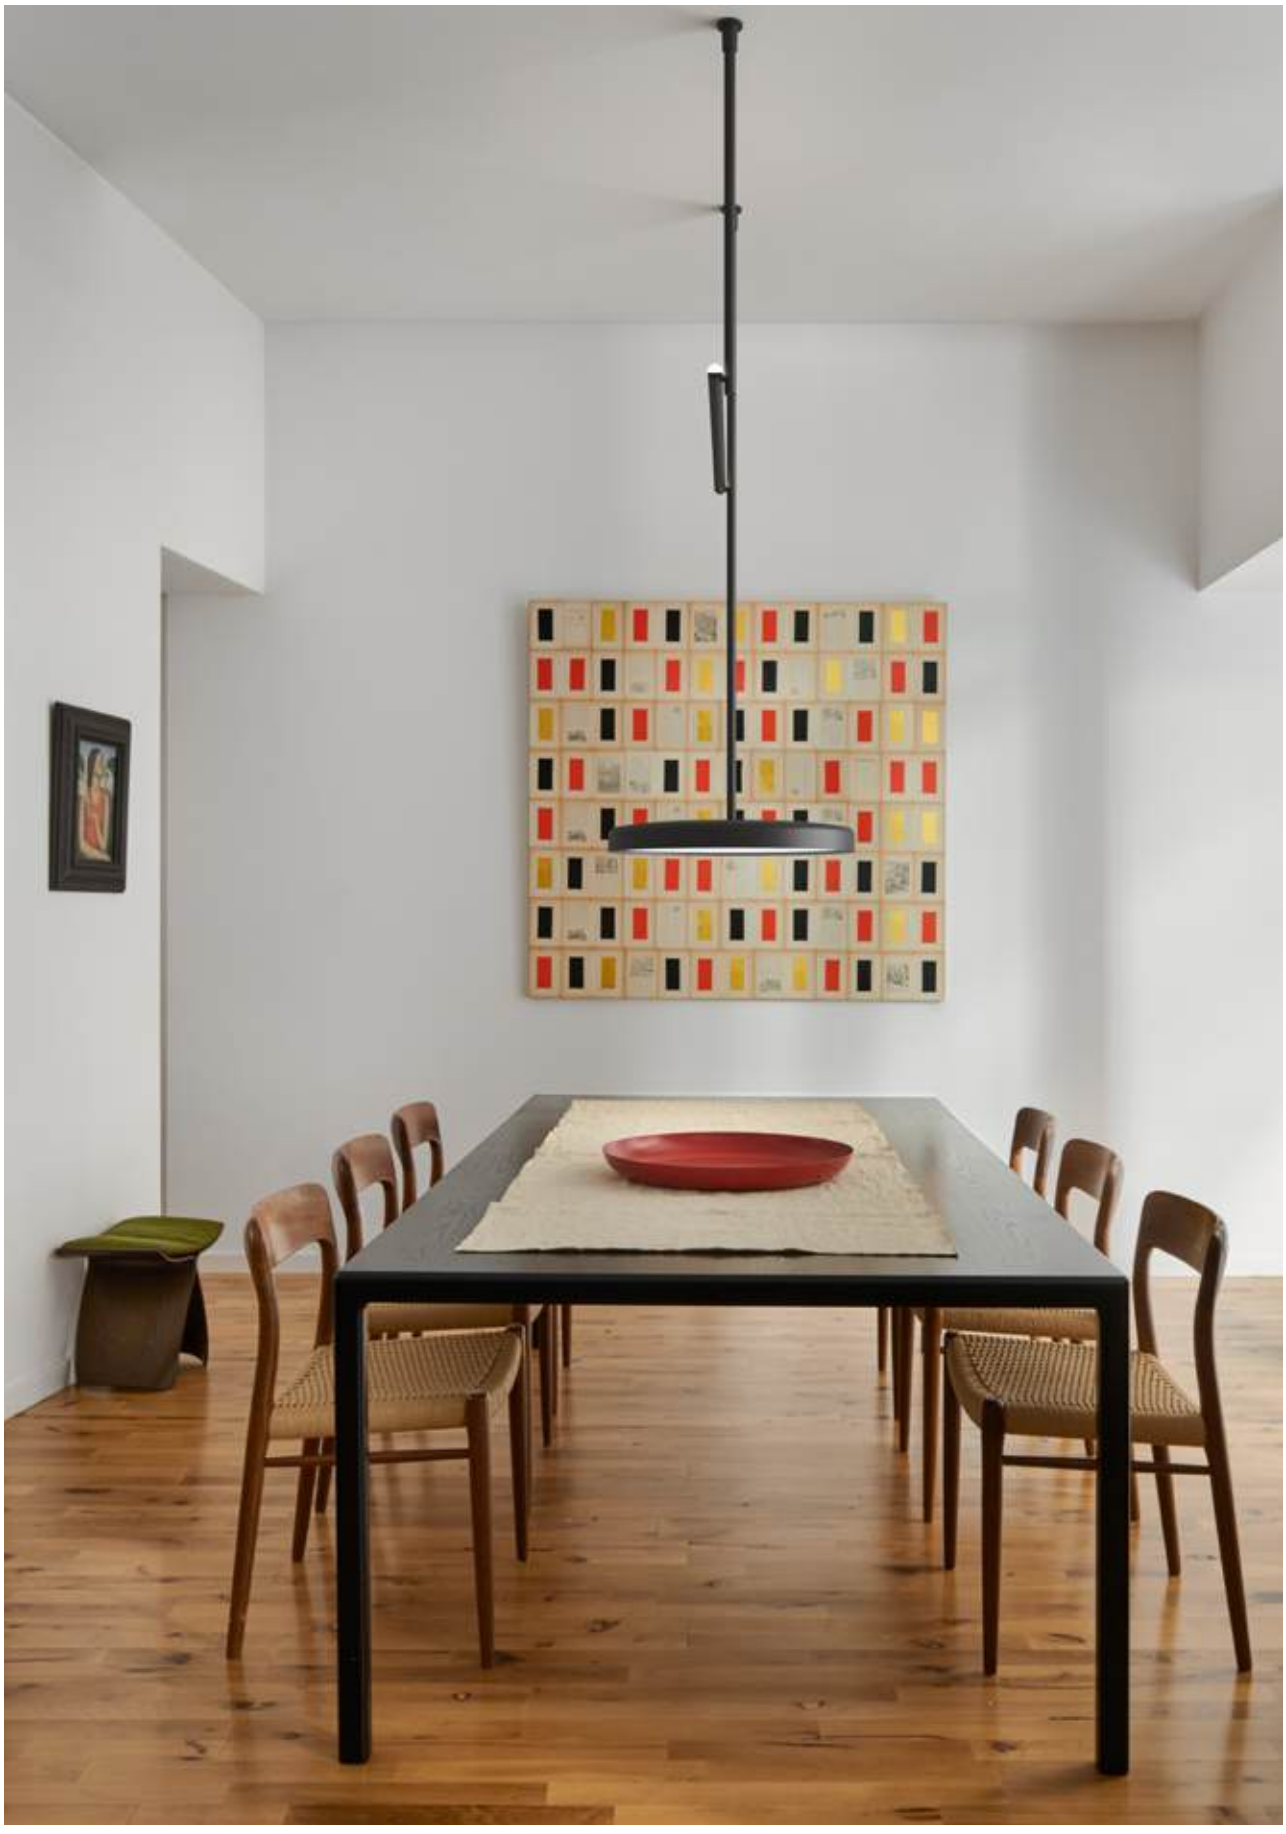

Il modulo lineare trapezoidale nasconde alla vista l'emissione diretta della luce schermando il diffusore opale dell'apparecchio e concentrando la luce sul piano di lavoro.

The trapezoidal linear module protects the eyes from direct light emission by acting as a screen for the opal diffuser of the luminaire and by concentrating the light on the work surface.

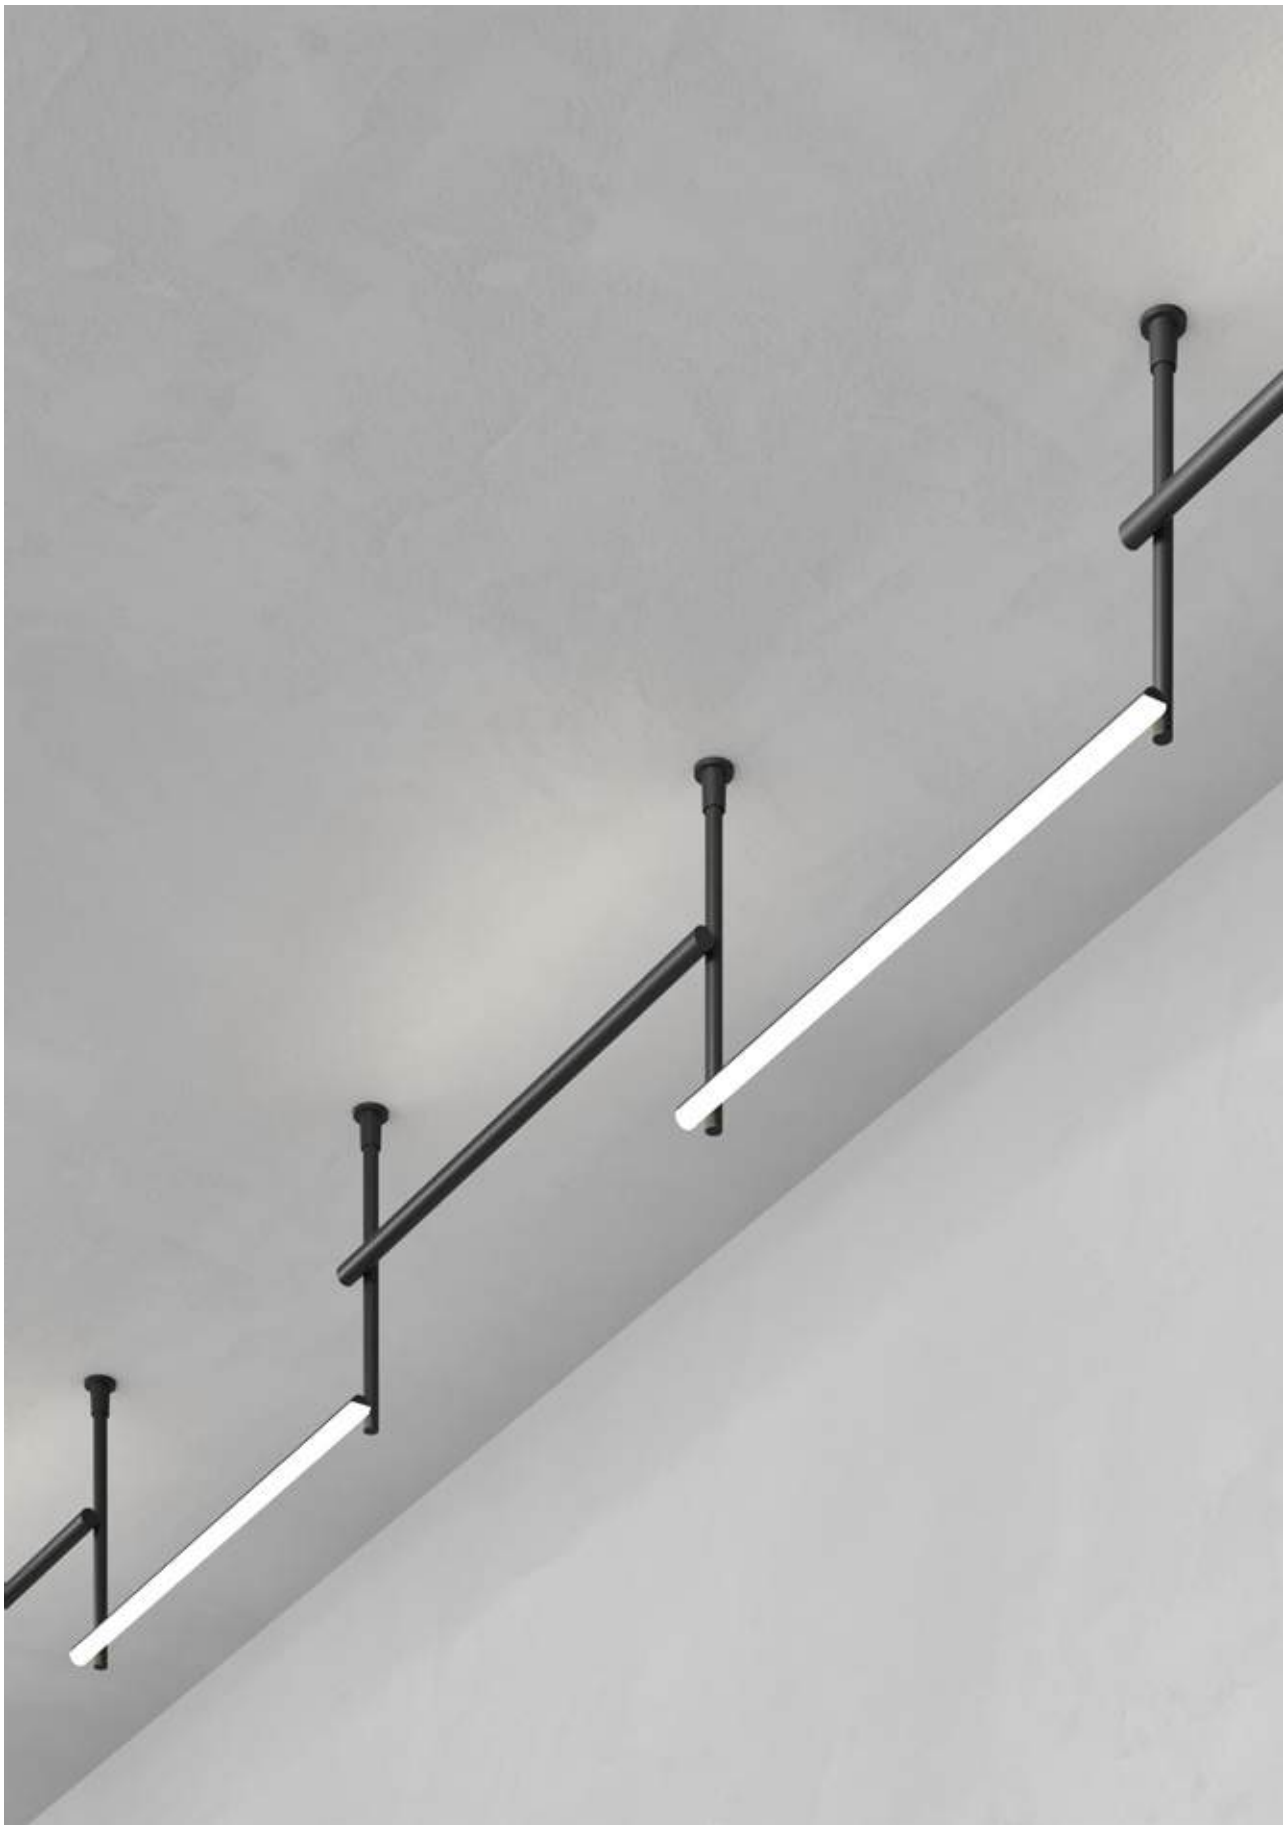

La connessione meccanica tra i singoli moduli che compongono la struttura avviene tramite un sistema a vite che garantisce u'installazione rapida e sicura. Ogni modulo è bloccato in sede con l'integrazione di un piccolo grano, pressochè invisibile una volta completata l'installazione.

The mechanical connection between the individual modules that make up the structure is made through a screw system that guarantees a fast and safe installation. Each module is locked in place by integrating a small, almost invisible grub screw once the installation is complete.

Le connessioni elettriche dei moduli illuminanti sono estremamente semplici da effettuare. Ogni elemento luminoso è completo con un cavo elettrico lungo 5 m equipaggiato con micro-connettore in uscita. Il cavo viene fatto scorrere attraverso le varie sezioni della struttura verticale per essere poi collegato alla rete centrale in corrispondenza del soffitto.

The electrical connections of the lighting modules are extremely simple to make. Each lighting element is completed by a long 5m electrical cable equipped with an output micro-connector. The cable runs through all the different sections of the vertical structure and is then connected to the central grid in the ceiling.

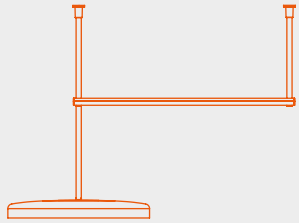

CONFIGURAZIONE

L'estrema semplicità degli elementi e la rapidità con cui possono essere combinati permette di liberare la creatività del progetto ottenendo innumerevoli combinazioni.

CONFIGURATION

The extreme simplicity of the elements and the speed with which they can be combined allows to free up the creativity of the project and to achieve innumerable combinations.

ASYMMETRIC
EMISSION

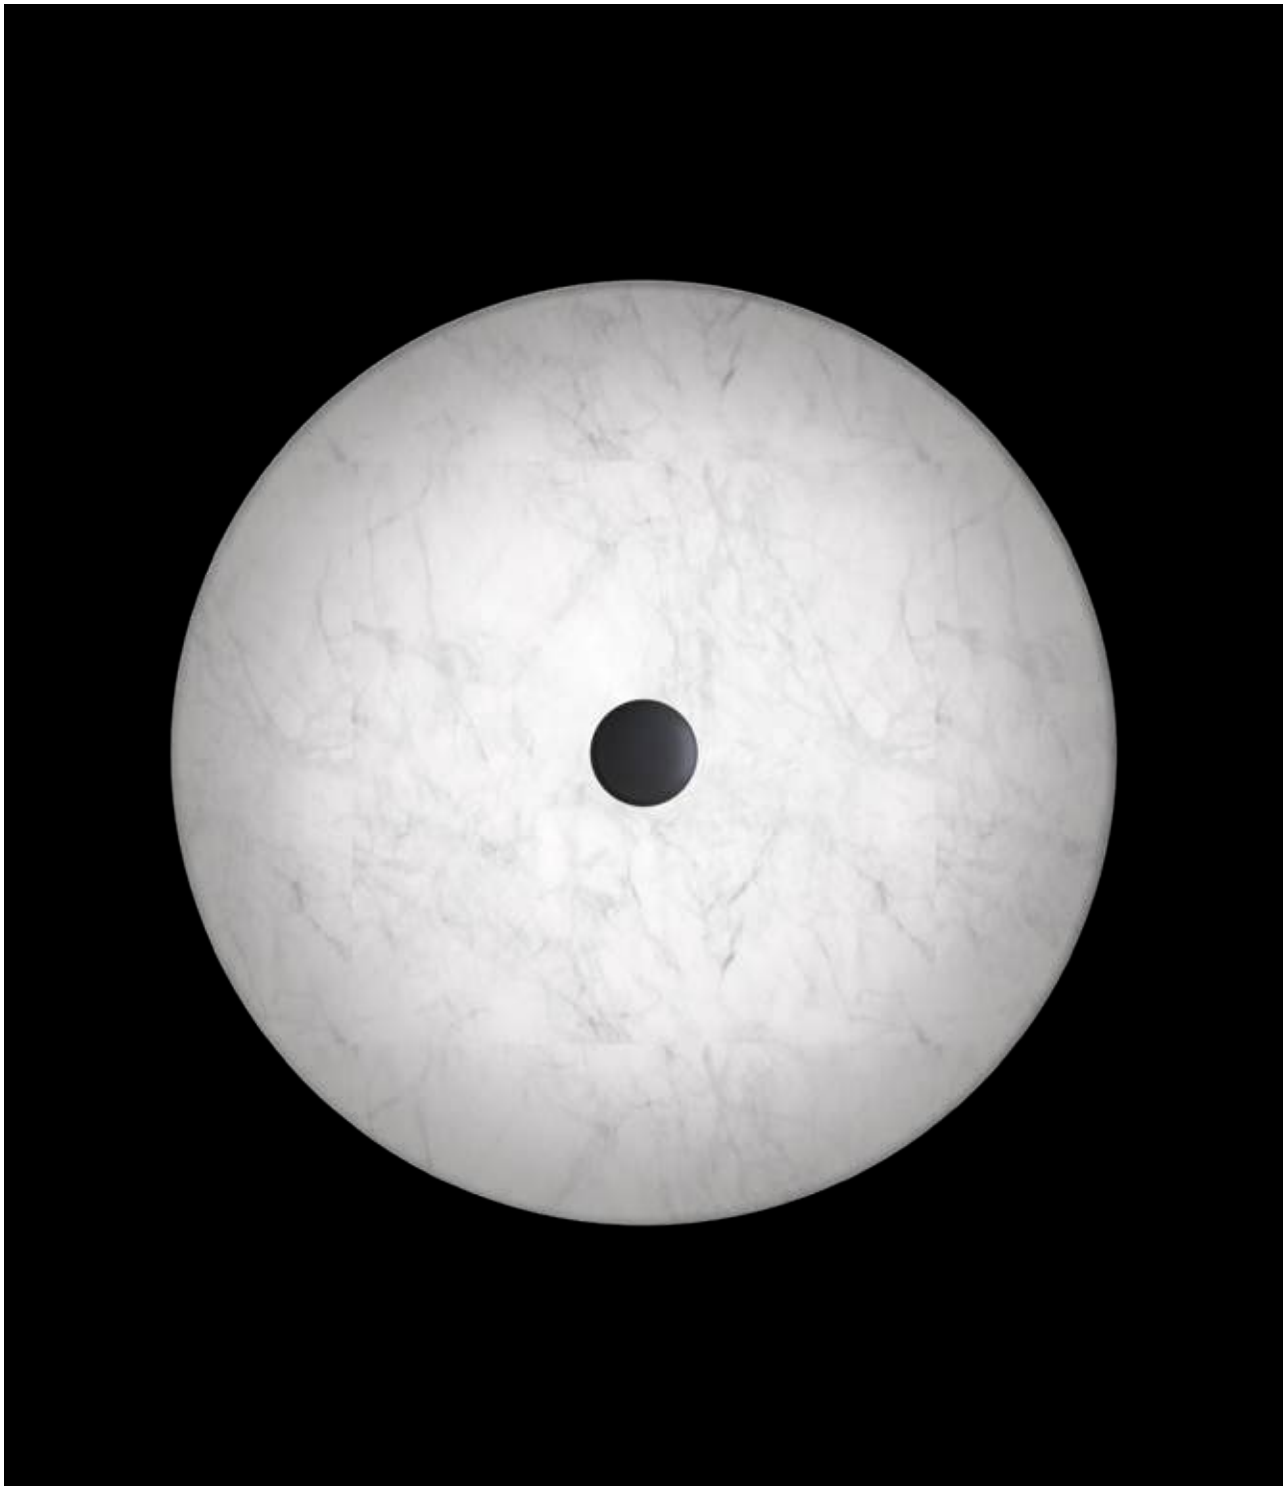

Sistema ottico esclusivo e brevettato da Flos. Lenti disposte a rotazione per un'illuminazione asimmetrica a 360°. Ampio raggio d'illuminazione, occupando uno spazio minimo. Eccellente qualità dell'illuminazione sul piano di lavoro.

Exclusive optical system patented by Flos. Lenses arranged in revolution for a 360° asymmetrical emission. Wide extension of the illuminated area with minimum space taken. Excellent light quality on the work surface.

VERSIONE RESIDENTIAL
La compagna ideale di casa.

RESIDENTIAL VERSION
The ideal household partner.

1. Si ricarica mediante cavo USB-C. Indicatore LED per la gestione della ricarica e dell'autonomia. Tempo di ricarica di 5-6 ore. Autonomia: 6 ore al 100%, 10 ore al 50% e 18 ore al 25%.
Charging via USB-C cable. LED indicator for charge and autonomy management. Charging time: 5h to 6h. Autonomy: 6h at 100%, 10h at 50% and 18h at 25%.

2. Protocollo di funzionamento integrato per ottimizzare l'autonomia del prodotto in caso di batteria scarica.
Integrated operating protocol to optimize product autonomy in case of low battery.

3. Regolazione sequenziale 0-100%, mediante un pulsante tattile capacitativo. Quando la luce lampeggia, la lampada ha raggiunto l'intensità massima o minima. Memorizza l'ultima intensità.
0-100% sequential regulation by means of capacitive touch button. Flashing light indicates when the maximum or minimum intensity is reached. Last position memory.

VERSIONE HOSPITALITY
Il socio perfetto nei ristoranti.

HOSPITALITY VERSION
The perfect partner for restaurants.

1. Alimentazione a batterie estraibili tipo pila. Le pile si tolgono e si sostituiscono facilmente, garantendo così la continuità del servizio. Ricarica esterna delle pile mediante caricabatteria. Il tempo della ricarica dipende dalle caratteristiche del caricabatterie in uso. Autonomia: 12 ore al 100%, 24 ore al 50% e 48 ore al 25%. Indicatore LED per la gestione dell'autonomia.
Powered by removable batteries. Easy removal and change of batteries to avoid service interruptions. External battery charging by dedicated charger. Charging time depending on the characteristics of the charger used. Autonomy: 12h at 100%, 24h at 50% and 48h at 25%. LED indicator for autonomy management.

2. Protocollo di funzionamento integrato per ottimizzare l'autonomia del prodotto in caso di batteria scarica.
Integrated operating protocol to optimize product autonomy in case of low battery.

3. Regolazione della luminosità in 3 variazioni (25%, 50% e 100%), per garantire un'illuminazione uniforme di uno spazio con varie lampade Gustave.
3-step dimming (25%, 50%, 100%) to facilitate uniformity between the Gustave units sharing a space.

CONTROLLO TATTILE & INDICATORE LED

HAPTIC CONTROL & LED INDICATOR

Pulsante tattile capacitativo per interagire con la lampada: acceso, spento e regolazione. Tattilità avanzata, offre sensazioni di alta qualità.
Indicatore LED per la gestione dell'autonomia. Nella versione Residential, notifica lo stato della ricarica.

Capacitive touch button for interaction with the luminaire: switching on, off and dimming. Advanced haptics, high quality perceived sensation.
LED indicator for autonomy management. In the Residential version, it also informs about the charging status of the product.

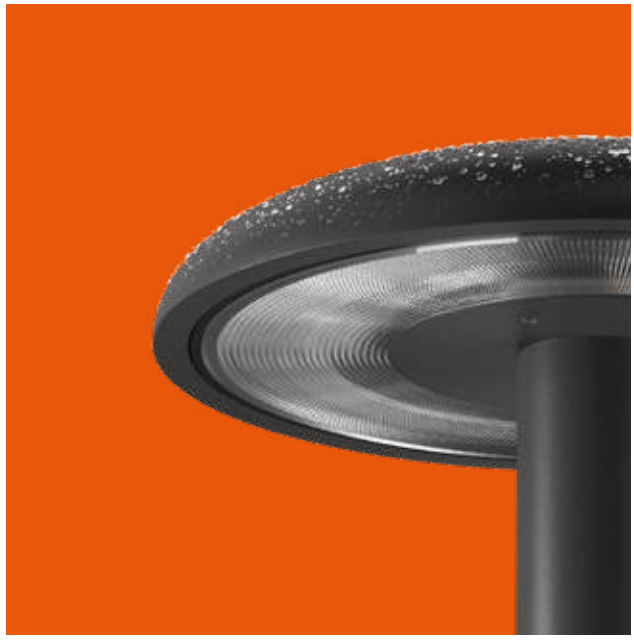

ALTA TENUTA STAGNA

HIGH WATERTIGHTNESS

Indice IP54 di protezione contro l'entrata di polvere o l'infiltrazione d'acqua. Resistente a schizzi, pioggia leggera e sporcizia normale. Creata per illuminare sia una cena in casa, sia i servizi nella terrazza o nella sala di un ristorante.

IP54 protection rating against dust and water ingress. Resistant to splashes, light rain and dirt in normal use. Created to provide lighting both for dinners at home and services on the terrace or in the dining room of a restaurant.

DISEGNO CIRCOLARE. INGEGNERIA CONTRO L'OBSOLESCENZA

Gustave (Hospitality & Residential) funziona con batterie ione-litio sostituibili. In questo modo, la vita del prodotto non è legata alla vita della batteria. Quando la batteria arriva al termine del suo ciclo di vita, può essere sostituita da una nuova. Il prodotto continua a funzionare come se fosse nuovo.

Comunque, quando la lampada diventa vecchia, l'idea del disegno circolare permette di smontarla e separarne facilmente le parti per il loro riciclaggio. Per farlo, non è necessario alcun tipo di strumento: per la sua fabbricazione non si usano né colle, né viti, né saldature.

CIRCULAR DESIGN. ENGINEERING AGAINST OBSOLESCENCE

Gustave (Hospitality & Residential) is powered by replaceable lithium-ion batteries. Thus, the life of the product is not linked to the life of the batteries. When the batteries reach the end of their life cycle, they can be replaced with new ones. The product continues to function as it did on the first day.

Moreover, when the product comes to an end, its circular design concept allows all parts to be easily disassembled and separated for recycling. All without the need for tools: it is manufactured without glues, screws or welding.

FLOS *for Planet*

Gamma di sette rifiniture. Una selezione attenta affinché Gustave possa adattarsi a qualsiasi tipo di arredamento. Stile e distinzione allo stato puro.

Range of seven finishes. A careful selection for Gustave to adapt to any type of interior design. Pure style and differentiation.

7 colori
Rifiniture esclulsive nei toni satinato e patinato, scelti da Vincent Van Duysen:
1. Matt White, 2. Matt Anthracite, 3. Laquered Brown, 4. Laquered Green, 5. Polished Silver, 6. Smooth Black, 7. Raw Aluminum.

7 colors
Exclusive matte and glossy finishes selected by Vincent Van Duysen: 1. Matt White, 2. Matt Anthracite, 3. Laquered Brown, 4. Laquered Green, 5. Polished Silver, 6. Smooth Black, 7. Raw Aluminum.

EMI

Emi, progettata da Erwan Bouroullec, combina diverse fonti di luce ad alto comfort visivo per creare un'esperienza unica di luci e ombre.
Il design di questa collezione nasce dal raggruppamento di tre moduli luminosi all'interno di estrusioni lineari e compatte che conferiscono alla lampada la forma triangolare che si riflette in tutto il suo design.

Emi, designed by Erwan Bouroullec, combines different light sources with a high level of visual comfort to create a unique experience of light and shadow. The design of this collection comes from grouping together three light modules inside compact, linear extrusions that give the lamp a triangular shape which is reflected all throughout its design.

EMI

EMI FLOOR & TABLE
La versione da terra sembra fluttuare nell'aria, sollevata da uno stelo che si collega alla base. L'illuminazione bidirezionale di questo modello è decisamente adatta alla vita contemporanea: la luce superiore ha una potenza sufficiente a illuminare l'intero spazio senza abbagliare, grazie a una conformazione specifica del fascio. La luce inferiore è morbida e tenue, perfetta da utilizzare insieme ad altre sorgenti, come una televisione o un dispositivo. La versione da tavolo funziona allo stesso modo, ma ha dimensioni più ridotte e si adatta perfettamente a qualsiasi superficie orizzontale.

The floor version seems to float in the air, disencumbered by a stem that connects to the base. The two-way lighting offered by this model is highly adapted to contemporary life: the upper light is powerful enough to illuminate the entire space without dazzling, thanks to a specific beam conformation. The lower light is soft and subdued, perfect for use with other sources such as a television or appliance. The table version operates in the same way but is smaller in size and fits perfectly on any horizontal surface.

Nella versione a soffitto, EMI si presenta sia come elemento decorativo che tecnico, con un'estetica ricercata ed elegante e un'illuminazione effettiva potente e visivamente molto confortevole.

In the ceiling version, EMI is both a decorative and a technical element, with refined, elegant aesthetics and powerful and visually very comfortable effective lighting.

Emi sfrutta i benefici di una innovativa lente in silicone che permette un controllo completo del fascio a fronte di un' efficienza elevata, resistenza al calore e massima qualità nella distribuzione luminosa.

Emi exploits the benefits of an innovative silicone lens that allows absolute beam control with an extreme efficiency, heat resistance and maximum quality light distribution.

1 Lenti in silicone microtexturizzate.
Micro-textured silicone lenses.

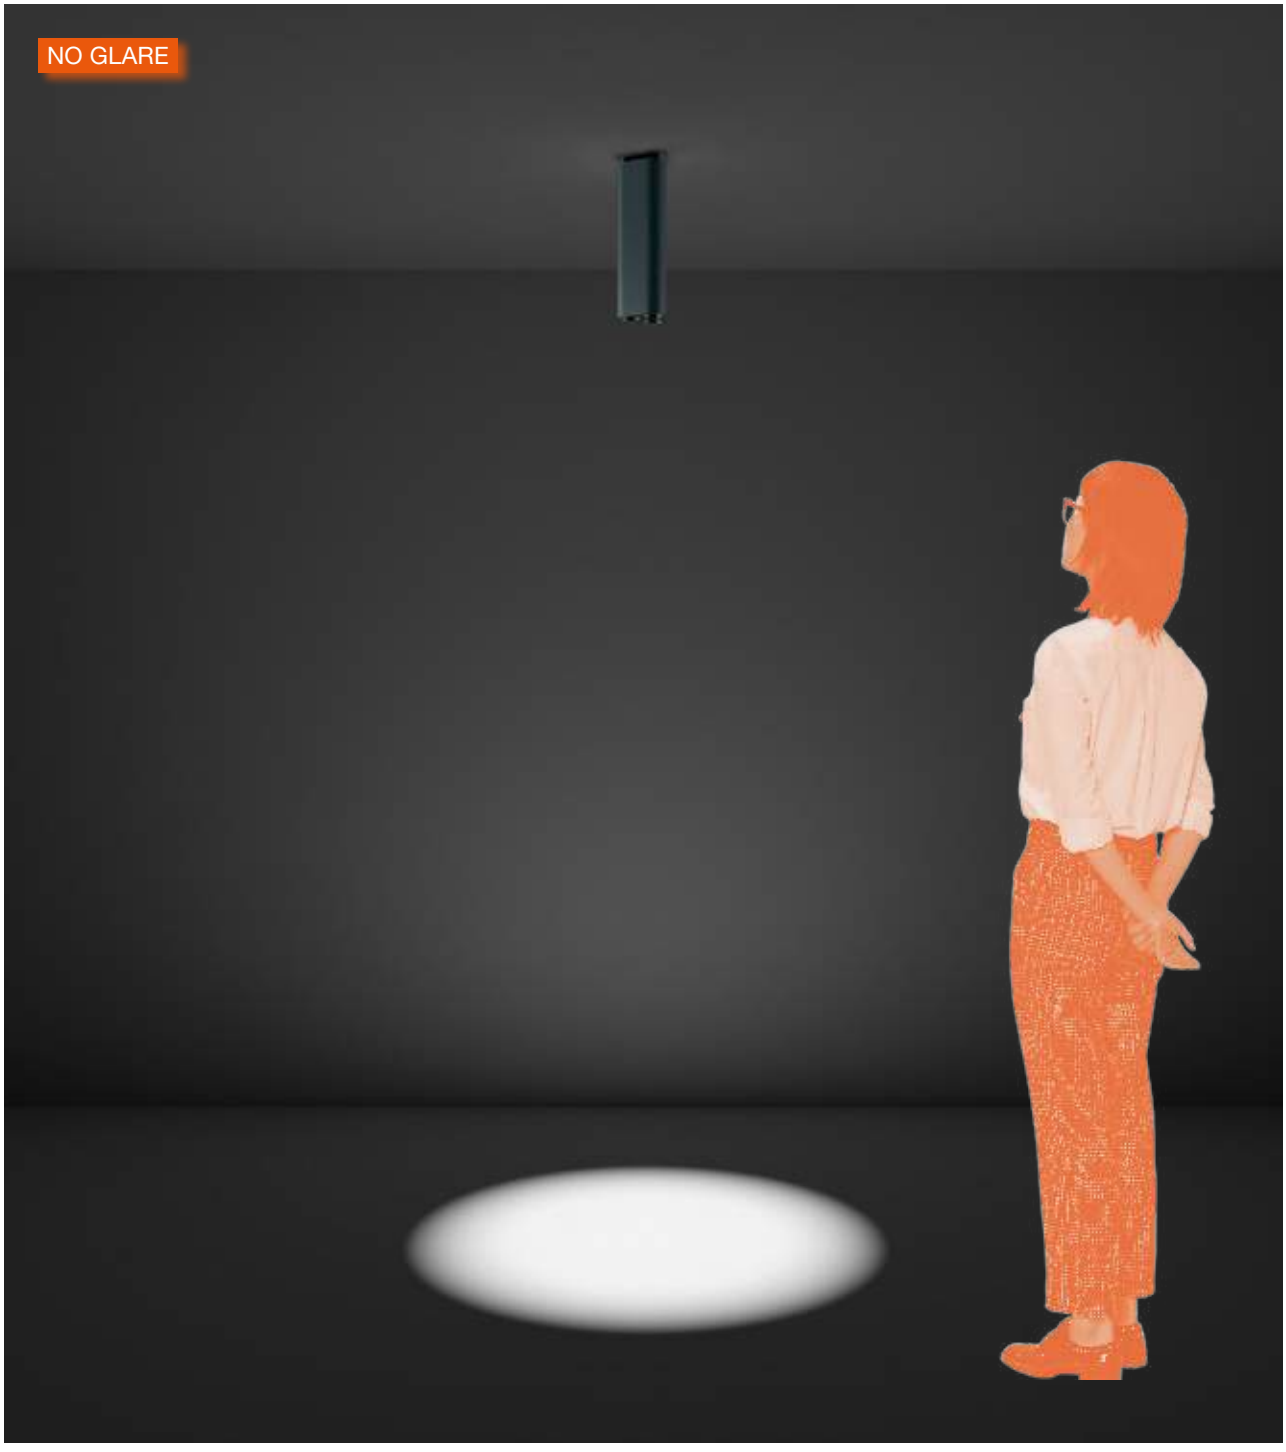

2 Oscuratore full cut-off integrato.
Integrated full cut-off attenuator.

3 Ricambio.
Spare parts.

FLOS TECHNOLOGY

Il kit ottico disponibile comprende 4 aperture del fascio di luce diverse per *Ceiling Small*, 3 per *Ceiling Large* e 1 per le versioni *Floor* e *Table*. Ogni lente è stata sviluppata per un'applicazione speciale. Sia che si tratti di fasci di luce intensa o di effetti di luce soffusa, il controllo ottico è sempre eccezionale e la luce spuria è totalmente assente.

The available lens kit includes 4 different apertures for the beam of light for *Ceiling Small*, 3 for *Ceiling Large* and 1 for the *Floor* and *Table* versions. Every lens has been developed for a special application. Whether it is for intense beams of light or diffused lighting effects, the optical control is always exceptional and there is absolutely no spurious light.

Anche accesa, EMI nasconde la sua sorgente luminosa e genera un magnifico effetto visivo: lo spazio si illumina senza rivelare da dove proviene la luce.

Even when on, EMI hides its light source and generates a magnificent visual effect: the space is illuminated without showing where the light source is.

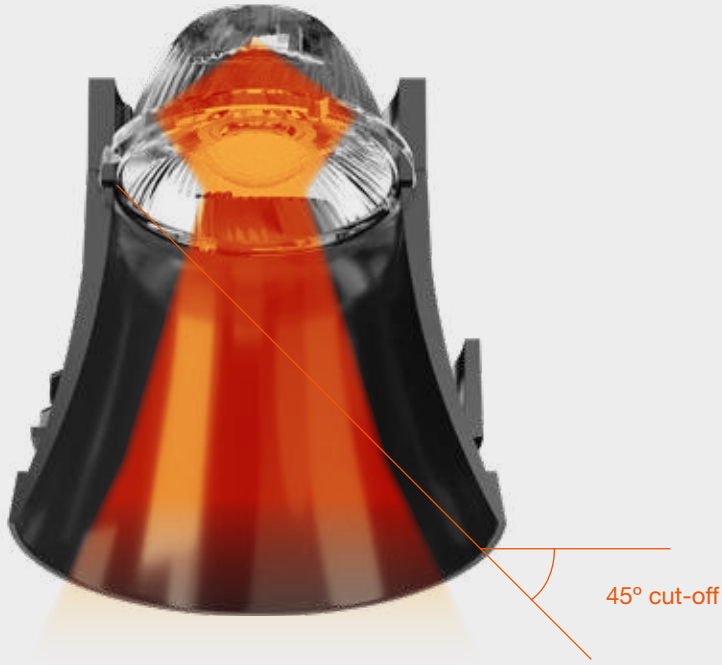

Grazie alla soluzione ottica esclusiva brevettata, Emi controlla angoli di cut-off estremi, senza rinunciare all’alta efficienza e un'incredibile versatilità del prodotto.

Thanks to the unique patented optical solution, Emi controls extreme cut-off angles without altering the high efficiency and incredible versatility of the product.

UGR<10

Lente a doppio fuoco sviluppata da FLOS appositamente per questo prodotto. Garantisce massimo controllo ottico e un'eccezionale omogeneità del fascio luminoso.

Dual-focus lens developed by FLOS specifically for this product. It ensures maximum optical control and exceptional light beam homogeneity.

LE GRAND LIVRE DES MONTAGNES

La collezione Emi è disponibile in tre versioni: a soffitto, da terra e da tavolo. Questa varietà permette di adattare la luce di Emi sia agli spazi domestici che a quelli di *hospitality*.

The Emi collection is available in three versions: ceiling, floor and table. This variety helps adapt the light of Emi to spaces both at home and in hospitality.

L'uso ripetuto di un linguaggio simile in tutti i modelli permette di posizionare molteplici corpi luminosi dal linguaggio comune, che possono essere disposti nello spazio attraverso l'iterazione, l'allineamento e la simmetria. Questo rende Emi un nuovo tipo di illuminazione architettonica che può essere utilizzata in modo seriale, fornendo un design uniforme che si integra perfettamente nell'architettura circostante.

The repeated use of a similar style in all the models lets you position multiple luminaires with the same style, which can be arranged in a space through repetition, alignment and symmetry. This makes Emi a new type of architectural light that can be used as a series, providing a uniform design that fits in perfectly with the surrounding architecture.

La palette di colori disponibili è stata commissionata specificatamente da Erwan Bouroullec per rivestire il design di EMI di quattro eleganti tonalità che donano una presenza magica e scultorea a questo "giunco architettonico".

The available colour palette has been commissioned specifically by Erwan Bouroullec to cover EMI's design in four stylish shades that add a magical, sculptural presence to this "architectural reed".

EMI dispone di *Spare Parts* per la manutenzione o la sostituzione dei suoi gruppi ottici. Ogni unità ottica può essere sostituita singolarmente per agevolare la manutenzione, mentre l'assenza di colle e saldature semplifica lo smontaggio e il corretto smaltimento delle singole parti alla fine della vita utile del prodotto.

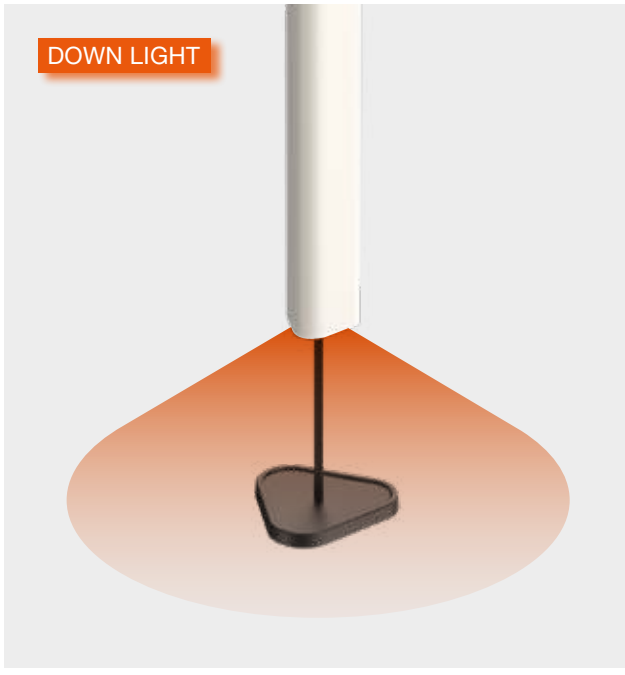

EMI has *Spare Parts* for maintenance or replacement of its lens units. Every lens unit can be replaced individually to make maintenance easier, while the absence of glues and welding simplifies the disassembly and correct disposal of individual parts at the useful end of the product's life.

I modelli *Ceiling* sono disponibili con opzioni di regolazione Non Dimming, DALI, 1-10V e Mains Dimming. Le versioni *Floor* e *Table*, invece, si possono regolare con sensori capacitivi Touch Dimming posizionati nella parte superiore dello stelo centrale.

The *Ceiling* models are available with the following setting options Non Dimming, DALI, 1-10V and Mains Dimming. While the *Floor* and *Table* versions can be adjusted with Touch Dimming capacitive sensors in the top part of the central rod.

OBLIQUE

BB

L L

I I

Q Q

U U

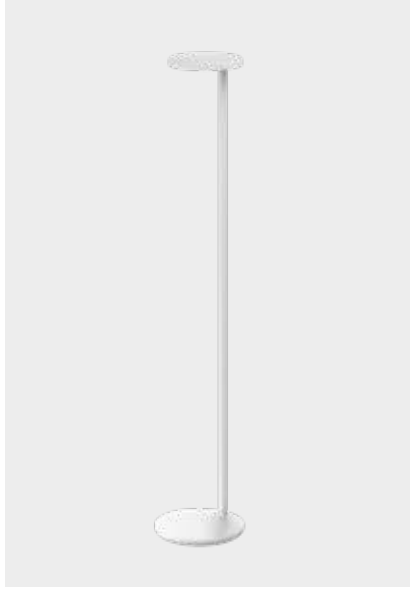

E E

Oblique è una lampada rivoluzionaria: il fascio luminoso asimmetrico controllato emesso ha un UGR inferiore a 10 per una protezione antiriflesso eccezionale. Oltre al modello da tavolo (per applicazioni desktop), Oblique Floor svolge la sua funzione in modo analogo nelle applicazioni di illuminazione operativa per sedie da lettura, lounge chair e altri spazi, sia domestici che professionali.

Oblique is a revolutionary lamp: produces a controlled asymmetric light beam which UGR is lower than 10 for an exceptional anti-glare protection. Besides the table model (for desktop applications), Oblique Floor fulfills its function in an analogous way in task lighting applications for reading chairs, lounge chairs and other spaces, both domestic and professional.

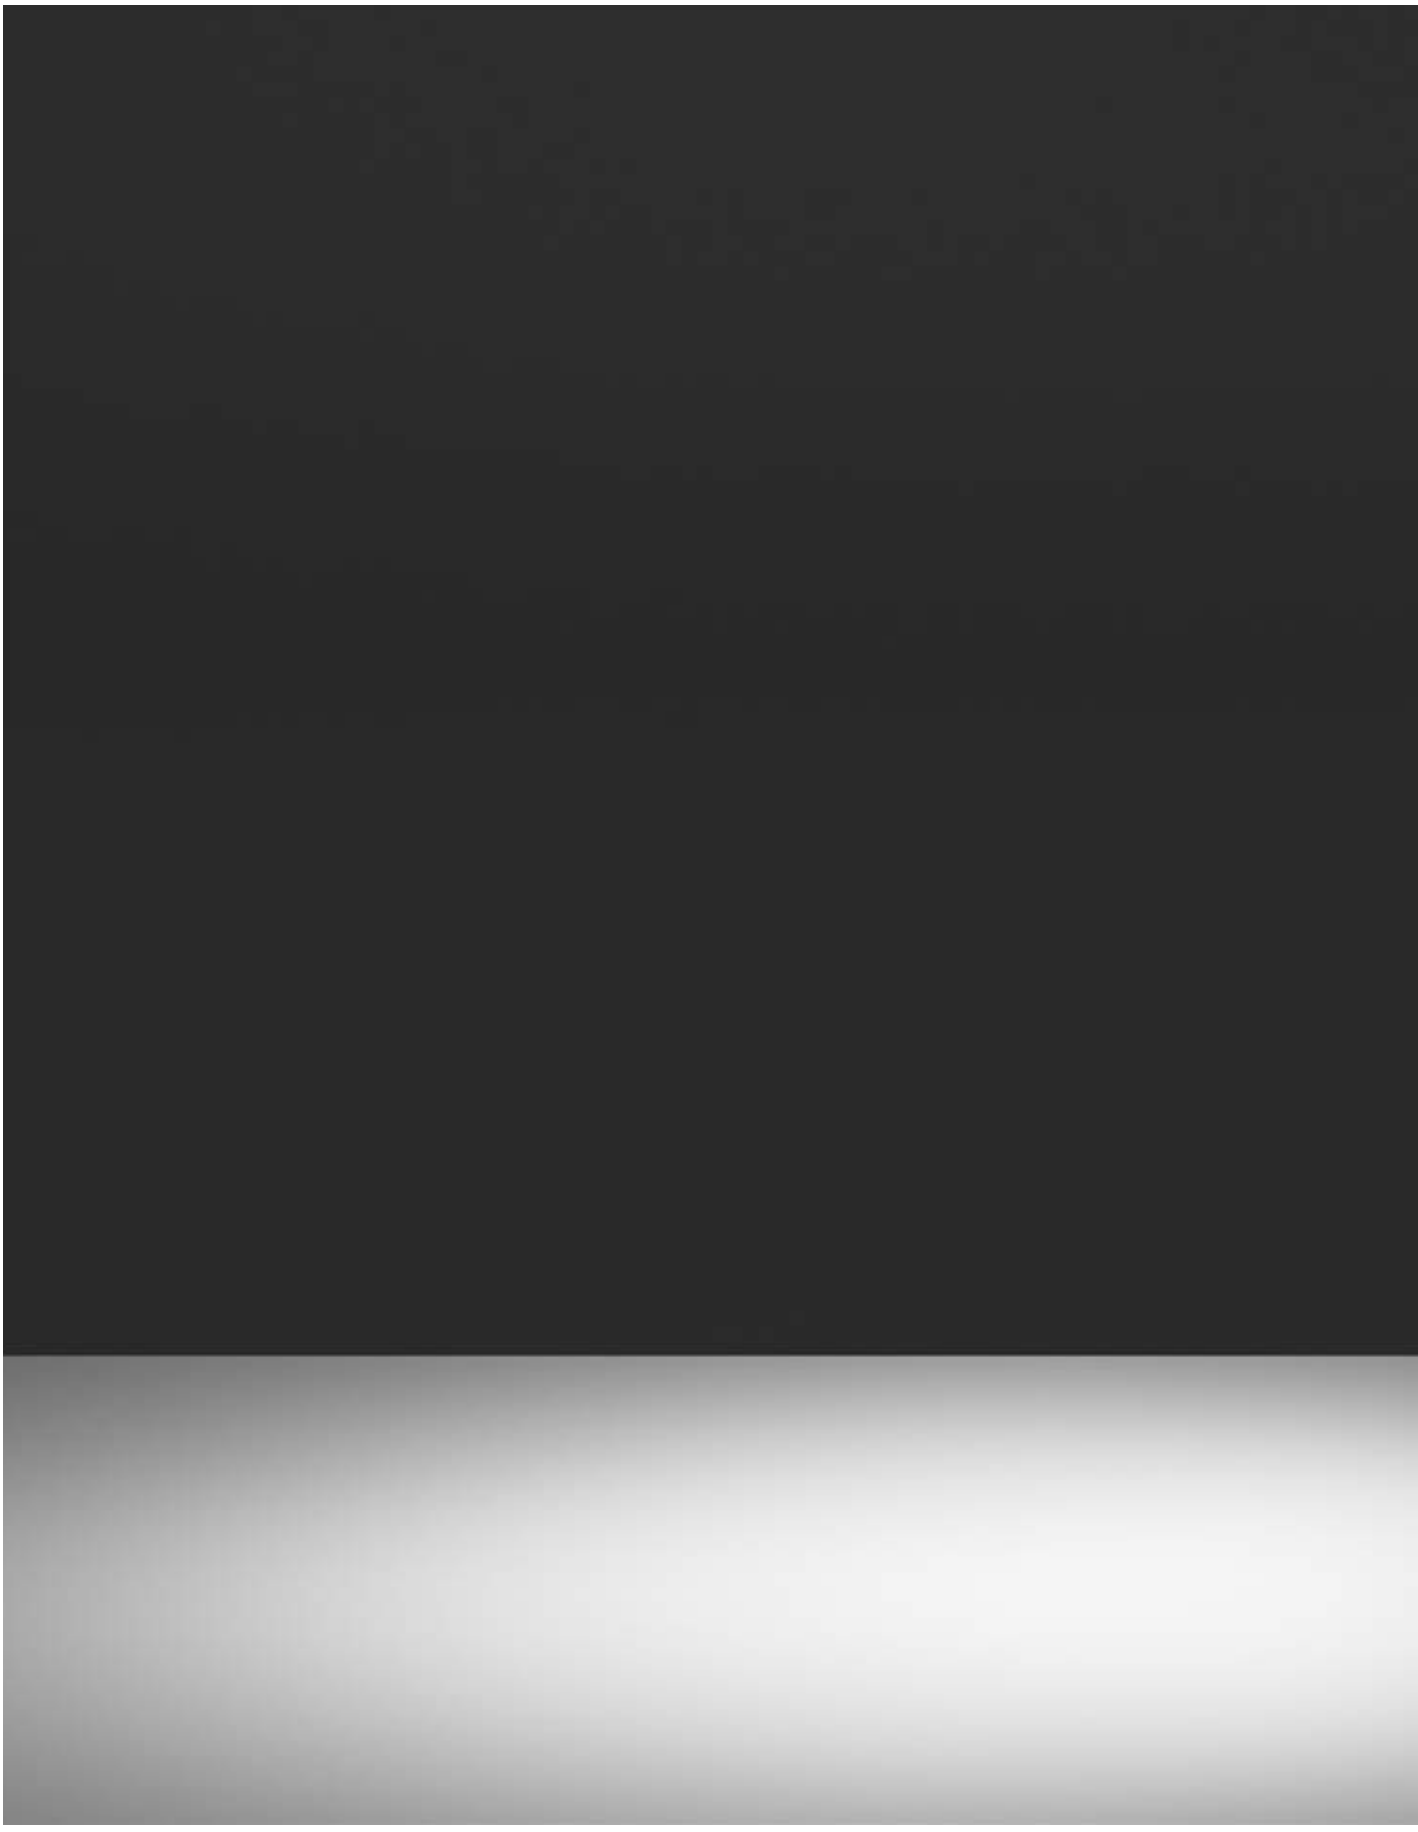

OBLIQUE

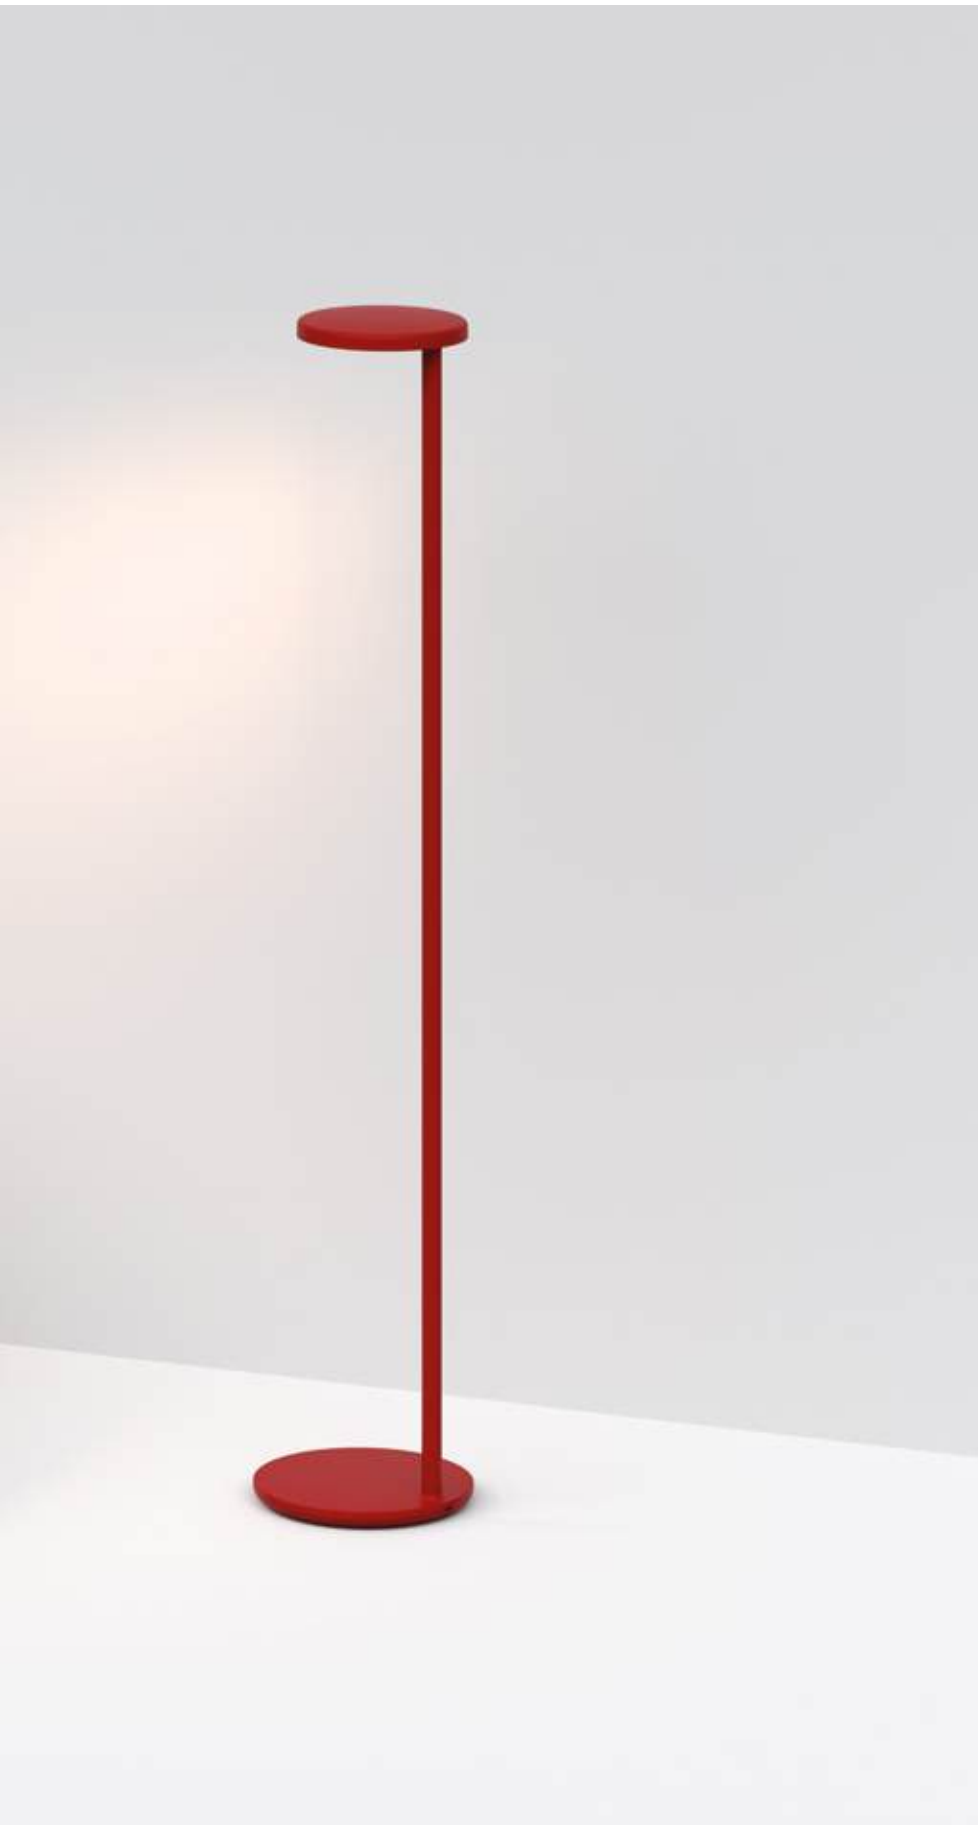

Oblique è il nuovo concetto di illuminazione da tavolo per un ambiente di lavoro. A differenza del tradizionale archetipo di lampada da scrivania con braccio articolato, Oblique è una lampada a struttura fissa, simile a una scultura. Un'ottica asimmetrica orienta il fascio di luce verso la zona di lavoro, permettendo così di conservare la stabilità della struttura, la purezza della sua forma e l'eleganza della sua presenza. L'avanguardia tecnica e la bellezza Flos vanno a braccetto.
La stessa filosofia inspira Oblique Floor: compie la stessa funzione ma come apparecchio di illuminazione ausiliare da abbinare a sedie da lettura, poltrone da salotto o altri ambienti, sia privati che professionali.

Oblique reformulates tabletop lighting in workspaces. In contrast to the traditional archetype of the desktop luminaire with an articulated arm, Oblique is an immobile piece, almost a sculpture. The light is projected towards the work area by an asymmetrical emission of the beam, maintaining the static nature of the piece, its formal purity and its elegant presence. Technical avant-garde and Flos beauty go hand in hand.
The same philosophy is followed by Oblique Floor, which fulfills its function in an analogous way in task lighting applications for reading chairs, lounge chairs and other spaces, both domestic and professional.

Il cuore di questa lampada è il frutto di una vera e propria sfida tecnologica. Racchiusi in uno spessore di soli 5 millimetri LED e lenti sono in grado di generare un fascio di luce estremamente potente e controllato.

The heart of this lamp is the result of a real technological challenge. The LEDs and lenses can generate an extremely powerful and controlled light beam from the inside of a just 5 mm thick space.

L'eccellenza del comfort: UGR inferiore a 10 per un'eccezionale protezione dall'abbagliamento, omogeneità nella distribuzione della luce e prestazioni in termini di lux conformi ai più severi standard del settore.

The excellence of comfort: UGR is lower than 10 for an exceptional anti-glare protection, homogeneity of light distribution and lux performance, in accordance to the strictest industry standards.

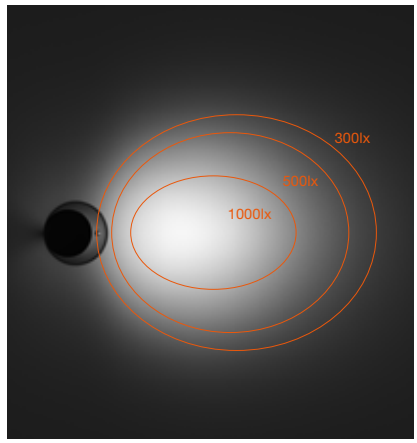

Lente ultrapiatta brevettata ad altissima efficienza 97%. Testa piana arrotondata per il minimo ingombro visivo.

Patented ultra-flat lens with a very high efficiency of 97%. Rounded flat head for minimum visual intrusion.

Base con sistema di ricarica wireless integrato. Permette di caricare lo smartphone liberando la scrivania da cavi e grovigli inestetici.

Base with integrated wireless charging system. Allows you to charge your smartphone while freeing your desk from unsightly crossed cables.

Oblique include sempre una porta USB-C integrata nella base per poter ricaricare dispositivi esterni.

Oblique always features a USB-C port integrated in the back of the base that can be used to charge additional devices.

Il pulsante capacitivo situato nella parte inferiore della testa dell'apparecchio offre un'interazione tattile di altissima qualità e consente il controllo del funzionamento e della regolazione di Oblique Floor.

The capacitive button at the bottom of the luminaire head offers the highest quality haptic interaction and allows control of the functioning and dimming of Oblique Floor.

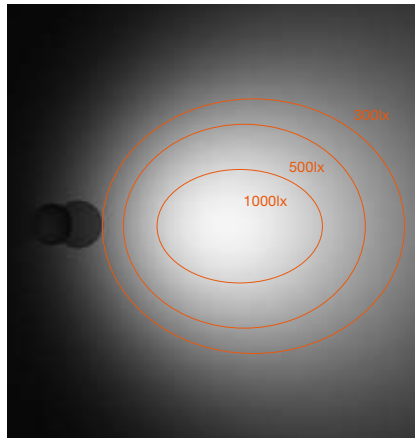

Grazie all'altezza scelta e allo studiato angolo asimmetrico, Oblique Floor è un apparecchio di illuminazione perfetto per essere accostato a una poltrona in un angolo lettura.

Due to its chosen height and the studied asymmetrical angle of Oblique Floor, this is an ideal luminaire for reading lighting next to armchairs or reading chairs.

Collezione disponibile con differenti rifiniture, dal classico bianco, grigio e antracite ai più sofisticati toni pastello, pensati con il proposito di rendere più personalizzato l'ambiente di lavoro.

The collection is available in different finishes, from the classic white, grey and anthracite, to the most sophisticated pastel shades, specifically created to customize the working environment.

DIVERSION
DIVERSION
DIVERSION
DIVERSION
DIVERSION
DIVERSION

Innovativo sistema del profilo miniaturizzato disegnato da Piero Lissoni per installazione a superficie e in sospensione, caratterizzato da una elevata flessibilità. Una guida multifunzione, che integra linee di luce e piccoli faretti, in grado di adattarsi a qualsiasi necessità architettonica e di creare innumerevoli forme geometriche.

Innovative minimized profile system designed by Piero Lissoni for surface and suspended installation characterized by an extreme flexibility. A multifunctional rail integrating light and small spots to adapt to any architectural need allowing to create countless geometries.

DIVERSION

I profili sono combinabili, permettendo di creare infinite configurazioni. Ogni dettaglio è stato studiato come parte di un programma completo. Il risultato è una soluzione di illuminazione perfettamente equilibrata, molto elegante e quasi invisibile.

Profiles can combine to obtain endless configurations. Every detail has been conceived as part of a complete program, the result is a perfectly balanced, highly stylish yet almost invisible lighting solution.

1 SURFACE PROFILE

2 SUSPENSION PROFILE

3 ATOM SPOT

2

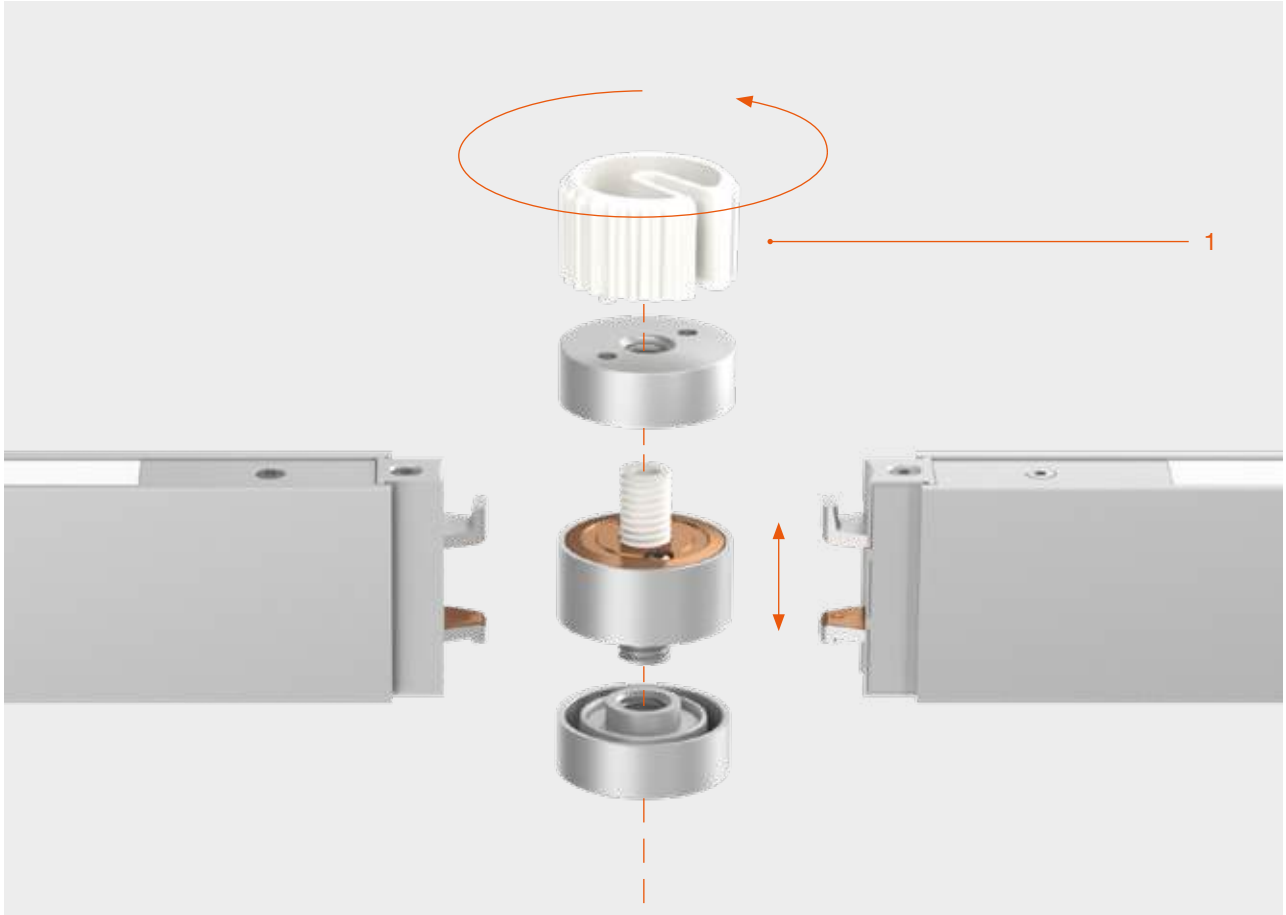

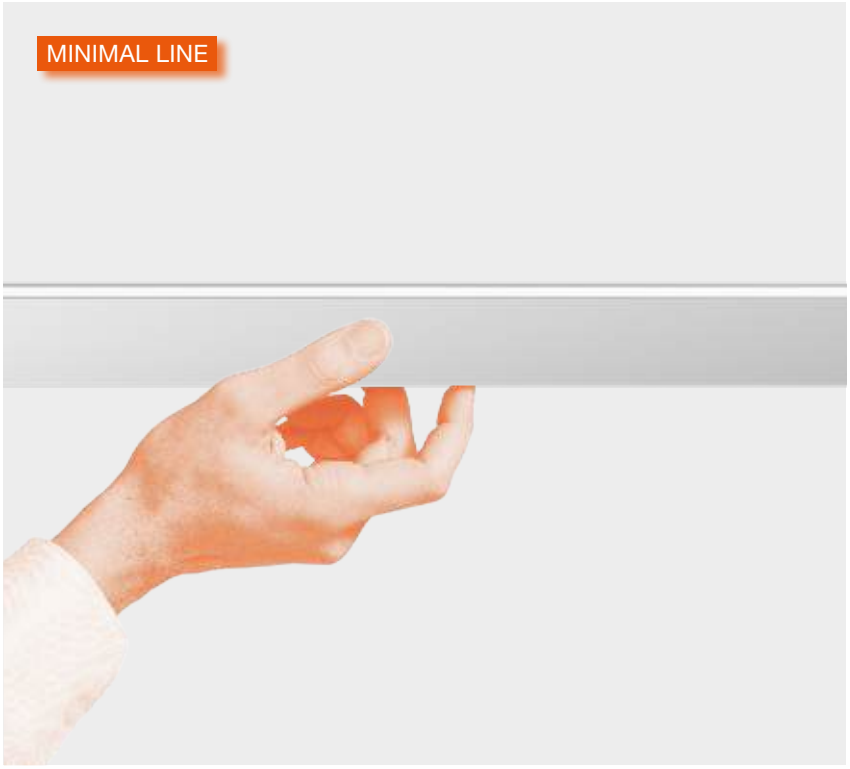

Il segreto di Diversion per creare geometrie creative e versatili è un giunto di connessione unico patentato che permette di creare configurazioni a 360° con i profili, e di collegarne fino a 8. Una rivoluzione nell'illuminazione a sistema.

The key for Diversion to achieve creative and versatile geometries is a unique patented connection joint that allows the profiles to create 360° configurations, easily connecting up to 8 profiles together. A revolution in system lighting.

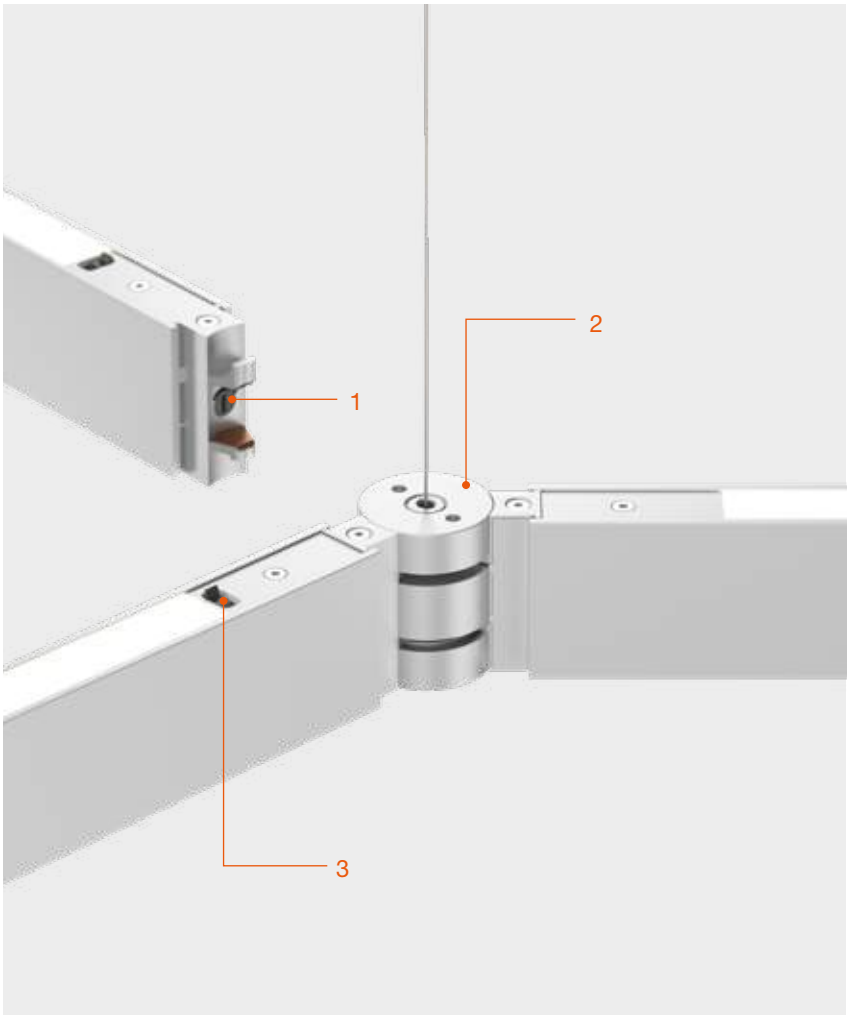

1 Uno strumento speciale è stato disegnato insieme al giunto meccanico patentato per bloccare i profili in posizione, garantendo il passaggio di corrente per l'alimentazione.

A special tool has been designed together with the patented mechanical joint to lock profiles in position feeding them at the same time.

Una linea minimale di solo 34mm di spessore, ottenuta grazie a una estrema miniaturizzazione dei componenti elettronici ed ottici. Diversion offre una collezione completa di apparecchi di illuminazione per coprire ogni necessità.

A minimal line only 34 mm height, achieved trough the extreme miniaturization of the electronics and the optical bodies. Diversion offers a complete collection of lighting tools for any need.

1 INTERRUTTORE INTEGRATO: ciascun profilo presenta un interruttore incorporato su entrambe le estremità. In questo modo è possibile bloccare il flusso di elettricità, permettendo di alimentare una struttura complessa partendo da vari punti di alimentazione.
INTEGRATED SWITCH: each single profile features an embedded switch at both ends. This allows to block the elcetricty flow being able to feed a complex structure from multiple feeding points.

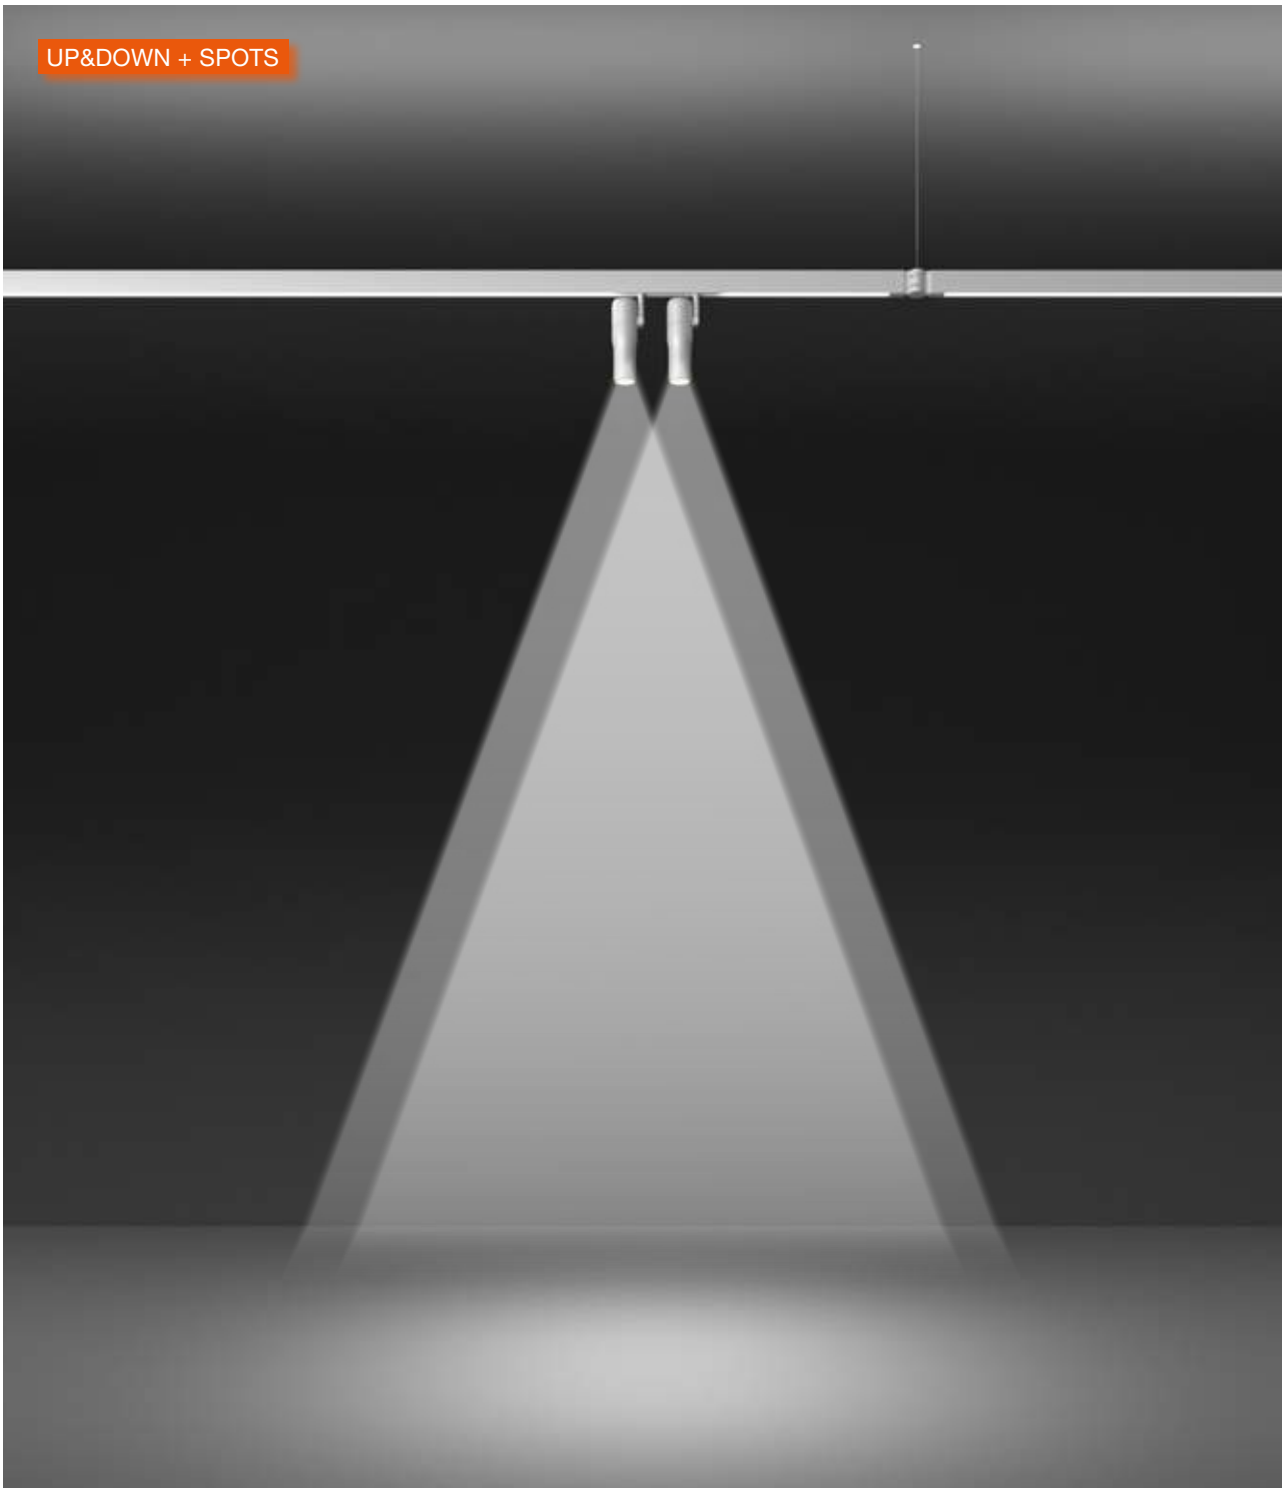

2 GIUNTO PATENTATO: questo sistema speciale di giunzione mantiene i profili in posizione, permettendo di combinarne fino a 8 contemporaneamente. L'elettricità viene reindirizzata nei profili attraverso questo componente fondamentale.
PATENTED JOINT: the special joint system locks the profiles into position allowing to combine up to 8 of them together. Electricity comes into the profiles redirected through this key component.

3 SELETTORE UPLIGHT: tutto il sistema è controllato simultaneamente. Tuttavia, i moduli con emissione di luce indiretta, sono completi con un interruttore integrato che permette di regolare la luce della parte superiore al 50%.
UPLIGHT SELECTOR: the entire system is controlled simultaneously. Nevertheless, modules featuring indirect light emission have a top switch to dim uplight to 50%.

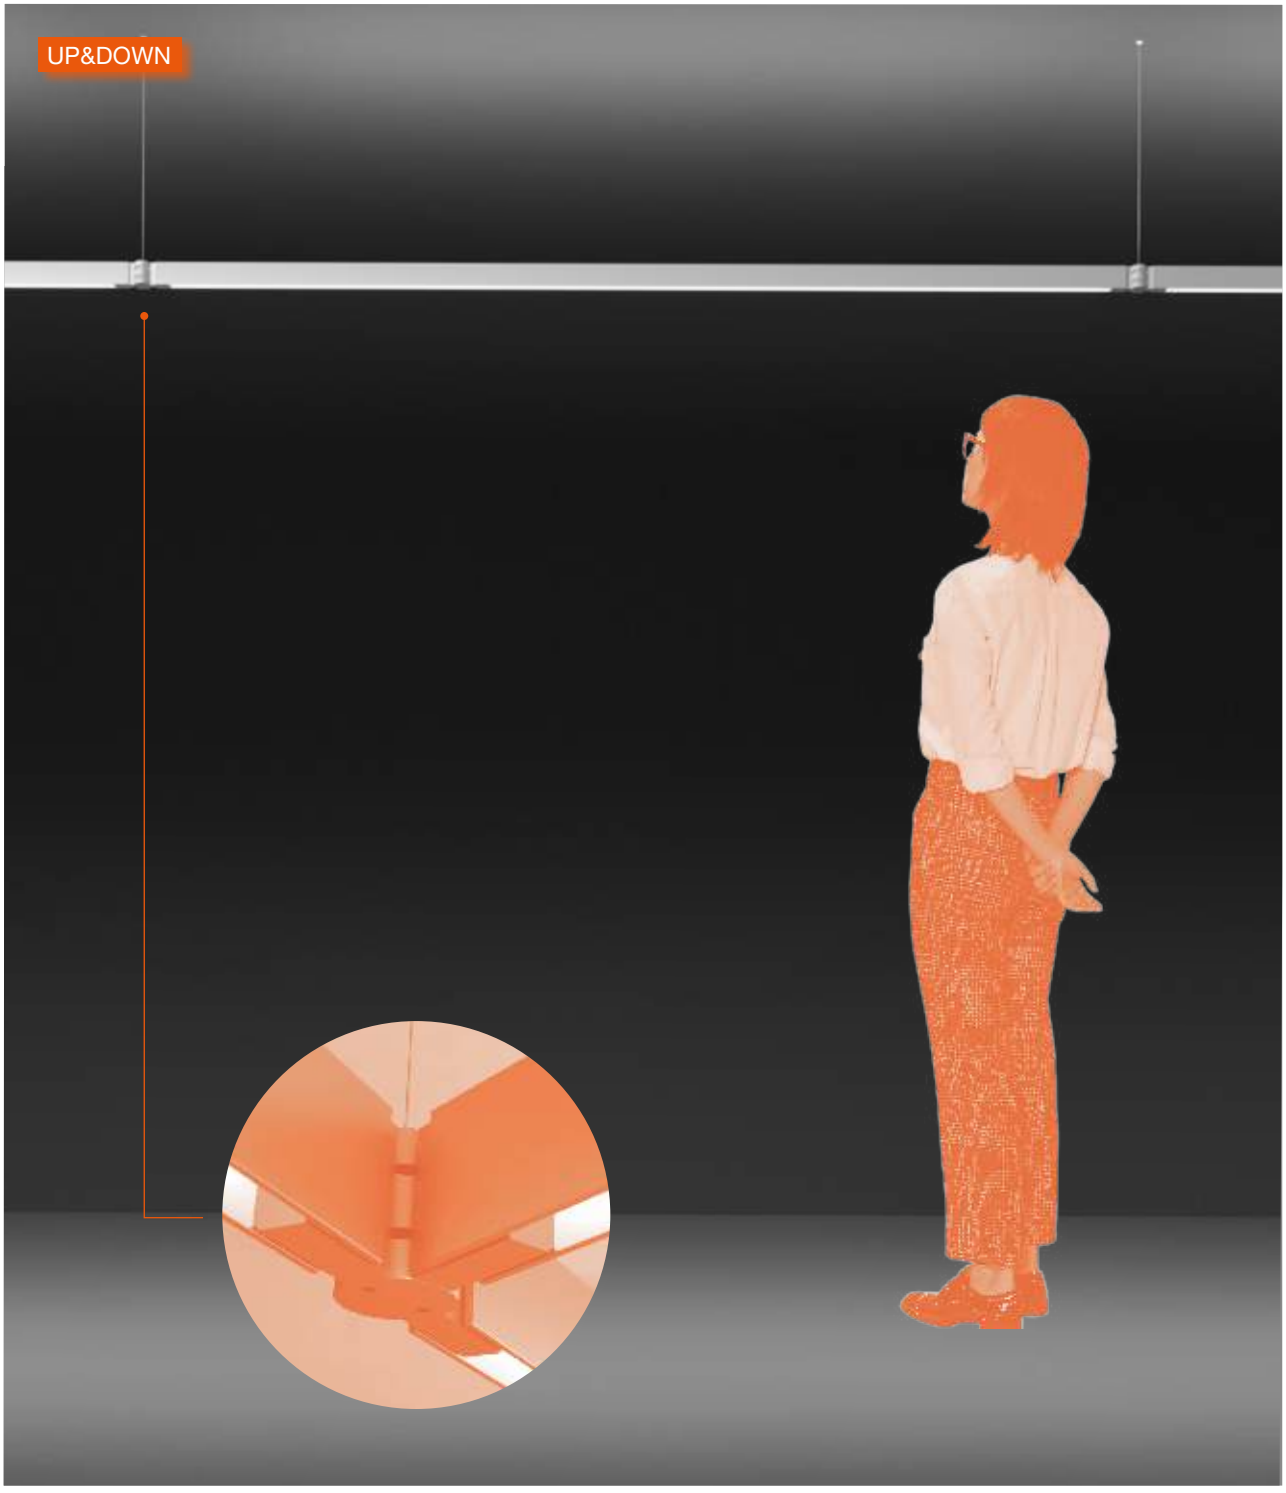

I faretti, combinati con l'emissione diffusa ed omogenea proveniente da tutti i profili, consentono di cambiare radicalmente l'aspetto di qualsiasi scena, permettendo ai designer di giocare con contrasti e rilievi.

Spotlights combined with the soft even emission that comes from all profiles can radically change the appereance of almost any scene, allowing designers to play with contrasts and highlights.

L’emissione diretta garantisce il massimo confort visuale, grazie alla posizione ad incasso profondo delle fonti LED che rimangono nascoste alla vista. L’emissione indiretta assicura un’esperienza visuale molto più gradevole nella stanza.

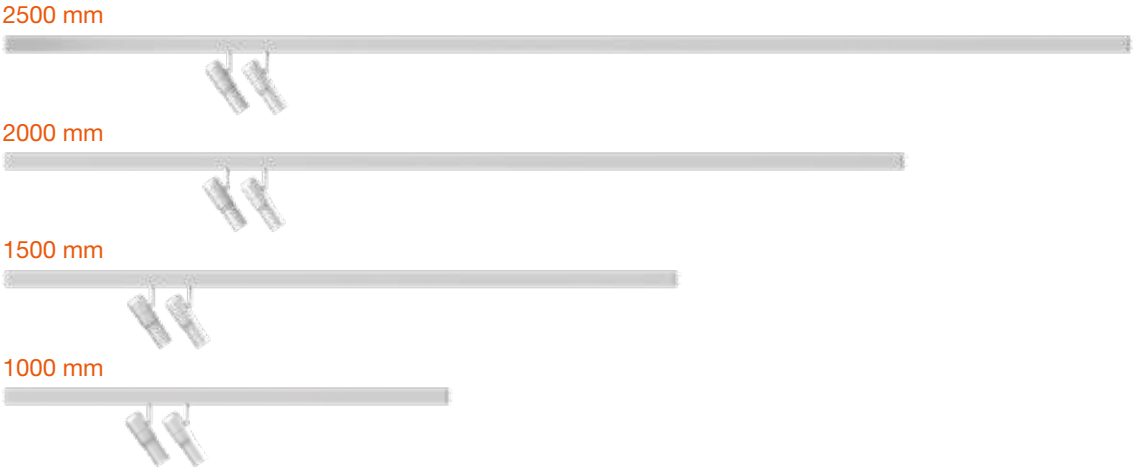

The direct emission ensures the utmost visual comfort thanks to a highly recessed position of the LED sources that remain hidden from view. The indirect emission provides an even more comfortable visual experience in the room.

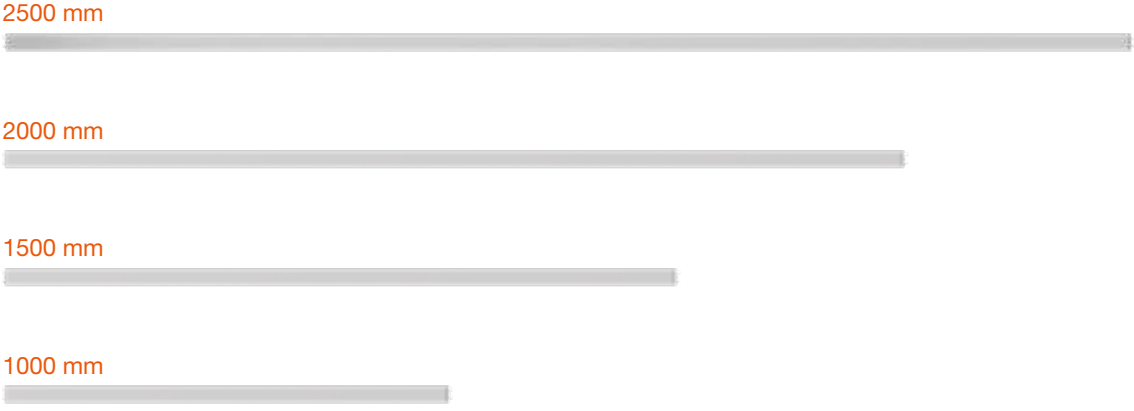

Diversion è disponibile in una gamma professionale completa, composta da due profili diversi che permettono un'emissione diretta o diretta/indiretta. La lunghezza massima disponibile per un singolo profilo è di 2500 mm. Entrambe le versioni possono essere combinate con illuminazione d'accento, grazie ad una soluzione speciale che permette di integrare fino a due faretti Atom.

Diversion is available in a complete professional range including two different profiles that feature direct emission or direct/indirect emission. Maximum length available for a single profile is 2500 mm. Both versions can also combine accent lighting thanks to a dedicated solution allowing to integrate up to two Atom spots.

ZERO T

ZERO

ZER

ZE

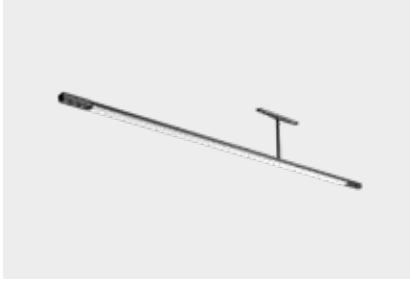

Z

Sistema composto da un profilo a bassa tensione (24V) per installazione a superficie che, grazie alla sua miniaturizzazione e alla semplicità geometrica, crea un effetto ad incasso soffitto/parete. Zero Track & Pro unisce la facilità di applicazione di una struttura a superficie all'eleganza estetica di un'installazione ad incasso.

Surface low voltage (24V) profile with a sleek, streamlined design to create a visual-flush solution for walls and ceilings. Zero Track & Pro combines the easy application of a surface structure with the sleek elegance of a flush installation.

ZERO TRACK & PRO

Restaurant Hert, Belgium

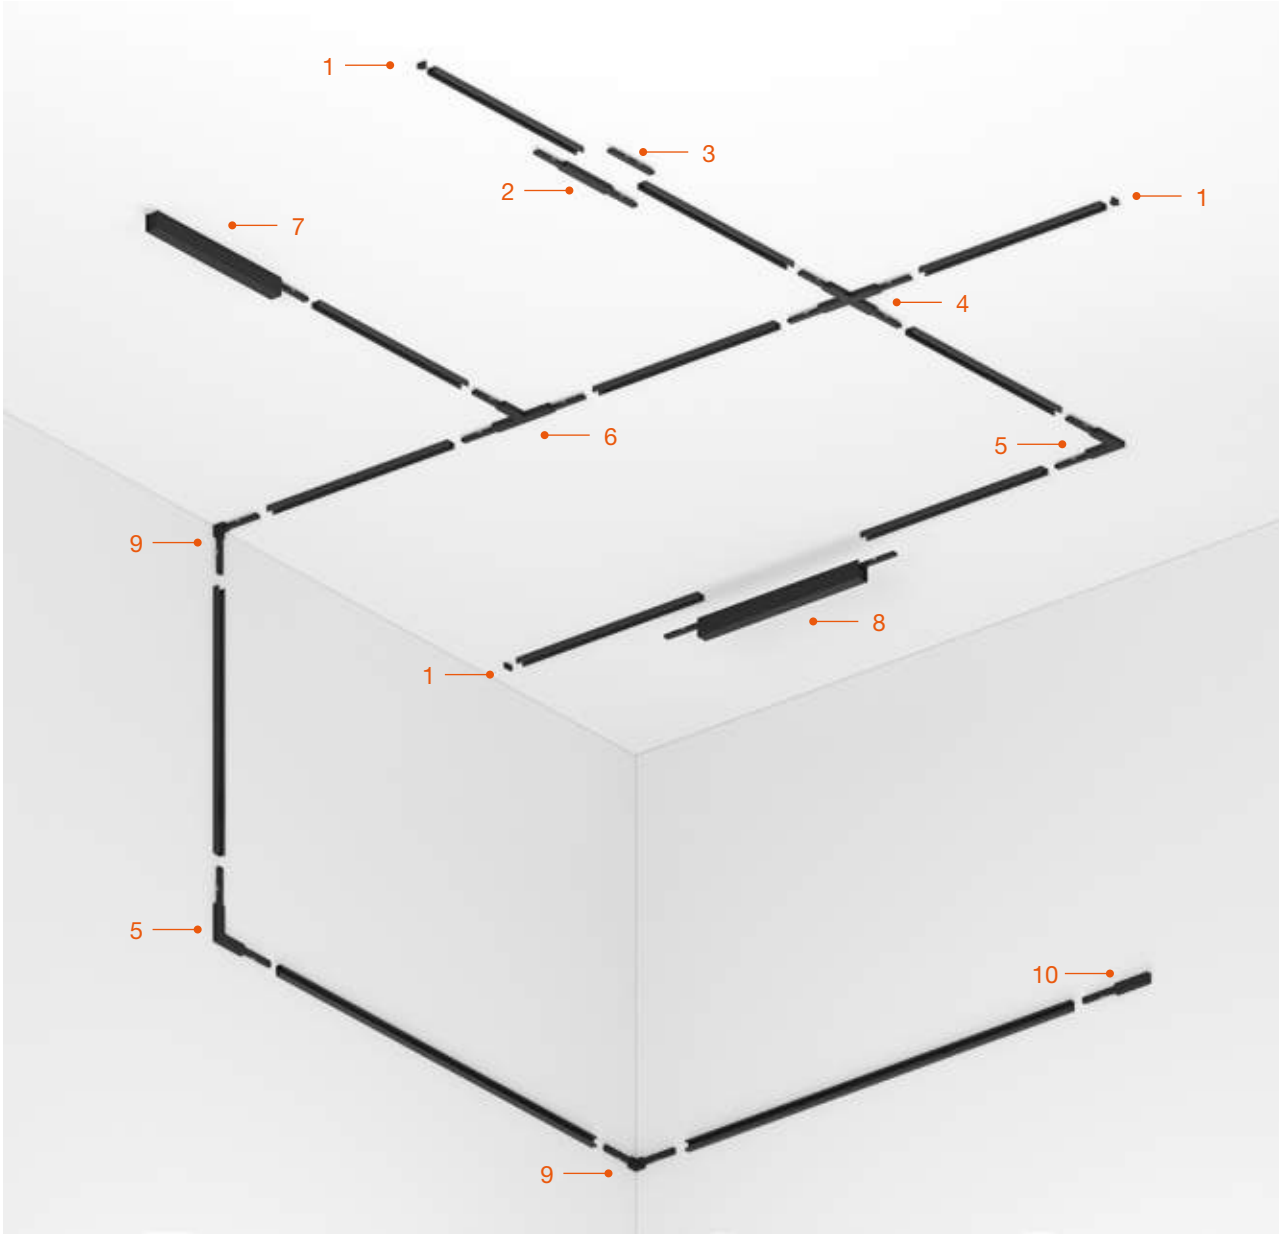

1. Blind End
2. Linear Conector Feed
3. Staight Connector
4. X Connector Feed
5. 90° Corner Feed
6. T Connector Feed
7. Power Supply Surface End
8. Power Supply Surface Middle
9. Inner Corner
10. Live End Feed

La perfetta integrazione permessa dall'architettura di Zero Track & Pro dà altresì spazio ad una notevole versatilità di percorsi e linee grazie ai giunti a "T", "X", "L" e angoli interni diedri per cambi di quota soffitto-parete, parete-parete e viceversa.

Perfect integration with the Zero Track & Pro architecture also enables considerable versatility with tracks and lines with T, X and L joints, plus interior angles for ceiling-wall and wall-wall plane variations.

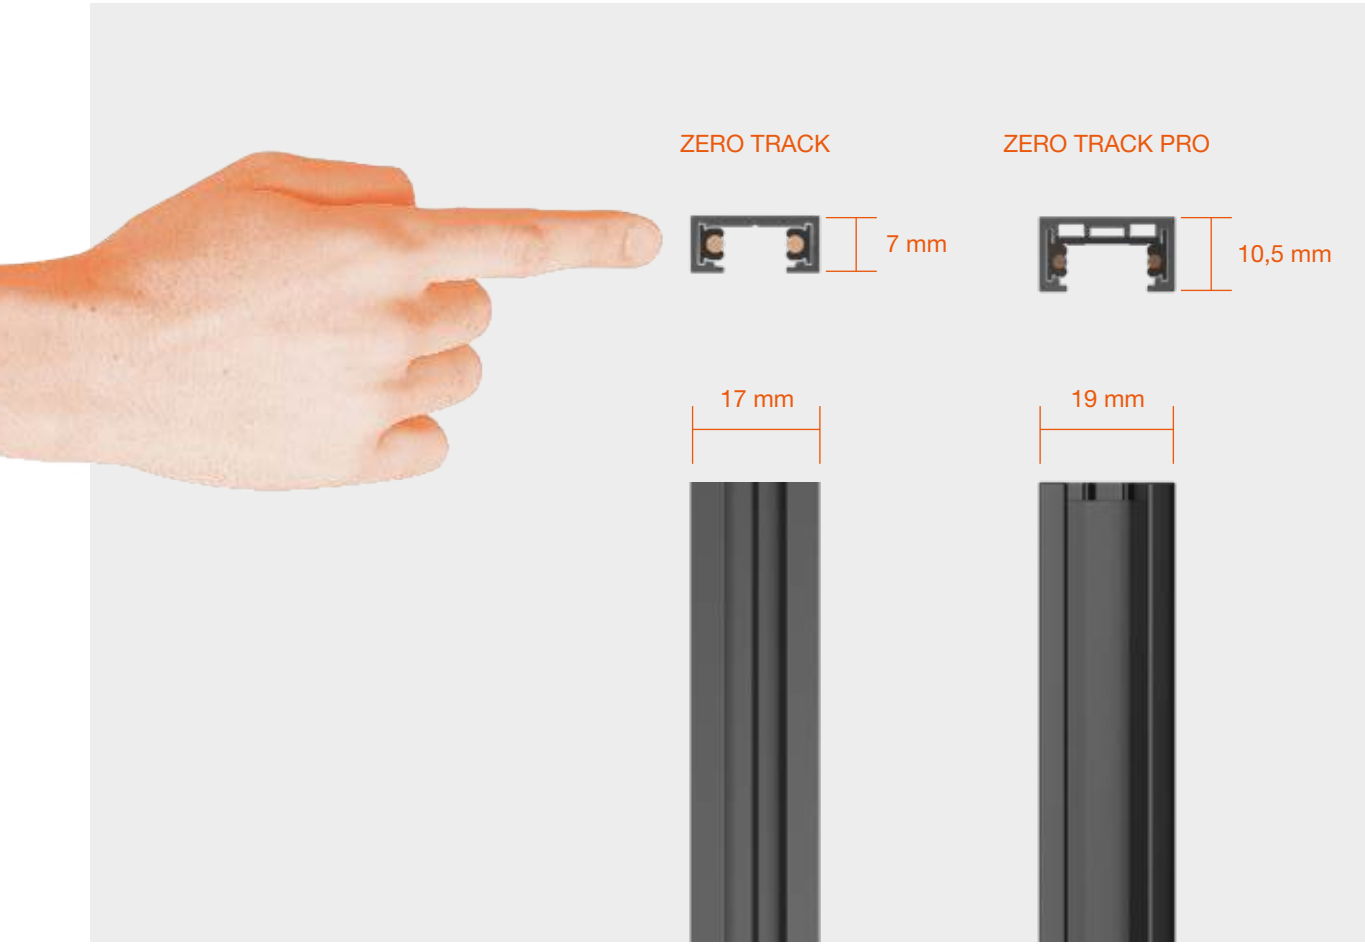

A livello visivo, le dimensioni di Zero Track & Pro ne rendono la tridimensionalità quasi invisibile alla normale distanza da cui si osserva questo tipo di prodotto una volta installato. Pertanto, esteticamente Zero Track & Pro risulta un profilo trimless.

The dimensions of Zero Track & Pro ensure that visually its three-dimensionality is almost not perceived at the normal distance at which this type of product is installed. The Zero Track & Pro solution therefore looks like a trimless profile.

ZERO TRACK & PRO SYSTEM

1 BUS* per la trasmissione dei dati.
Data transmission BUS*.

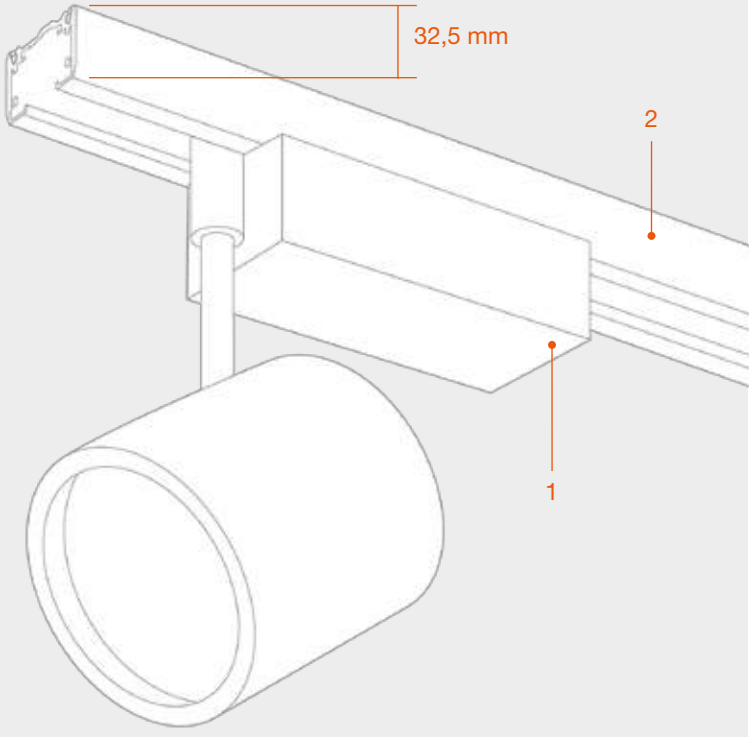

2 Conduttori elettrici a bassa tensione.
Low voltage electric conductors.

3 Elettronica di controllo wireless Casambi, integrata nell'apparecchio. (* Consultare i modelli).
Casambi wireless control electronics, incorporated in the light. (* See models).

Nella sua minuscola sezione, Zero Track & Pro dispone di conduttori elettrici e BUS* per la trasmissione dei dati. Questo aspetto lo rende una soluzione compatibile con i sistemi di controllo più esigenti per gestire gli apparecchi singolarmente (punto a punto), sia con protocollo DALI* sia tramite controllo wireless Casambi. Inoltre, è possibile disporre di gestione in modalità broadcast 1-10V*.

Zero Track Pro features a small section with electric conductors and data transmission BUS*. The result is a compact solution with the most selective control system for managing lights individually (point to point) via DALI* protocol or wireless Casambi control. Similarly, 1-10V* broadcast control is possible.

TRADITIONAL SYSTEM

1 Motore Tradizionale.
Traditional Engine.

2 Guida Tradizionale.
Traditional Track.

* Solo Zero Track Pro / * Only Zero Track Pro

Oltre alla versione di alimentazione con apparecchio remoto, Zero Track & Pro, in alternativa, può alimentare il sistema tramite un'apparecchiatura a vista annessa al binario, grazie alla "Scatola di alimentazione a superficie", disponibile come accessorio.

In addition to the remote power supply option, Zero Track & Pro features an alternative with the system powered from a surface power supply box offered as an accessory.

FIND ME

La gamma di apparecchi Zero Track & Pro include i faretti di Find Me, disegnati da Jorge Herrera. Questo design innovativo è disponibile in tre grandezze, tra cui il nuovo Find Me 0, che offre i design minimali della fortunata collezione Find Me.

The Zero Track & Pro luminaire range includes the Find Me spots designed by Jorge Herrera. This innovative design embraces three different sizes, including the new Find Me 0, which brings the minimal designs of the successful Find Me collection.

ATOM

Con lo squisito tocco di design di Piero Lissoni, il sistema Zero Track & Pro offre Atom: una serie di faretti in tre grandezze, perfetti per illuminazione d'accento. Il sistema Zero Track & Pro offre il massimo livello di comfort grazie alla posizione profonda dell'ottica e agli accessori di schermatura inclusi in ogni faretto, completati da un apparecchio di forma rotonda per un'illuminazione generale.

With the exquisite design touch of Piero Lissoni, the Zero Track & Pro system offers Atom: a series of spotlights in three different sizes, perfect for an accent lighting. The Zero Track & Pro system provides the highest comfort level thanks to the deep position of the optic and the screening accessories included with each spot, completed by a round shape luminaire for a general lighting.

La tecnologia ad alto comfort visivo e lenti bifocali della famiglia Light Shadow è presente anche in Zero Track Pro con le misure 30 e 45 di Light Shadow Spot.

The visual high-comfort technology and dual-focus lenses in the Light Shadow range are also available with Zero Track Pro Light Shadow Spot 30 and 45.

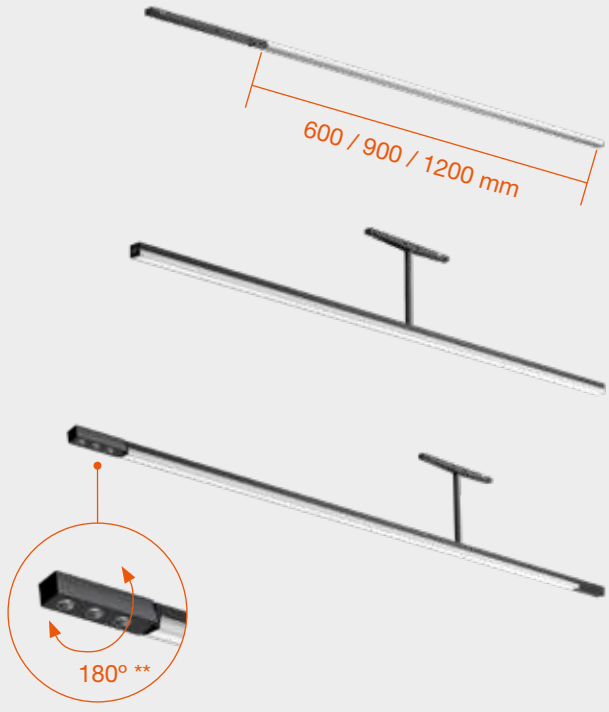

LIGHT SHADOW SPOT *

Con Magic Stick, disegnati da Jorge Herrera, e le linee di luce (integrate in Zero Track & Pro) si ottiene un effetto di illuminazione generale diffusa ed è possibile creare effetti di "illuminazione grafica".

With Magic Stick, designed by Jorge Herrera, and lines of light (incorporated in Zero Track Pro) general diffuse lighting can be achieved, in addition to graphic lighting effects.

MAGIC STICK & LIGHT STRIPES *

** Set integrato di tre faretti.
Illuminazione basculante e d'accento.

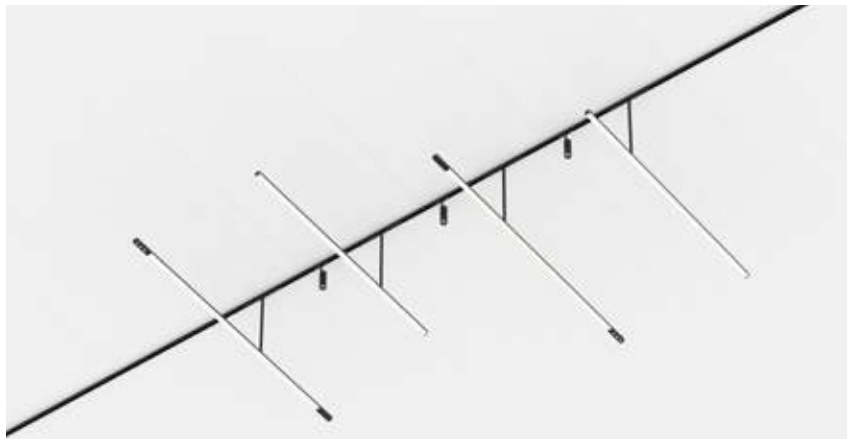

** Integrated three-spot set.
Accent lighting and tilting.

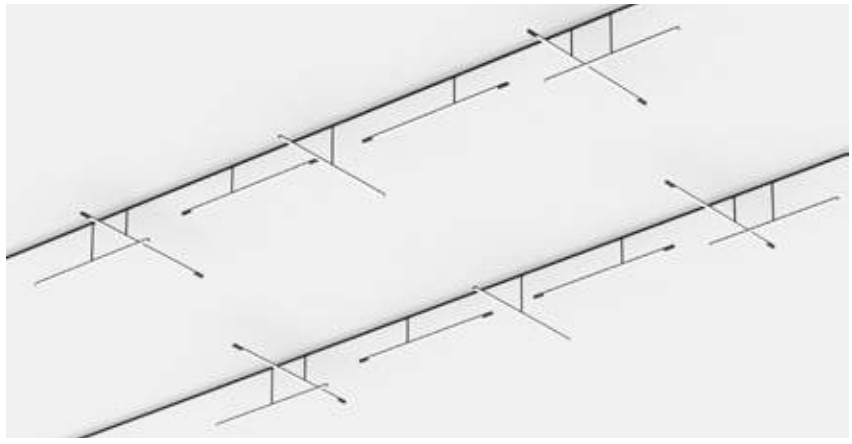

* Solo Zero Track Pro / * Only Zero Track Pro

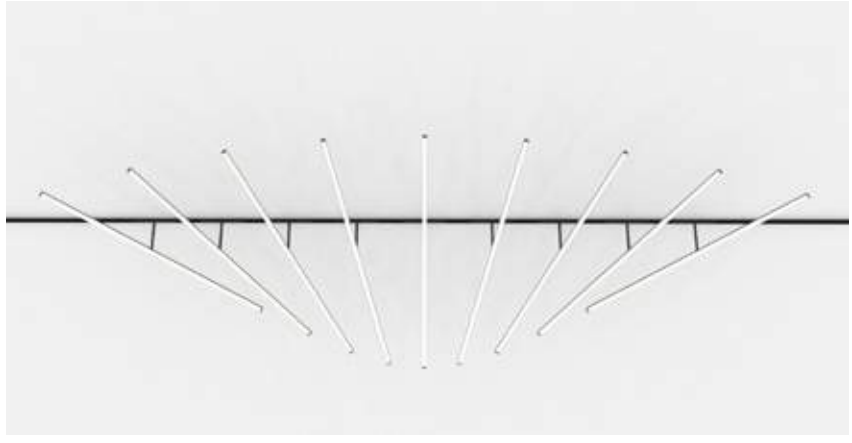

Grazie a Magic Stick, Zero Track Pro offre un'esperienza unica che trasforma qualsiasi spazio, grazie alla sua capacità di creare composizioni visive audaci e incomparabili. Gli esempi presentati rappresentano solo alcune delle sue molteplici possibilità.

Thanks to Magic Stick, Zero Track Pro provides a unique experience that transforms any space, through its ability to create bold and unparalleled visual compositions. The examples presented only represent some of its many possibilities.

RUNNING MAGNET

Innovativo programma di strutture ultraminiaturizzate in versione a incasso e superficie. Compatibile con un’ampia gamma di soluzioni di illuminazione professionali mediante fissaggio magnetico. La soluzione definitiva per l'illuminazione espositiva.

Innovative program of ultra-miniaturized structures in recessed and surface versions. Compatible with a wide range of professional lighting solutions by means of magnetic fixing. The ultimate solution for exhibition lighting.

THE MICRO RUNNING MAGNET

Sergio Rossi, Milan

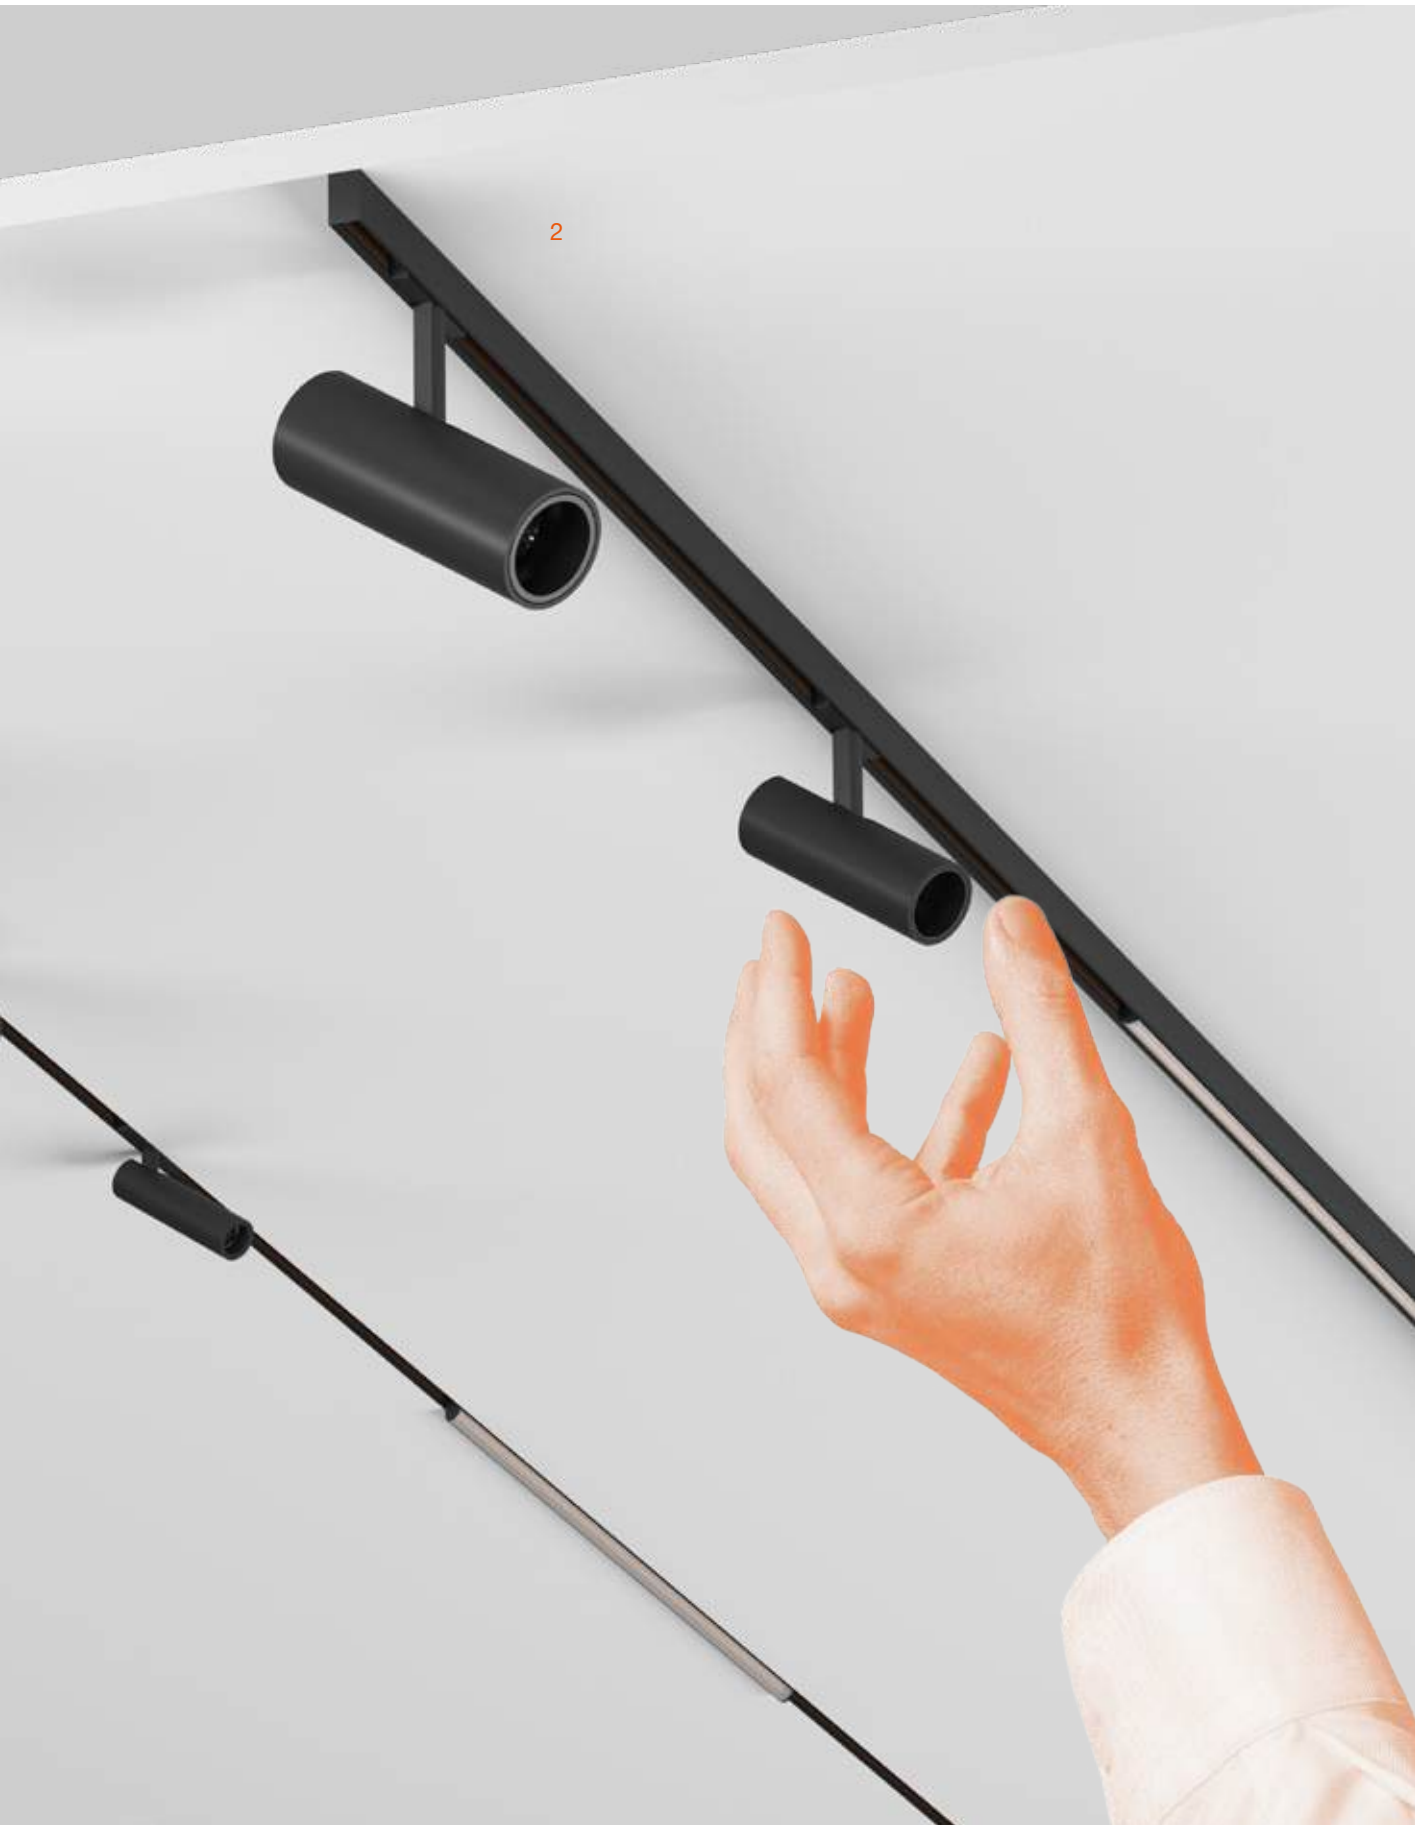

La quintessenza della luce integrata, ottenuta grazie ad un profilo di soli 5mm che permette la totale integrazione di micro apparecchi progettati per fondersi con la struttura fin quasi a scomparire.

The quintessence of integrated light, obtained thanks to a profile of only 5 mm that allows the total integration of micro-devices designed to be combined with the structure until they disappear almost completely.

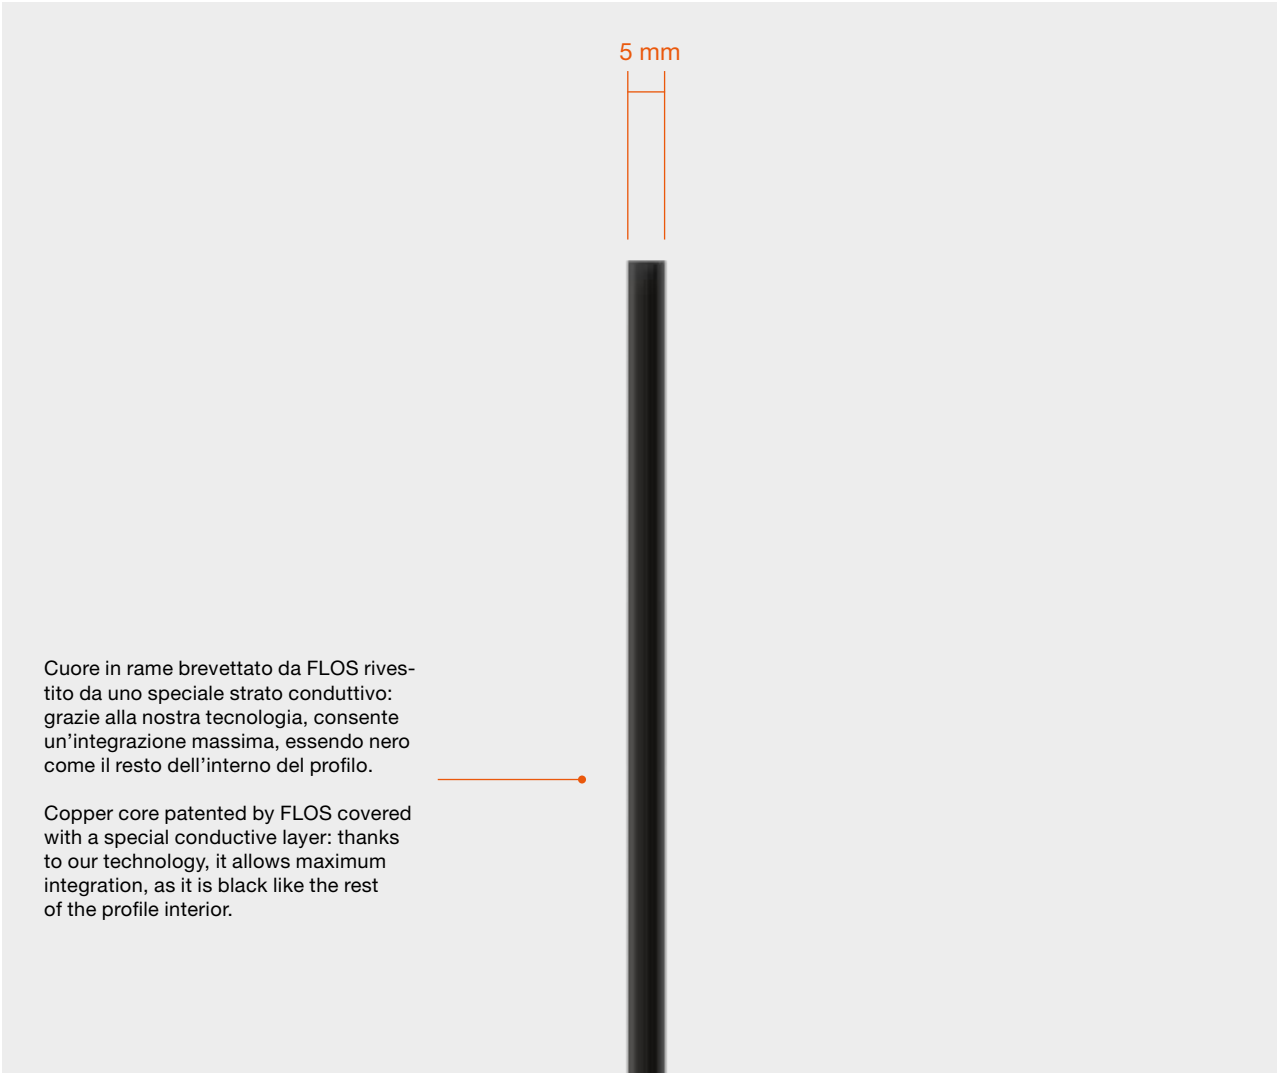

1 RECESSED

2 SURFACE

2

Le incredibili dimensioni ridotte del profilo che caratterizza il programma esaltano la flessibilità della luce e il suo rapporto con l'architettura. L'installazione dei corpi illuminanti avviene tramite supporto magnetico all'interno del profilo per una semplicità d'uso senza eguali.

The incredibly small profile size that characterizes the program enhances the light's flexibility and its relationship with the architecture. The lighting bodies are installed by means of a magnetic support inside the profile, providing an unparalleled ease of use.

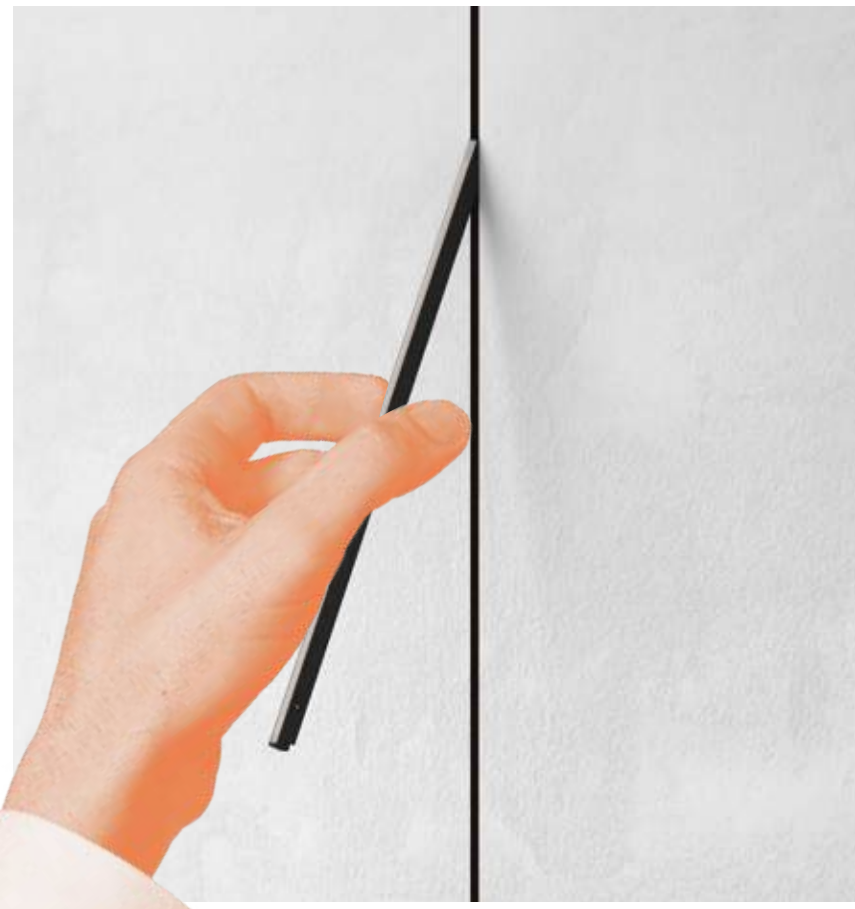

Sergio Rossi, London

Fissaggio magnetico degli apparecchi di illuminazione, che consente la manipolazione a caldo. I corpi illuminanti si possono spostare da accesi ottenendo enorme flessibilità e adattabilità della configurazione in qualunque momento.

Magnetic fixing of the luminaries, which allows hot handling. The lighting bodies can be moved when they are still on, achieving enormous flexibility and adaptability in the configuration at any time.

NANO SPOT

Con un diametro di soli 12mm questo incredibile proiettore garantisce valori di intensità elevati e permette di risolvere con grande semplicità i puntamenti più complessi rimanendo invisibile anche da distanze ravvicinate.

With a diameter of only 12 mm, this incredible projector guarantees high intensity values and allows you to easily resolve the most complex focal points while remaining invisible even from short distances.

SPOT MODULES

Gamma completa di microproiettori disponibili in varie potenze e dimensioni. Tutti includono microlenti professionali stabilizzate in acrilico per il massimo controllo degli effetti luminosi.

Complete range of micro-projectors available in various powers and sizes. They all include professional acrylic stabilized micro-lenses for a maximum control of lighting effects.

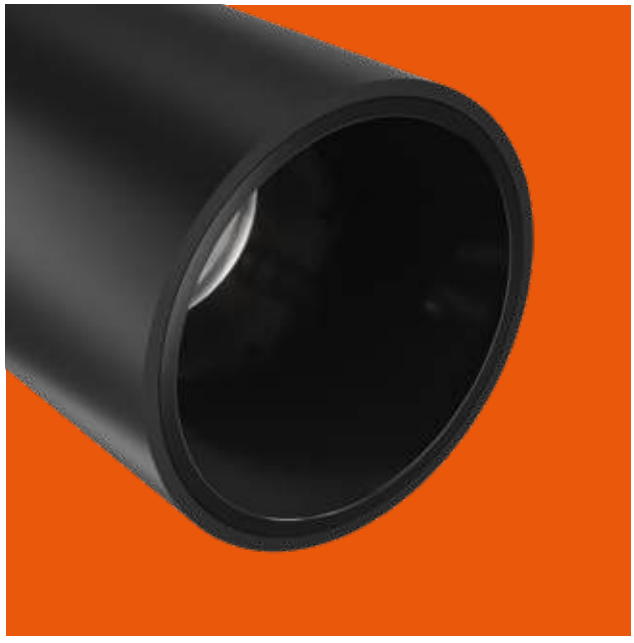

LIGHT SHADOW SPOT

Questo proiettore ultracompatto sfrutta il gruppo ottico di Light Shadow. Sorgente invisibile, cut-off integrato per un comfort visivo ed un'eleganza formale senza eguali.

This ultra-compact projector uses the same optical unit as Light Shadow. Invisible source, integrated cut-off for unparalleled visual comfort and formal elegance.

FIND ME

Proiettore per interni con sorgente luminosa LED, costituita da un corpo cilindrico che funge da downlight nella sua posizione superiore e diventa un faretto orientabile nella sua posizione inferiore.

Interior lighting projector with LED light source, consisting of a cylindrical body that acts as a downlight when set in its upper position and becomes an adjustable projector when set in its lower position.

LIGHT STRIPE DIFFUSED / WALL-WASHER

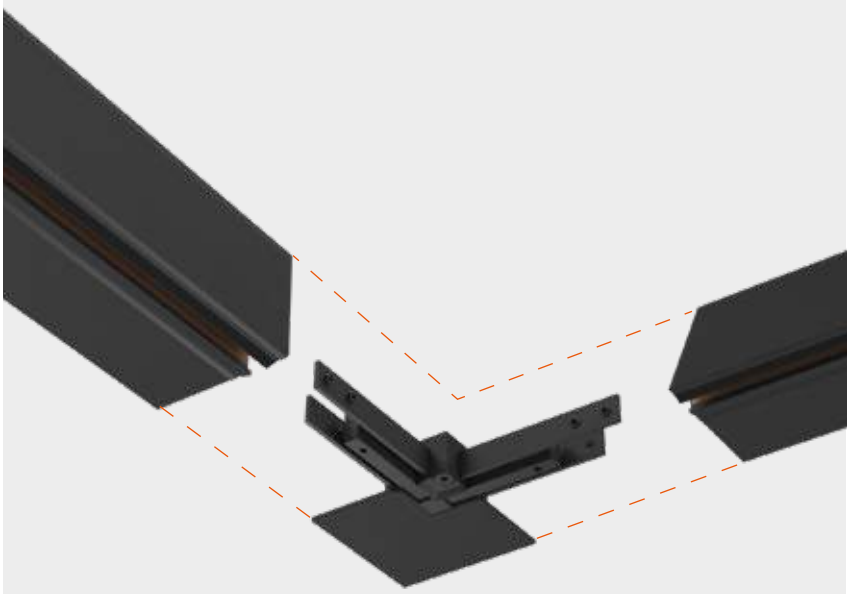

Microprofilo lineare con ottica miniaturizzata integrata diffusa o wall-washer. Quest'ultima sfrutta una speciale lente brevettata che emette un'illuminazione verticale estremamente uniforme e avvolgente. L'ideale per creare uno sfondo di luce morbido e privo di contrasti all'interno di una nicchia espositiva.

Linear micro-profile with an integrated miniature wall-washer optic. The special patented lens emits an extremely uniform and enveloping vertical lighting. It is ideal for creating a soft, non-contrasting light background within an exhibition niche.

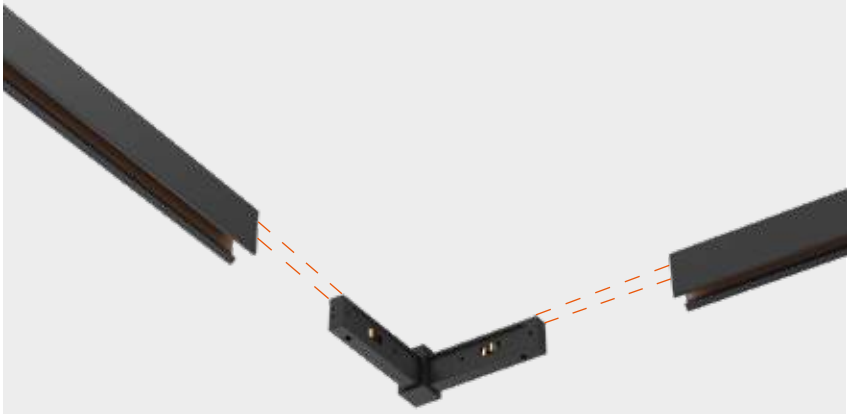

CONNECTIONS (RECESSED)

Il profilo ad incasso garantisce un risultato finale impeccabile grazie alle speciali ali di battuta laterali che consentono di rifinire l'installazione con dettagli di alta qualitá.

The recessed profile guarantees a flawless final result thanks to the special blocking sides that allow the installation to be finished with high-quality details.

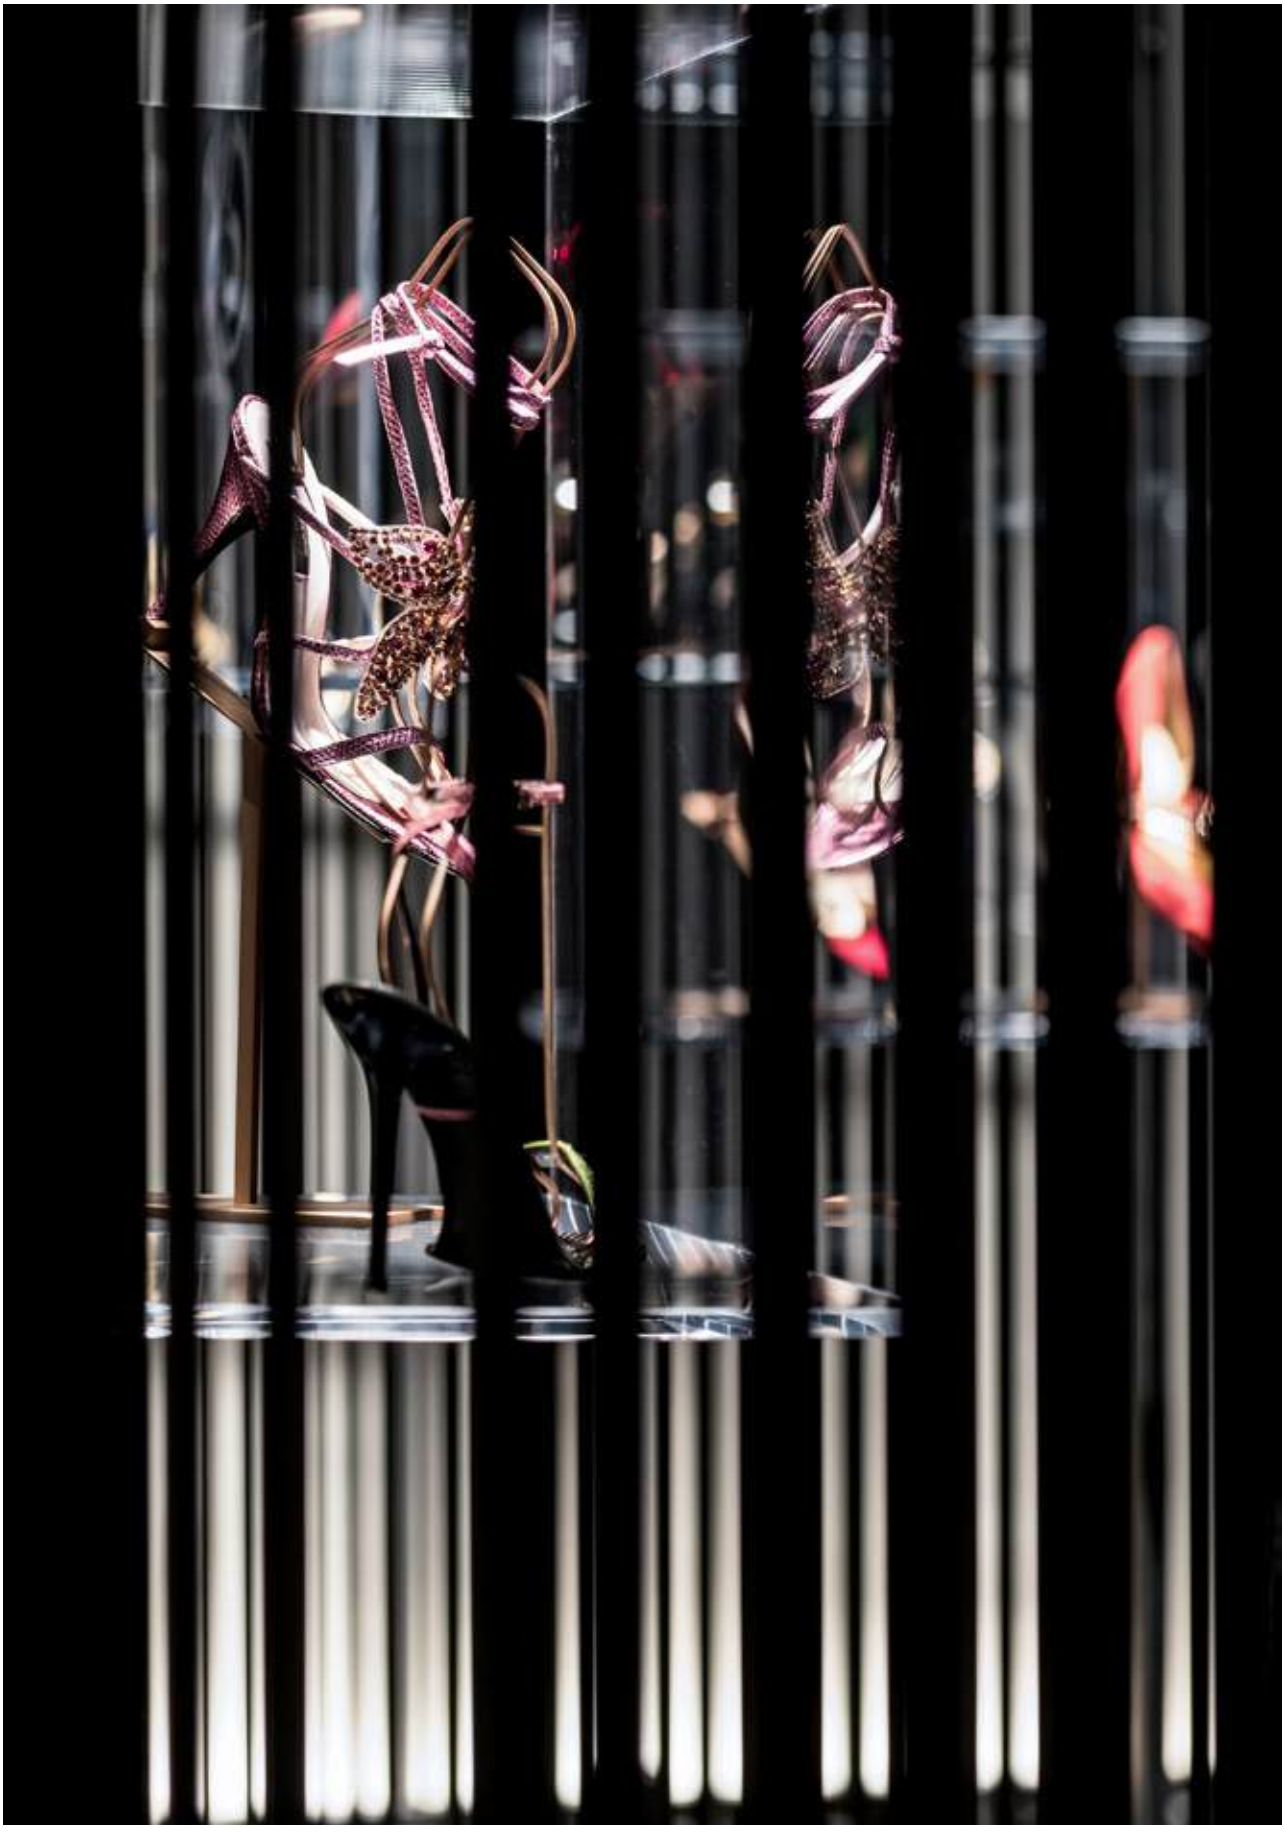

CONNECTIONS (SURFACE)

Installato a superficie, il profilo è talmente piccolo da scomparire alla vista, diventando una sottilissima linea di fuga che attraversa gli ambienti e consente di caratterizzarli con effetti luce sofisticati che invadono pareti, soffitti, corridoi e vetrine.

Installed on the surface, the profile is so small that it disappears from the eye, becoming a very thin line that crosses the rooms and characterizes them with sophisticated lighting effects that invade walls, ceilings, corridors and showcases.

TRACK

Sistema in grado di spostare e orientare proiettori motorizzati lungo una struttura. Versioni ad alta efficienza con ottiche da superspot a flood. Facile manipolazione grazie all'esclusivo FLOS Control®.

A system capable of moving and guide motorised projectors along a structure. High efficiency versions with optics from superspot to flood. Easy handling through the exclusive FLOS Control®.

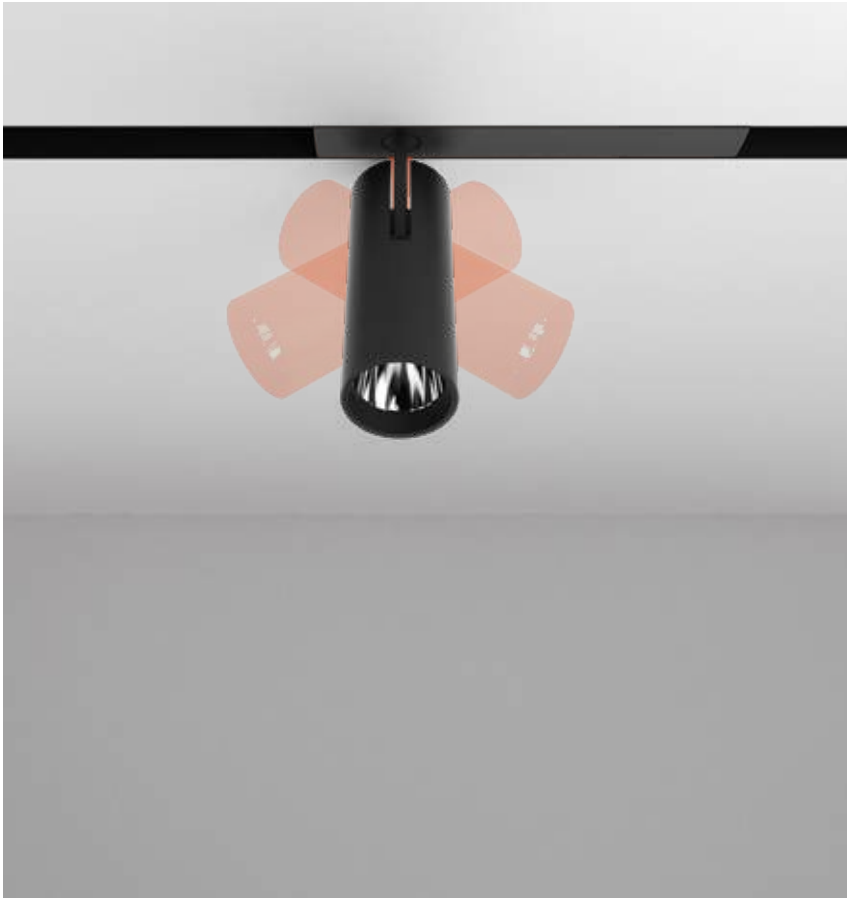

THE FAST TRACK

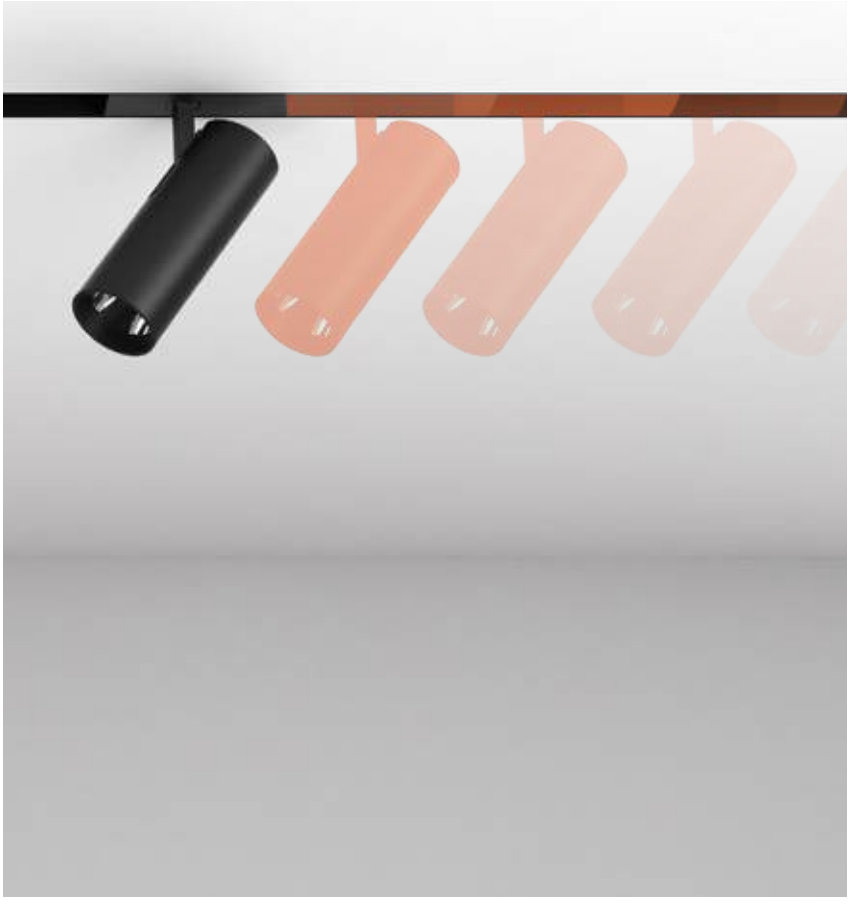

Prodotto rivoluzionario che consente di gestire il movimento sui tre assi: rotazione, inclinazione e traslazione.

Revolutionary product that allows movement management in the three axes: rotation, tilting and translation.

Facile controllo della luce dall'applicazione FLOS Control® disponibile per iOS e Android. Semplice connessione via bluetooth.

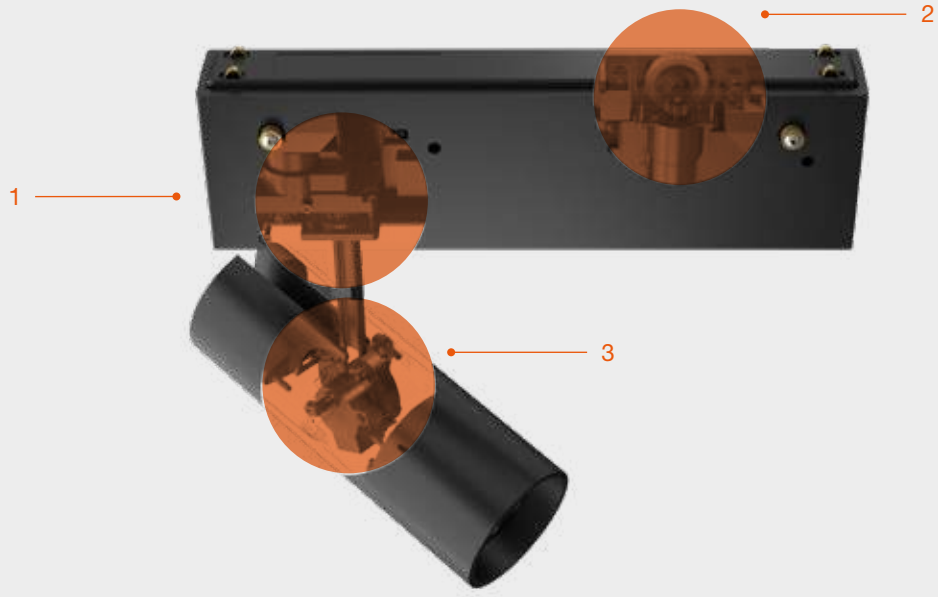

Easy light control from the FLOS Control® application available for IOS and Android. Friendly interface with bluetooth connection.

Flos arriva dove nessuno era mai arrivato. Esclusivo movimento di traslazione e orientamento di un sistema di proiettori che può essere programmato e controllato a distanza con FLOS Control®. Tecnologia estrema e semplicità di servizio.

Flos moves to an unprecedented level. Exclusive translation and orientation movement of a projectors system capable of being programmed and controlled remotely with FLOS Control®. Extreme technology & simplicity of service.

1 Motore rotazione. Sensore ottico che rileva in qualunque momento la posizione dello spot sul profilo.
Rotation motor. Optical sensor that detects the spot position in the profile at any time.

2 Motore traslazione. Cuscinetto in gomma dotato di un ammortizzatore che garantisce il contatto costante con il profilo per una traslazione impeccabile.
Traslation motor. Rubber bearing equipped with a shock absorber that ensures constant contact with the profile for an excellent translation.

3 Motore basculazione. Sensore di fine corsa.
Tilt motor. Limit switch sensor.

WORKMATES

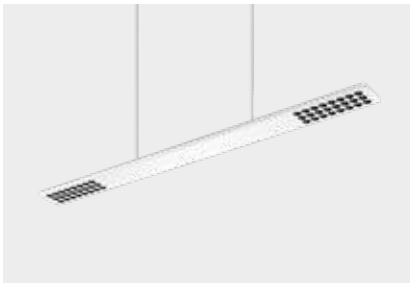

Il concetto di ufficio tradizionale non è più lo *status quo* quando si tratta di spazi professionali. I nuovi modelli di lavoro ibrido ne hanno ridefinito le architetture, gli usi e le funzionalità. Workmates rappresenta l'ecosistema di apparecchi di illuminazione Flos pensato per i nuovi spazi di lavoro contemporanei e multidisciplinari.

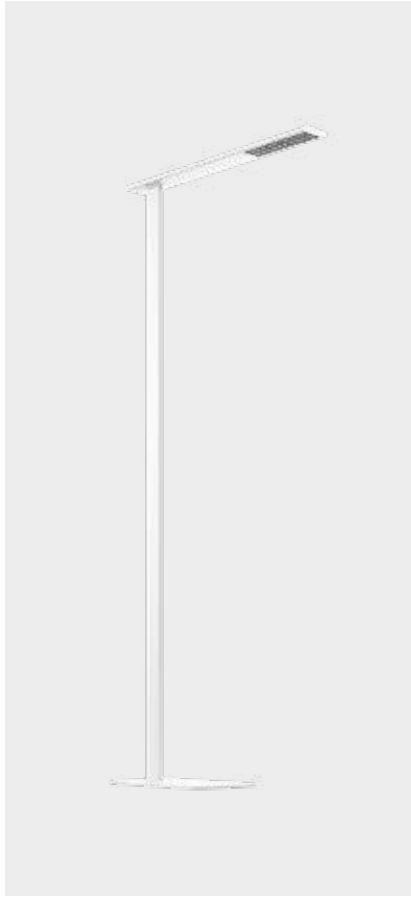

The traditional office paradigm is no longer the *statu quo* for professional spaces. New hybrid models of working have redefined their architectures, uses and functionalities. Workmates is Flos' luminaire ecosystem for new contemporary and multidisciplinary work spaces.

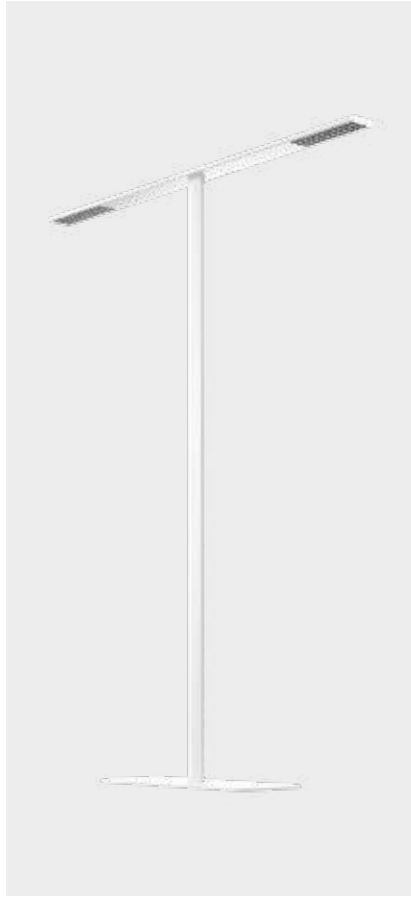

WORKMATES

Una gamma di prodotti pensati per rispondere, con versatilità, a qualsiasi esigenza illuminotecnica. Un concetto di illuminazione che mette il benessere della persona al centro del suo sviluppo tecnico cui si aggiunge una minuziosa cura dell'estetica e dei dettagli che si diffonde dal carattere distintivo del design Flos. Workmates si declina in 4 opzioni di montaggio (a soffitto, a sospensione, da terra e a binario), così da adattarsi alle esigenze di installazione di tutti gli spazi.

A collection of products designed to answer any lighting need with versatility. A lighting concept that places personal well-being at the very core of its technical development and adds careful attention to the aesthetics and details that emanate from the differential identity of the Flos design. Workmates comes in 4 installation options (ceiling surface, suspension, floor and track), in order to adapt to the installation requirements of any space.

Lo spazio di lavoro non è più in contrasto con la bellezza del miglior design. I dettagli hanno valore e per questo motivo Workmates è genuinamente Flos. Con una presenza magnetica, è snello, minimalista, sottile... Workmates si presenta con una gamma di finiture selezionate: All White, White e Black. Inoltre, in tutti i modelli ad esclusione della versione da terra, è disponibile l'accattivante finitura Anodized Silver.

The workspace is no longer at odds with the beauty of optimal design. Details matter, and that is why Workmates is pure Flos. With its magnetic presence, it is slim, minimalist, subtle... Workmates comes in a range of select finishes: All White, White and Black. In addition, the attractive Anodized Silver finish is available in all models except the floor option.

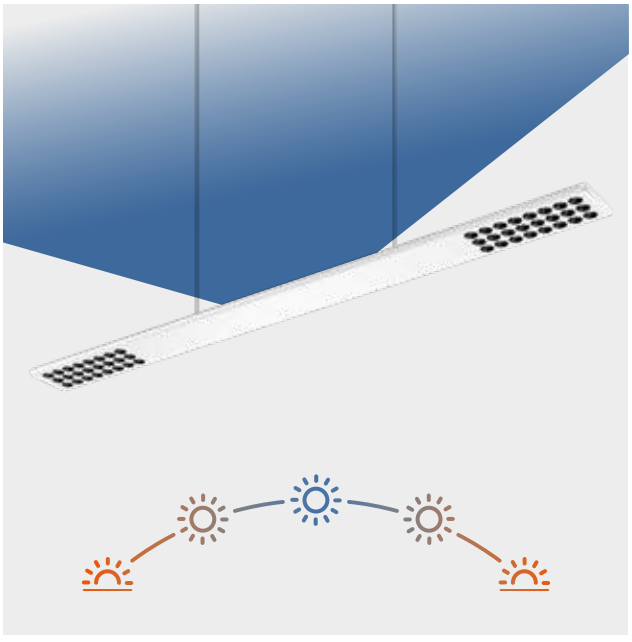

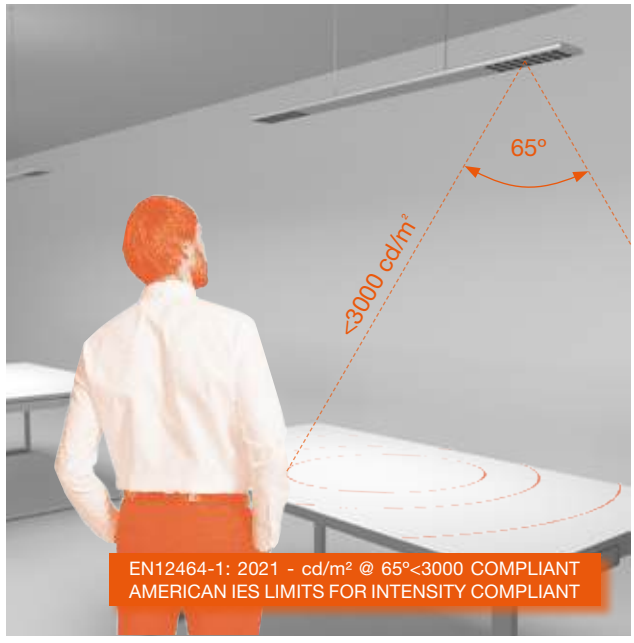

HUMAN CENTRIC LIGHTING
I modelli *Smart*, con emissione indiretta di CCT variabile *Tunable White*, consentono la modulazione intelligente della temperatura di colore della luce al fine di conciliarla con il ritmo circadiano in base all'orario della giornata e favorire il benessere e la salute nell'ambiente di lavoro.

Smart models with indirect *Tunable White* variable CCT emission enable the *Smart* modulation of the light's colour temperature to assist with circadian entrainment depending on time of day, promoting well-being and health at work.

VISUAL COMFORT · OFFICE REGULATIONS COMPLIANCE
Workmates soddisfa i più alti standard di comfort visivo per gli uffici. Questo garantisce un ambiente di lavoro confortevole per la vista, riducendo l'abbagliamento e l'affaticamento visivo, favorendo così un ambiente di lavoro più produttivo e salutare.

Workmates meets the strictest standards in terms of visual comfort for offices. This ensures a comfortable working environment for the eyes, reducing glare and eyestrain, which promotes a more productive and healthy working environment.

PLOS

SMART LIGHTING
I sistemi di controllo *Dali* e senza fili *Casambi*, dotano Workmates di sensori integrati o esterni per mettere in scena la luce desiderata per ogni situazione. Tutto ciò, in risposta al rilevamento della presenza[1], dell'assenza[1] o alle soglie[2] di luminosità desiderate.

With its *Dali* and wireless *Casambi* control systems, Workmates has built-in or external sensors to activate the desired lighting scenarios for each situation. All of it triggered by presence[1] or absence[1] detection, or the desired brightness[2] thresholds.

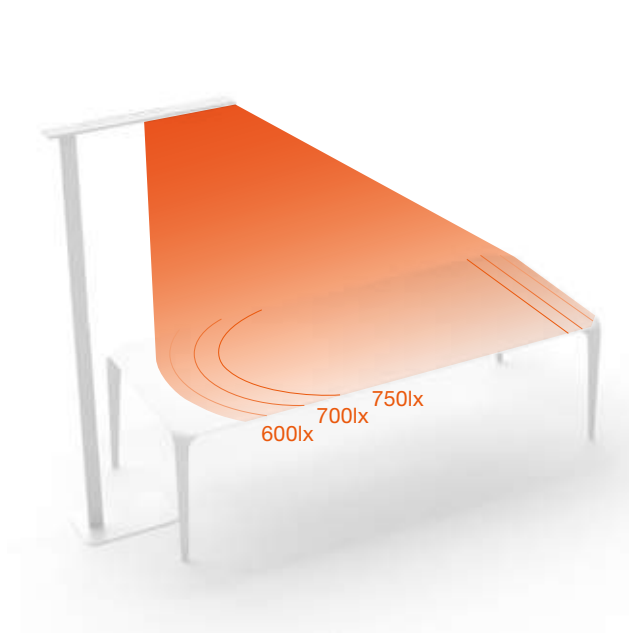

DEDICATED LIGHT EMISSION
Ogni modello di Workmates offre le mo*Dali*tà di distribuzione luminosa necessarie stando alle specifiche applicazioni negli spazi di lavoro.
A seconda del modello, è disponibile la distribuzione *wide flood*, *oval*e o *asymmetric* per emissione *Down* e *Extra Wide flood* per emissione *Up*.

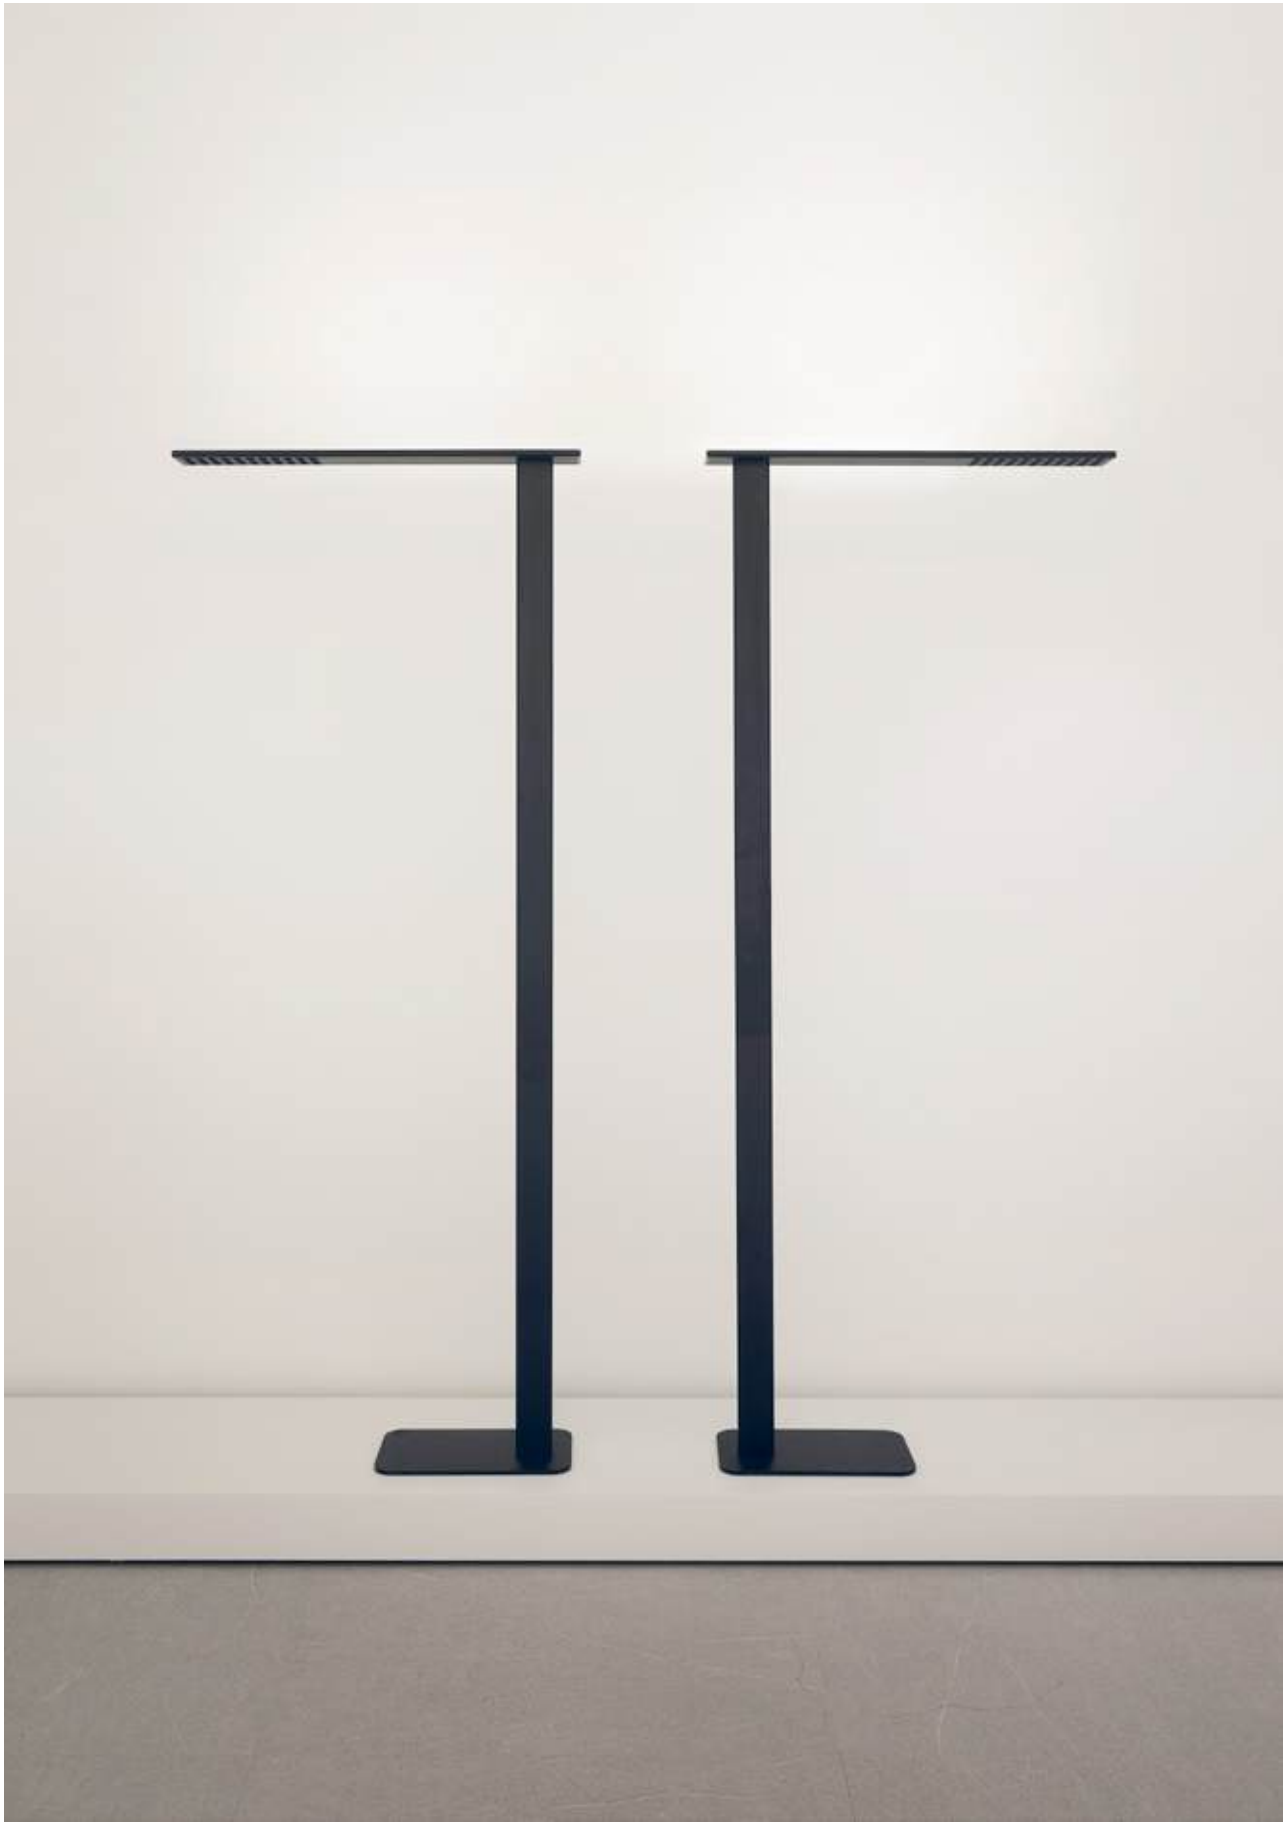

Each Workmates model offers of the necessary light distribution forms for applications that are required in workspaces. Depending on the model, *wide flood*, *oval* or *asymmetric* distributions are available for *Down* emission, and *Extra Wide flood* for *Up* emission.

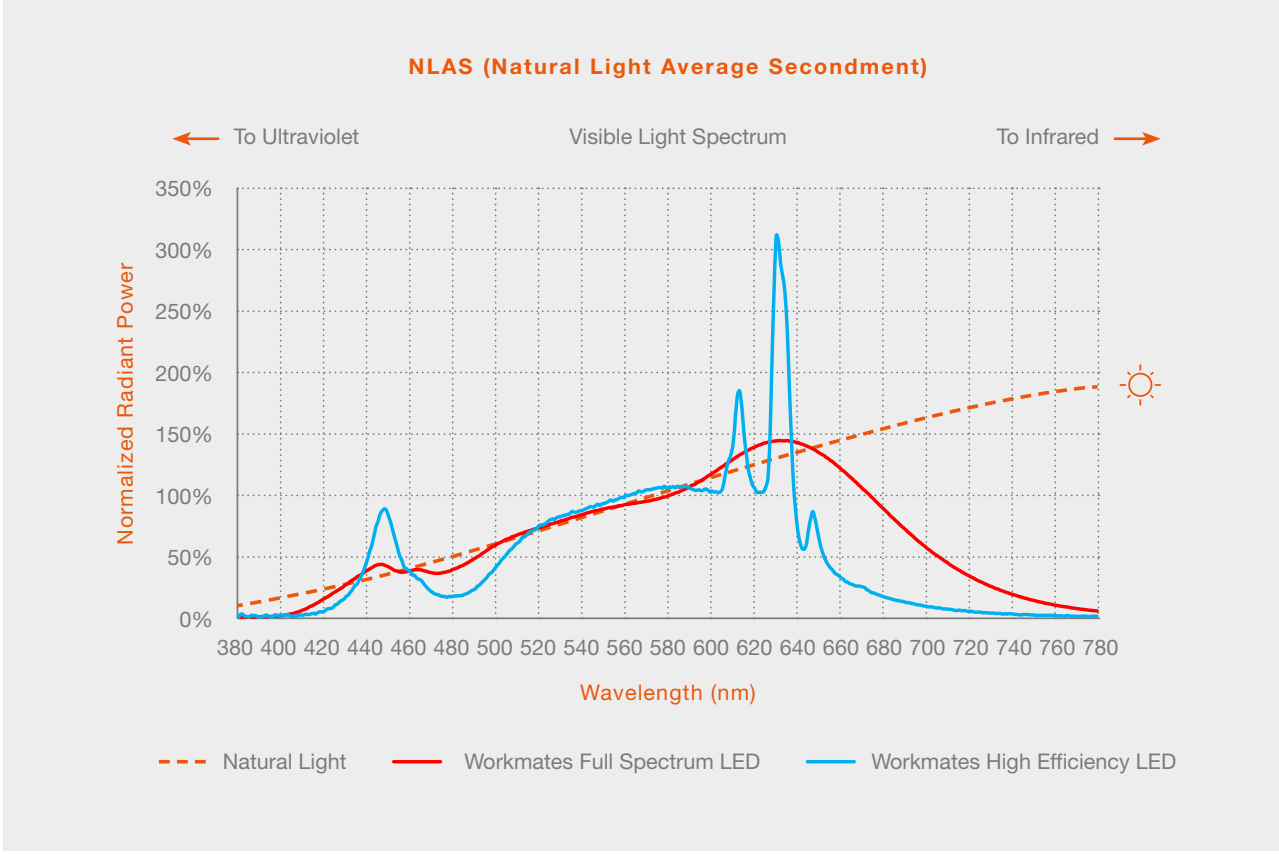

Tutte le luci dell'ecosistema Workmates sono dotate di sorgenti luminose LED *High Efficiency* e *Full Spectrum*. Con la prima si ottiene un rendimento eccellente in termini di Lm/W, mentre con l'opzione *Full Spectrum* si raggiunge un indice *NLAS (Natural Light Average Secondment)* perfetto.

All'interno dello spettro visibile della radiazione luminosa, la luce naturale descrive un percorso molto preciso. La opzione a LED "*Full Spectrum*", disponibile per Workmates, rispecchia il comportamento più fedele di una luce artificiale rispetto al rendimento della luce naturale. In questo modo contribuisce a migliorare il benessere umano e a rispettare gli schemi naturali dell'illuminazione circadiana.

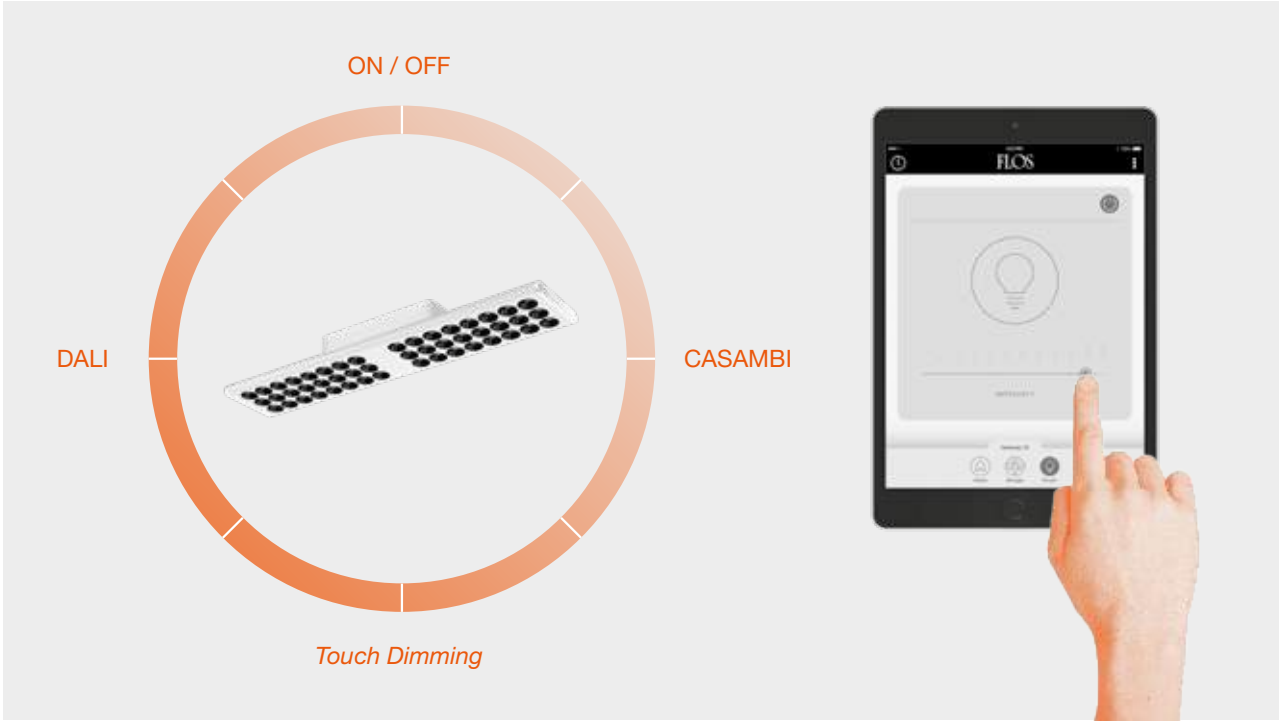

All the lights in the Workmates ecosystem are fitted with *High Efficiency* and *Full Spectrum* LED light sources. With the former, you get excellent performance in terms of lm/W, while with the *Full Spectrum* option, you get the perfect NLAS (Natural Light Average Secondment) index.

Natural light sets a very precise path within the visible light spectrum. The “*Full Spectrum*” LED option, available for Workmates, reflects the most accurate behaviour of artificial light compared with the performance of natural light. It therefore helps improve human well-being and respect the natural schemes of circadian lighting.

	Diverse opzioni di controllo per la regolazione di WORKMATES.	Different control options for dimming WORKMATES.
Touch Dimming	Le versioni da terra vantano una pulsantiera capacitiva integrata per il controllo della luce.	The floor versions have an integrated capacitative keypad to control the luminaire.
DALI	Protocollo standard per l'integrazione con qualsiasi sistema di controllo.	Standard protocol for integration with any control system.
CASAMBI	Controllo direttamente attraverso un'applicazione per tablet e smartphone (FLOS Control®).	Control through a tablet or smartphone application (FLOS Control®).

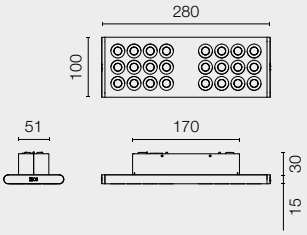

FLOS CONTROL® BY CASAMBI	L'applicazione FLOS Control® consente di controllare gli apparecchi di illuminazione del sistema in gruppo, controllando scene e programmazione. In un impianto elettrico tradizionale, con il gateway connesso via Bluetooth si ottiene un controllo totale dell'ambiente. Disponibile per iOS e Android	The FLOS Control® application allows you to control the system's luminaires as a group, controlling scenes and programming. With a traditional electrical installation and the Gateway connected by Bluetooth, you obtain total control of the ambience. Available for iOS and Android

SHADOW

Programma dalle dimensioni compatte disegnato per evitare abbagliamenti. Varietà di ottiche, dimensioni e finiture. Grande controllo grazie al suo gruppo ottico brevettato.

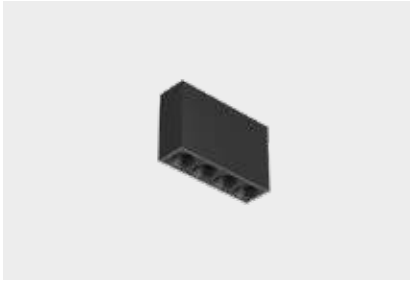

Compact size program designed to avoid glare. Variety of optics, sizes and finishes. Great control thanks to its patented optical group.

LIGHT SHADOW

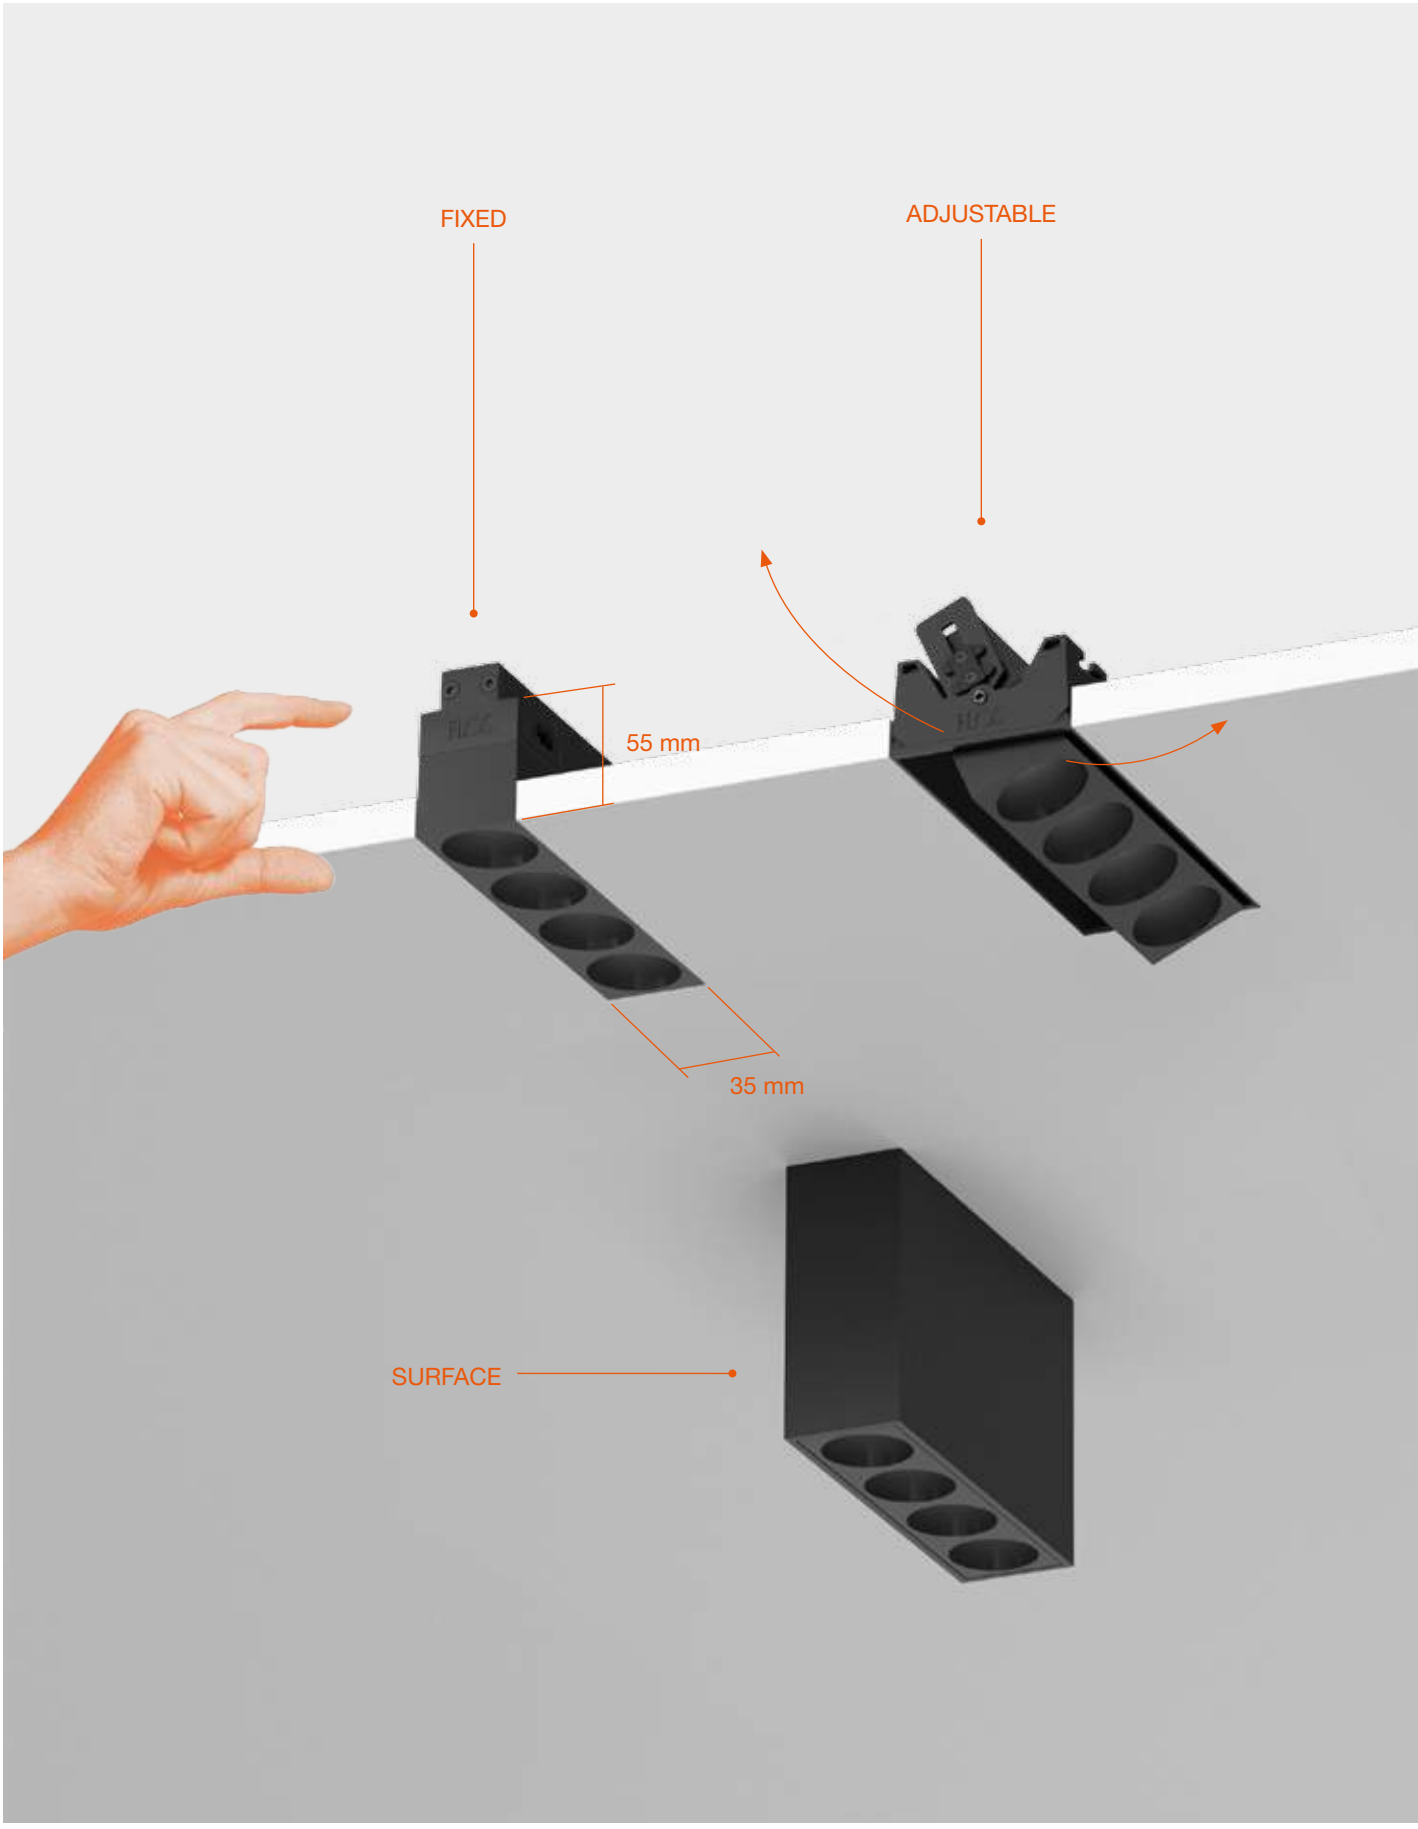

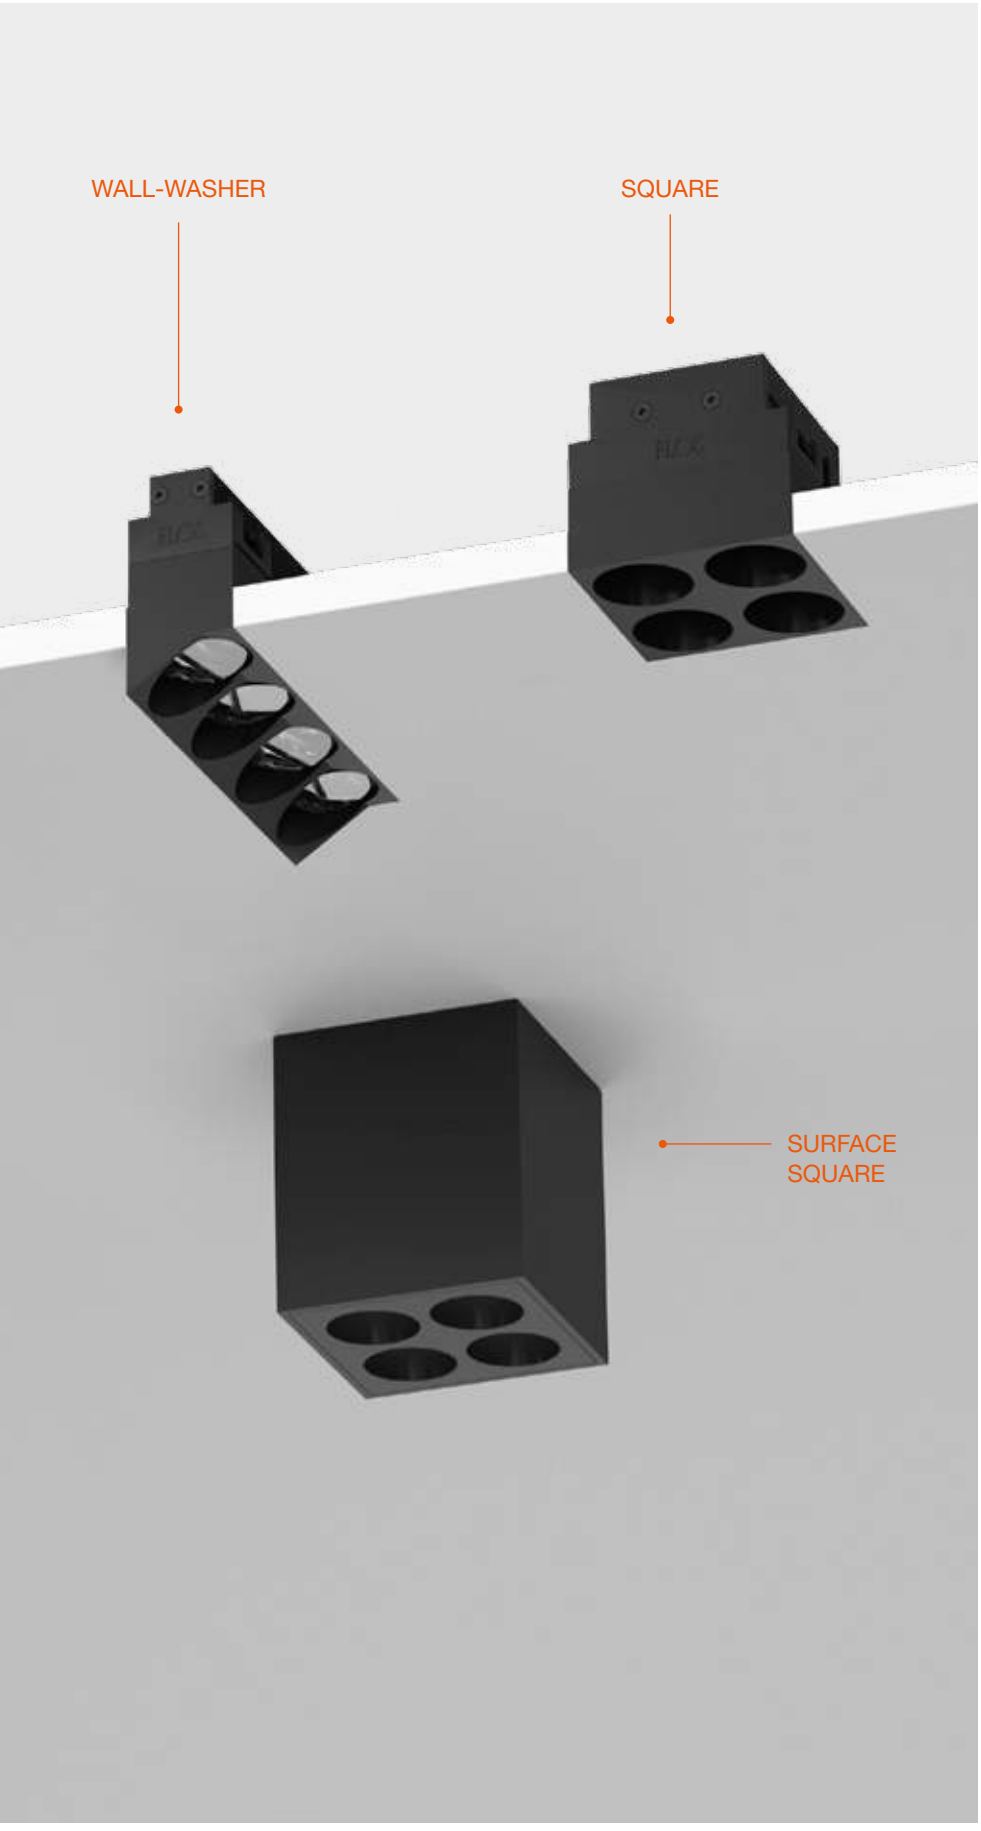

FIXED
ADJUSTABLE
55 mm
35 mm
SURFACE

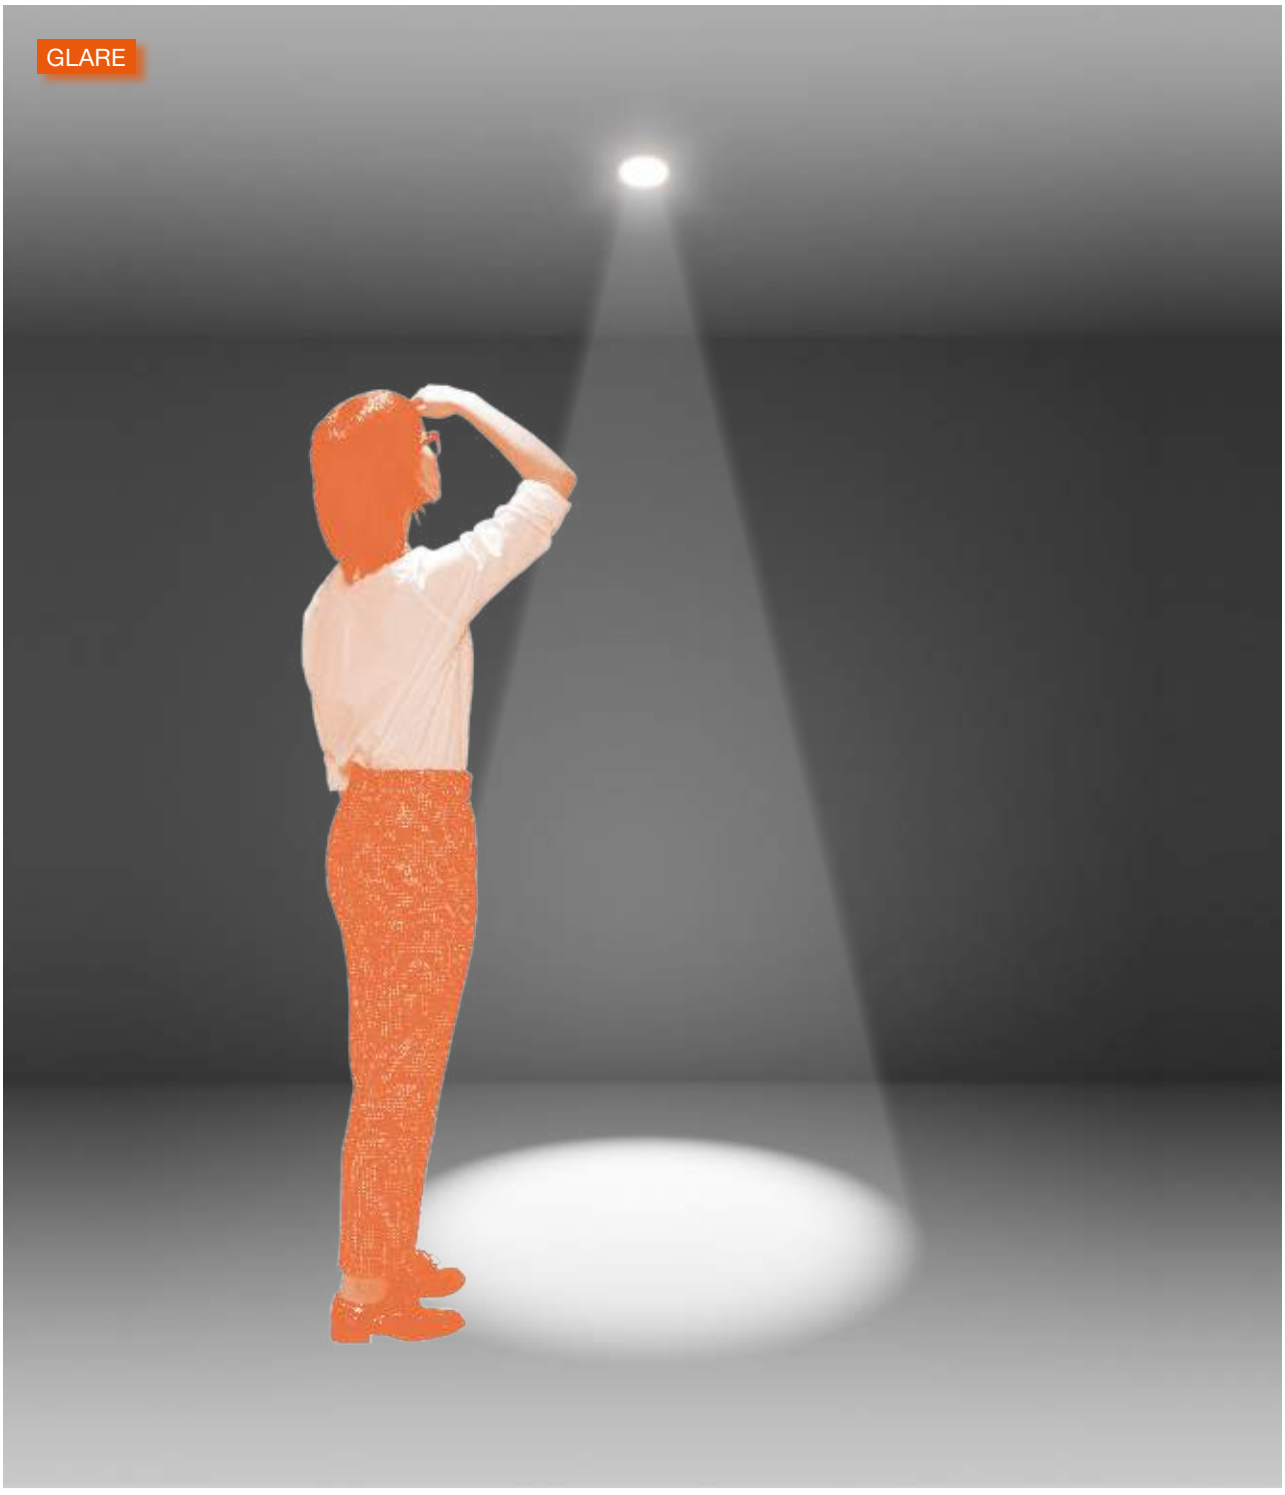

Dimensioni extra compatte che permettono l'integrazione incassata anche in caso di spazio minimo disponibile. La versione regolabile consente di estrarre il corpo principale per garantire una perfetta integrazione con gli elementi architettonici e sfruttare tutto il fascio.

Extra-compact size which allows embedded integration, even when there is minimum space available. The adjustable version allows the main body to be extracted to guarantee perfect integration with the architecture, and to make the most of the whole beam.

TRADITIONAL TECHNOLOGY

Con la tecnologia tradizionale si ottiene un effetto di abbagliamento e, al contempo, il fascio di luce non è molto preciso. Scarsa l'integrazione con gli elementi architettonici.

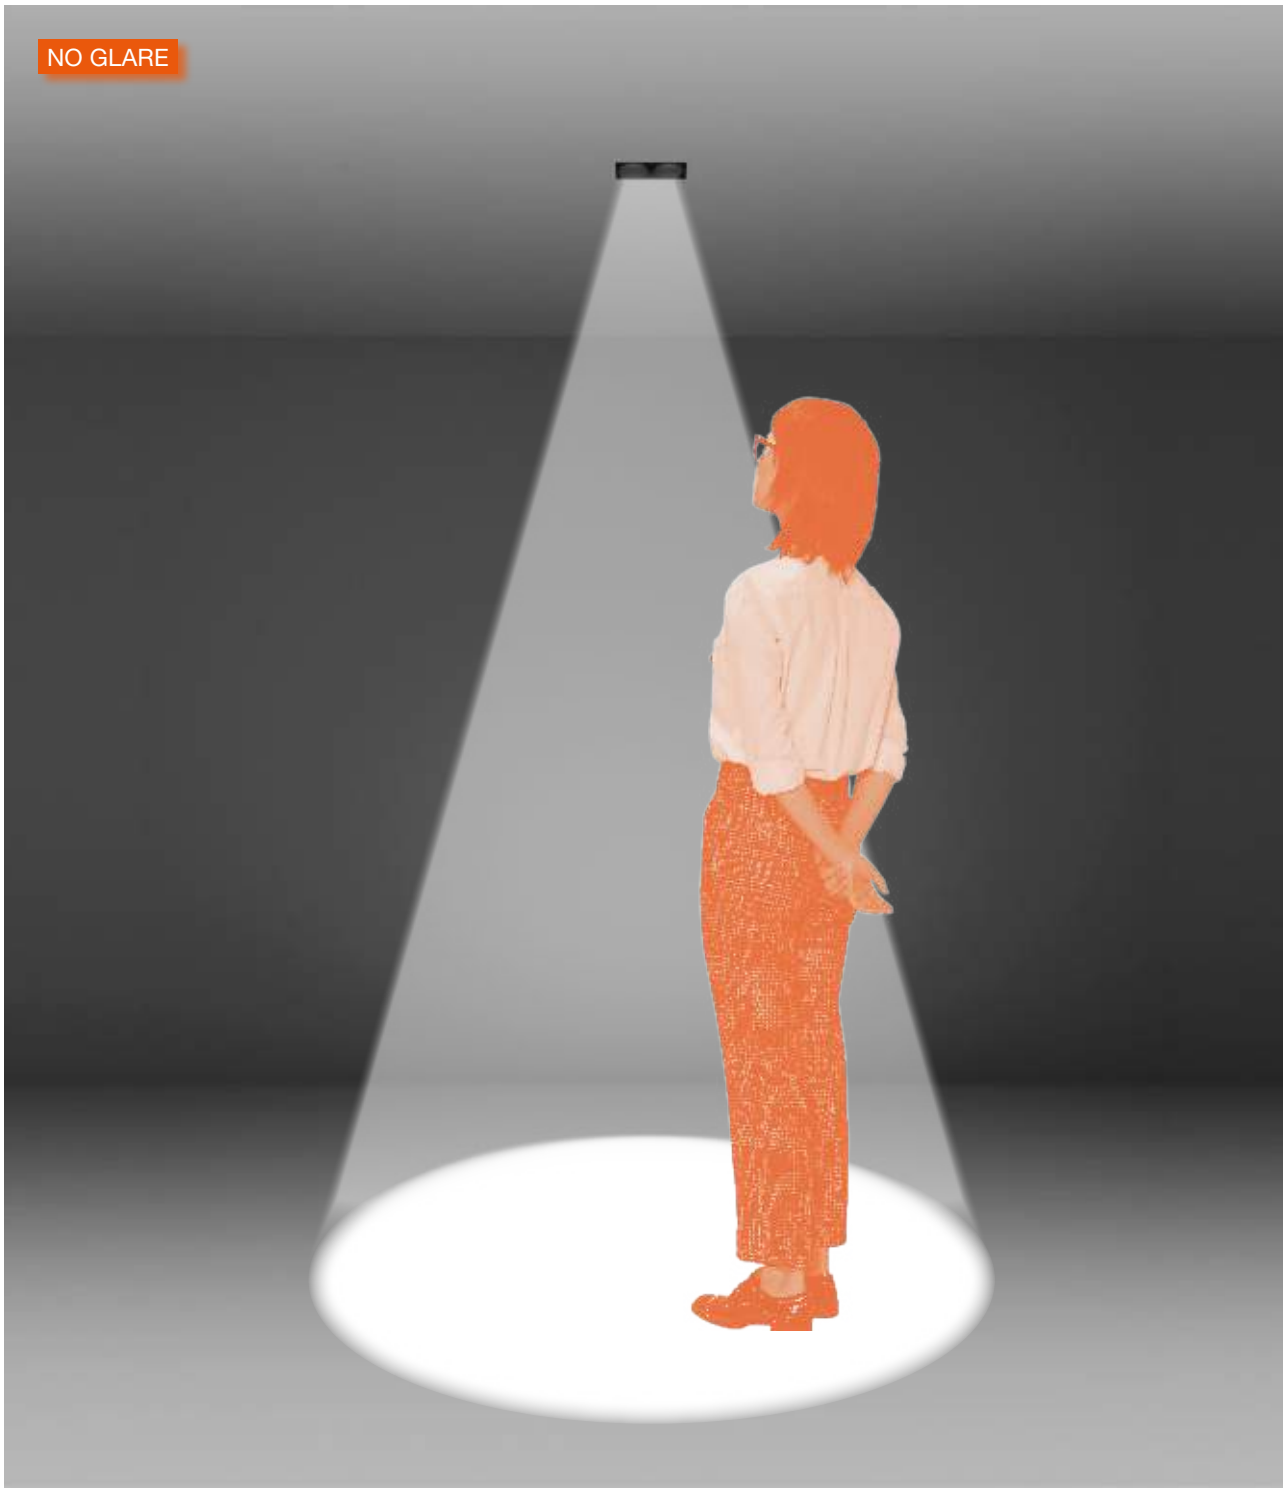

The traditional technology produces a glare effect while the beam of light is not so precise. Integration with architecture is not achieved.

FLOS TECHNOLOGY

Con la tecnologia del Light Shadow che fornisce un cut-off di 45 gradi, la massima integrazione con gli elementi architettonici si abbina a un fascio di luce definito e impeccabile e a una schermatura totale, fatto che consentendo di collocarlo in posizione quasi zenitale senza generare abbagliamenti.

Light Shadow technology thanks to its cut-off of 45 degrees, maximum integration with architecture combines with the impeccable, defined beam of light and total shielding, which allows it to be placed almost in zenithally position with no glare.

La rivoluzione nell'illuminazione senza abbaglia-mento. Grazie alla sua soluzione ottica esclusiva brevettata, Light Shadow arriva ad angoli di cut-off estremi, senza rinunciare all'alta efficienza e a dimensioni molto ridotte.

The revolution in low glare lighting. Thanks to its patented unique optical solution, Light Shadow reaches extreme cut-off angles without sacrificing high efficiency and very small dimensions.

1 Scheda LED disegnata da FLOS con moduli LED di ultima generazione. Alta qualità ed efficienza.
LED board designed by FLOS with state-of-the-art LED modules. High levels of quality and efficiency.

2 Lenti sviluppate da FLOS specificatamente per questo prodotto, che garantisce il massimo controllo e un fascio di luce omogeneo.
Lenses developed by FLOS especially for this product, to guarantes maximum control and a uniform beam.

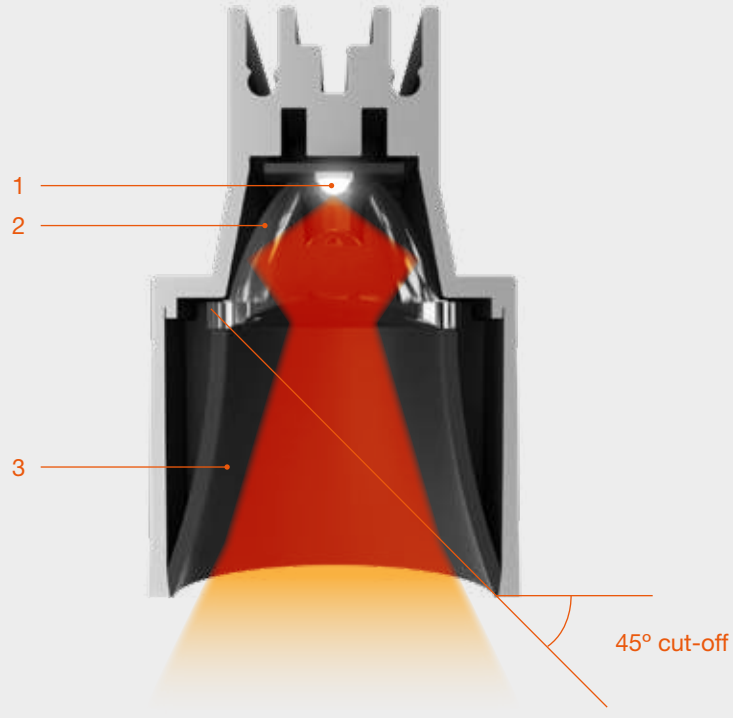

3 Innovativo sistema brevettato di coni che forniscono una schermatura estrema grazie alla loro forma curva invertita.
Innovative patented cones system that provides extreme shielding thanks to its inverted curve form.

Un approccio completamente nuovo nell'ambito dell'illuminazione architetturale. Porta il controllo dell'abbagliamento a un livello estremo in cui i valori di efficienza ottica sono estremamente elevati grazie all'uso di tecnologie di ultima generazione e la qualità della luce raggiunge standard ancor più elevati e ricercati.

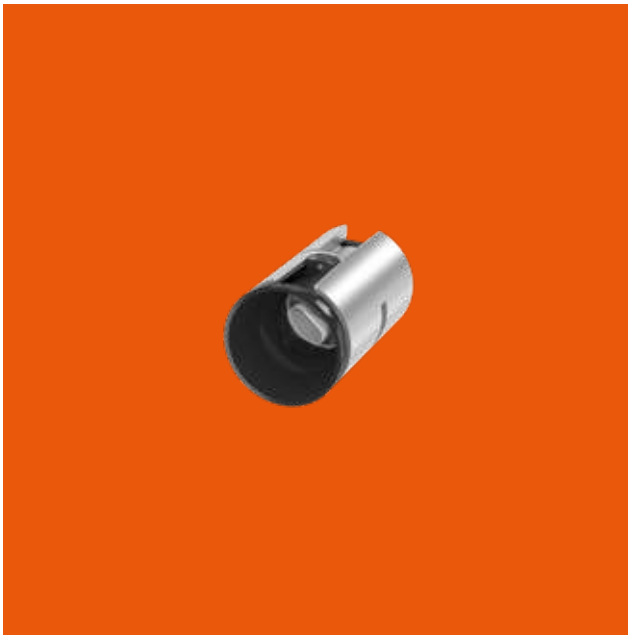

A completely new approach to architectural lighting. It takes glare control to the next level. Optical efficiency values are extremely high thanks to the use of the latest generation technologies and the light quality reaches even higher and more refined standards.

LIGHT SHADOW DOTS

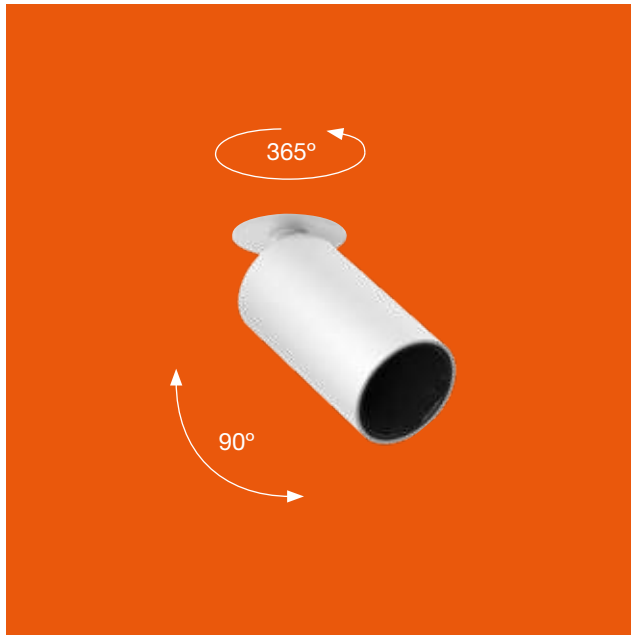

Il più piccolo downlight del programma. 30mm di diametro e una profondità d'incasso estremamente ridotta sono abbinati ad un complesso sistema ottico che fornisce una schermatura estrema della sorgente grazie alla forma invertita dei coni cut-off che lo caratterizzano.

The smallest downlight in the range. A 30 mm diameter and an extremely reduced recess depth are combined with a complex optical system that provides extreme shielding of the source thanks to the inverted shape of the cut-off cones that characterize it.

1

2

LIGHT SHADOW PRO

L'evoluzione naturale di Light Shadow Dots. Le nuove versioni Pro sono il risultato di un'attenta ricerca ottica. Offrono un'efficacia estremamente elevata nonostante le dimensioni ridotte e il corpo compatto.

The natural evolution from the Light Shadow Dots. The new Pro versions are the result of careful optical research. They offer extremely high effectiveness despite their small size and compact body.

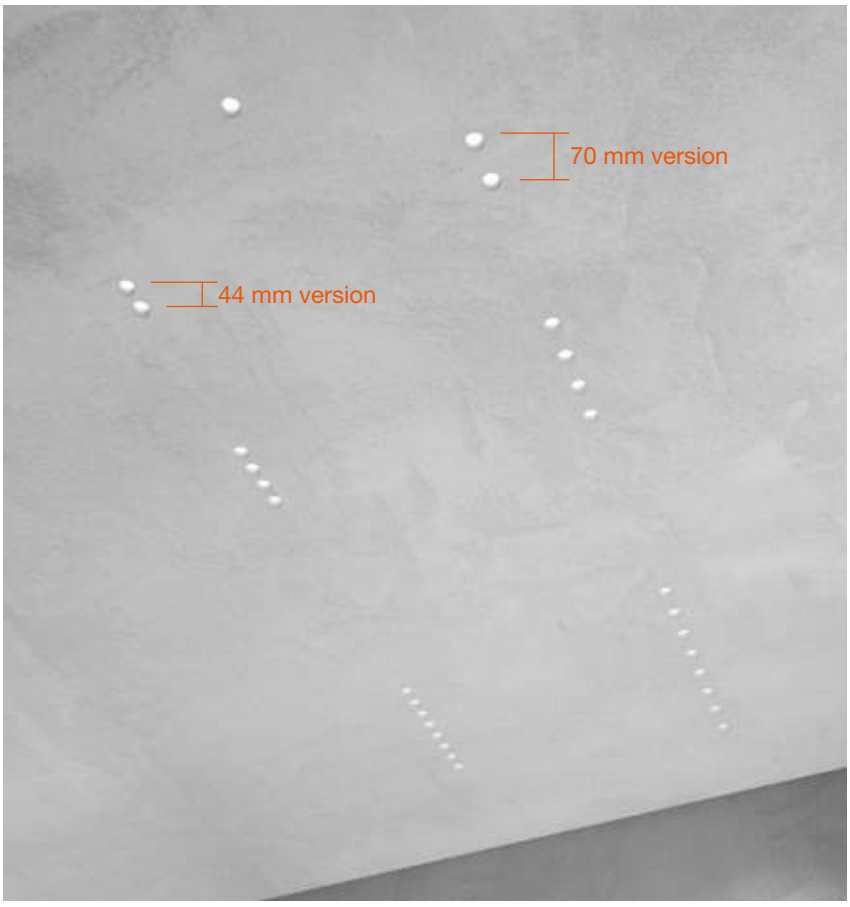

3

4

Light Shadow Dots è disponibile nelle versioni TRIM e NO TRIM. L'opzione senza cornice permette installare l'apparecchio di illuminazione in un soffitto di gesso, integrandolo perfettamente a filo con il soffitto. È inoltre possibile una disposizione modulare in linea, a due distanze differenti tra un apparecchio e l'altro.

Light Shadow Dots is available in TRIM and NO TRIM versions. The frameless option allows perfect integration into plaster ceilings, resulting in a luminaire that is completely flush and integrated into the ceiling. In addition, it is possible to arrange it in modular in-line presentations, with two options of spacing between the points.

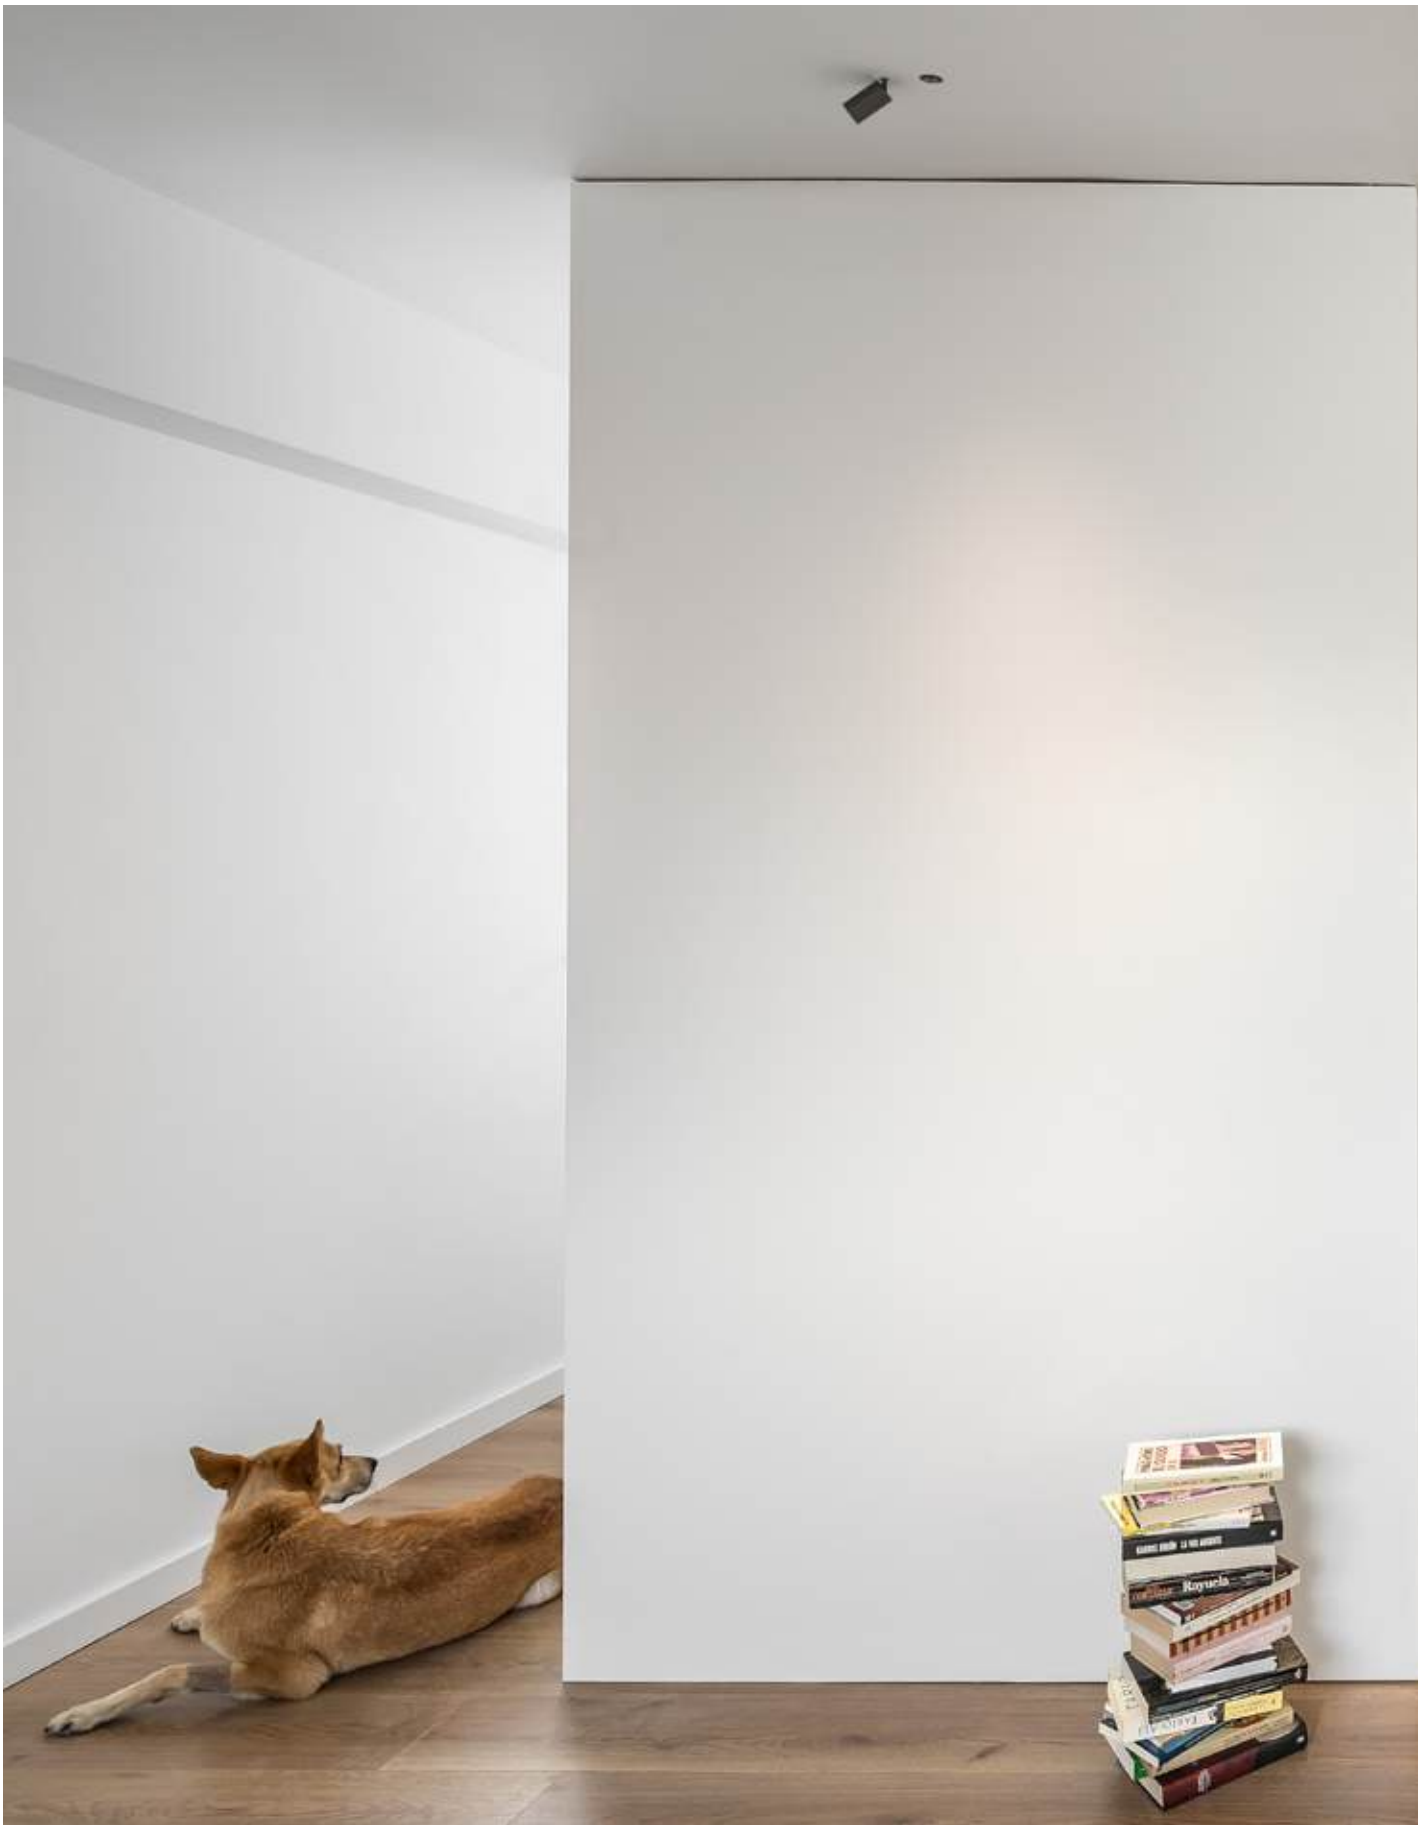

Le precornici No Trim di Light Shadow Dots Fixed e Push sono compatibili e possono essere installate una di seguito all'altra e alla stessa distanza. In questo modo, se i modelli Push vengono installati ad incasso, si differenziano dalle versioni Fixed.

Light Shadow Dots Fixed and Push No Trim pre-installation frames are compatible and can be installed continuously, maintaining the spacing. In this way, when the Push models are in recessed position, they are indistinguishable from the Fixed versions.

Circular Design

Sei moduli e/o accessori disponibili, commercializzati come articoli indipendenti. Montaggio e sostituzione senza utensili. Versatilità e possibilità di cambi massima, anche dopo l'installazione del prodotto.

There are six modules and/or accessories available, marketed as individual products. Tool-free installation and replacement. Maximum versatility and modification possibilities, even after the product has been installed.

1 Quadri di installazione.
Installation pre-frames.
2 Motore di illuminazione.
Light engine.

3 Lenti.
Lenses.
4 Accessori.
Accessories.

5. Modulo di orientabilità (fisso / regolabile).
Orientation module (fixed / adjustable).
6. Moduli estetici.
Style modules.

Disegno modulare ‘future-proof’: a prova di obsolescenza.

Modular “future-proof” design: obsolescence-proof.

Offerta completa di apertura del fascio luminoso.

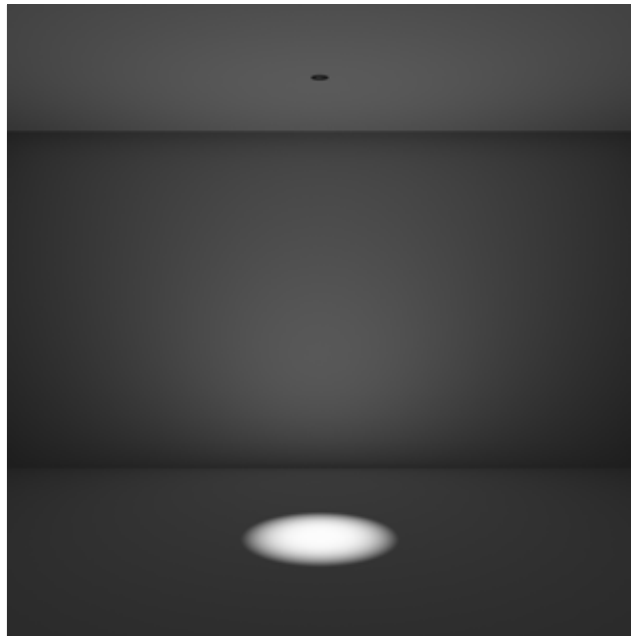

Complete range of beam angles.

1 La configurazione iniziale di Eclectic non rappresenta un limite alle caratteristiche del prodotto, poiché la sua concezione permette di modificarlo e adattarlo. Dall’estetica all’orientazione o all’apertura del fascio luminoso, per rispondere a qualsiasi esigenza ogni parte può essere modificata.
1 The initial configuration of Eclectic does not limit the product in its features thanks to the modification and adaptability possibilities of its design concept. From style to orientation or beam angles, everything can be modified to meet new needs.

2. Eclectic offre una gran varietà di aperture, dalla Super Spot alla Wide Flood, per rispondere a qualsiasi necessità dello specificatore del flusso luminoso.
2 Eclectic offers a variety of beam angles ranging from Super Spot to Wide Flood to meet any lighting specifier’s needs.

1 Qualsiasi parte del prodotto è sostituibile.
1 All product parts are replaceable.

2 Fascio luminoso disponibile in cinque aperture.
2 Five light beam angles available.

Installazione e assemblaggio magnetico.

Magnetic installation and assembly.

3 Eclectic viene fissata al marco di installazione mediante un sistema di unione magnetica di alta qualità che ha superato i più esigenti test di sforzo, carico e tenuta. Questo sistema magnetico, che serve anche per unire i frontali estetici, rende più facile la manipolazione del prodotto nel momento della sua modificazione, sostituzione e attualizzazione.
3 Eclectic attaches to its installation pre-frames thanks to a high quality magnetic attachment system that has been tested and subjected to the most demanding stress, load and durability tests. This magnetic fixing, which is also the way the style façades are attached, facilitates the handling of the product for modification, replacement and upgrading.

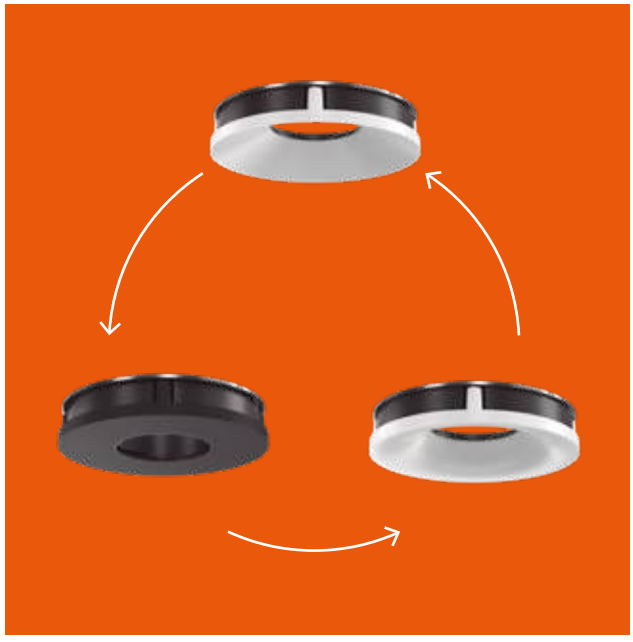

3 Ancoraggio magnetico per cambi e installazioni agevoli.
3 Magnetically attached for easy changeover and installation.

Tre estetiche differenti per un solo prodotto.

One product, three different styles.

4 Per rinnovare l'aspetto di Eclectic è sufficiente sostituire il suo modulo estetico con un o differente, da scegliere fra le tre alternative (Cone, Soft y Flat). Inoltre, nella versione No Trim è possibile cambiare anche il tipo di rifiniture dell'apparecchio (dal negro al bianco o viceversa), rimpiazzando l'elemento con uno di ricambio di differente colore.
4 Renewing the appearance of Eclectic is as easy as replacing its style module with a new one, choosing among its three alternatives (Cone, Soft and Flat). In addition, in the No Trim versions, we can even change the finish of the luminaire (from black to white or vice versa), by simply replacing this part with its spare module in a different color.

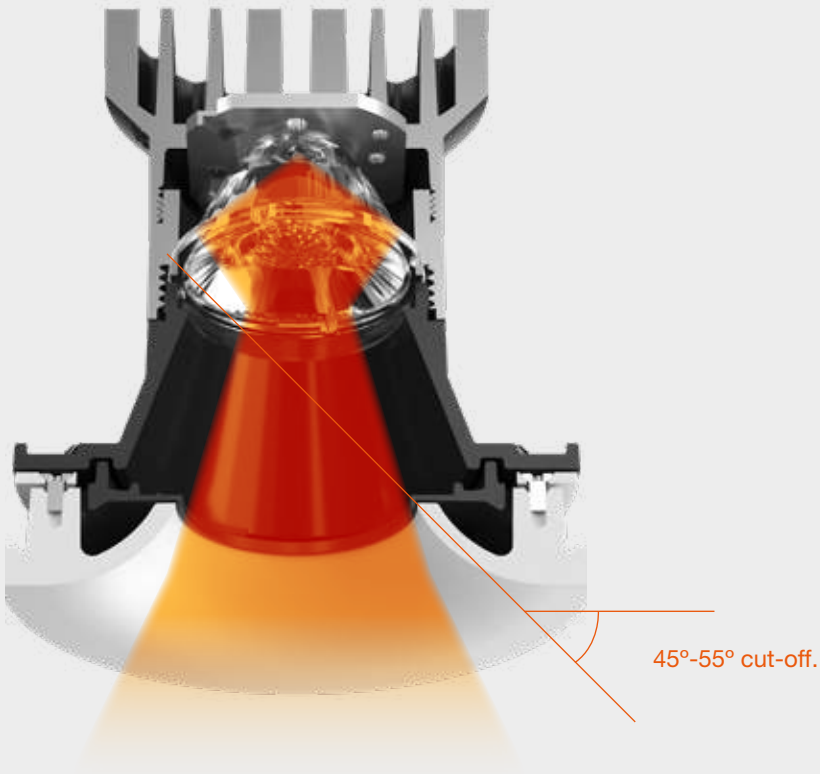

4 Estetica intercambiabile. Cone, Soft e Flat.
4 Interchangeable style. Cone, Soft & Flat.

Grazie alla soluzione ottica esclusiva brevettata, Eclectic controlla angoli di cut-off estremi, senza rinunciare all’alta efficienza e un'incredibile versatilità del prodotto.

Thanks to the unique patented optical solution, Eclectic controls extreme cut-off angles without altering the high efficiency and incredible versatility of the product.

UGR<10

Lente a doppio fuoco sviluppata da FLOS appositamente per questo prodotto. Garantisce massimo controllo ottico e un'eccezionale omogeneità del fascio luminoso.

Dual-focus lens developed by FLOS specifically for this product. It ensures maximum optical control and exceptional light beam homogeneity.

INTENSITÀ E TEMPERATURA DELLA LUCE, IN UNA DOLCE SINCRONIA

Eclectic dispone di un'opzione di regolazione Dim to Warm, per cui il colore della luce cambia regolando l'intensità. In questo modo, più intenso è il flusso, più fredda risulta la luce; viceversa, più tenue è il flusso, più calda risulta la luce. Versatilità per un'illuminazione morbida e gradevole."

LIGHT INTENSITY AND TEMPERATURE, SWEETLY SYNCHRONISED

Eclectic has a Dim to Warm dimming option, which links the intensity to the change in the colour of the light. Thus, the higher the flux, the cooler the light and the lower the light, the warmer. Versatility for soft and pleasant lighting.

Il sistema ottico di Light Shadow –composto da lenti bifocali– viene applicato a questa famiglia di faretti per offrire la sua tecnologia –esclusiva e brevettata da Flos– a questo sistema d'illuminazione. Una collezione di faretti in tre dimensioni che vengono installati usando differenti sistemi, dai binari trifase standard alle strutture proprie di Flos (The Tracking Magnet, The Running Magnet e Infra-Structure).

Light Shadow's optical system -with its dual-focus lens- is extended to this family of projectors to offer its exclusive and patented by Flos technology in this lighting fixture. A collection of spotlights in three sizes that are implemented in different systems, from standard three-phase tracks to Flos' own structures (The Tracking Magnet, The Running Magnet and Infra-Structure).

LIGHT SHADOW SPOT

Grazie alla soluzione ottica esclusiva brevettata, Light Shadow Pro controlla angoli di cut-off estremi, senza rinunciare all’alta efficienza e un'incredibile versatilità del prodotto.

Thanks to the unique patented optical solution, Light Shadow Pro controls extreme cut-off angles without altering the high efficiency and incredible versatility of the product.

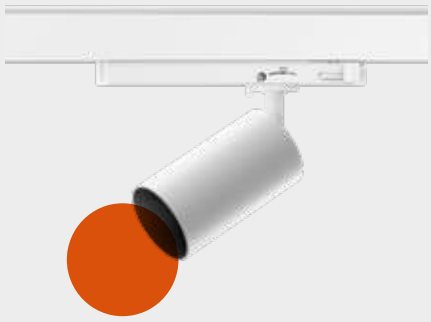

1 Lente a doppio fuoco sviluppata da FLOS appositamente per questo prodotto. Garantisce massimo controllo ottico e un'eccezionale omogeneità del fascio luminoso.

Dual-focus lens developed by FLOS specifically for this product. It ensures maximum optical control and exceptional light beam homogeneity.

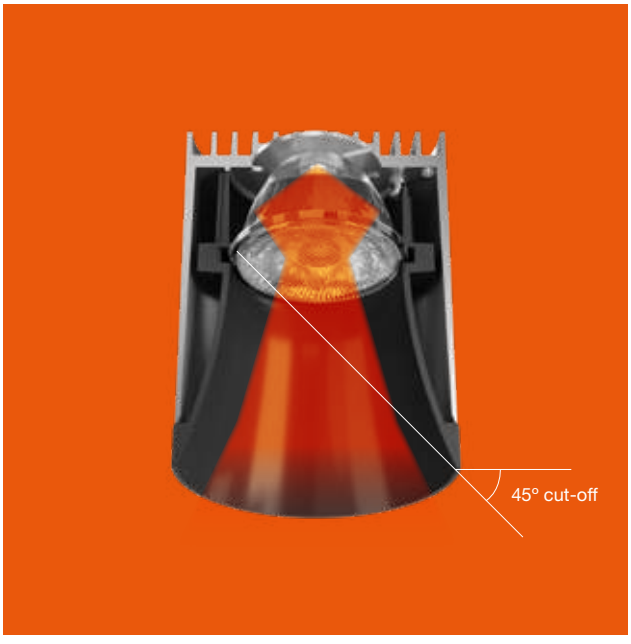

2 I faretti Light Shadow vengono accessoriati con lo schermo nido d’ape anti-abbaglio, combinando la tecnologia di alto comfort visuale di Light Shadow con questo schermo per impedire ancora di più la vista della fonte luminosa.

Light Shadow spots have an anti-glare honeycomb accessory to combine the high visual comfort technology of Light Shadow with this screen to further restrict visual access to the light source.

LINE & PRO LINE

SUPER

Apparecchio di illuminazione di alto livello tecnologico, efficiente e delicato, formato da un'asta che combina illuminazione diretta e indiretta, sostenuta da due cavi coassiali che forniscono sostegno e cablaggio elettrico. Perfetto per uffici o spazi che richiedono una gran efficienza luminosa ed un elevato comfort.

Efficient and delicate luminaire featuring a high technological level. It is composed of a bar combining direct and indirect light and held by two coaxial cables that provide support and electrical wiring. Perfect for offices or places that require high lighting efficiency and comfort.

SUPER LINE & PRO

Super Line è dotato di un filtro diffusore tecnico multistrato che assicura una distribuzione perfetta della luce e migliora l'effetto ottico e il comfort visivo. Super Line Pro monta un raster nero, che garantisce un controllo totale della distribuzione della luce e il massimo comfort in ambienti di lavoro.

Super Line is equipped with a technical multi-layer diffuser filter that guarantees perfect light distribution and improves the optical effect and visual comfort. Super Line Pro is fitted with a black raster that ensures total control of the light distribution and maximum comfort in work environments.

SUPER LINE PRO

Il gruppo ottico che caratterizza Super Line Pro è brevettato ed è composto da un raster ottico modulare a celle quadrangolari abbinato ad una lente primaria.

The patented optical unit that characterizes Super Line Pro consists of a modular optical raster with four-sided cells combined with a primary lens.

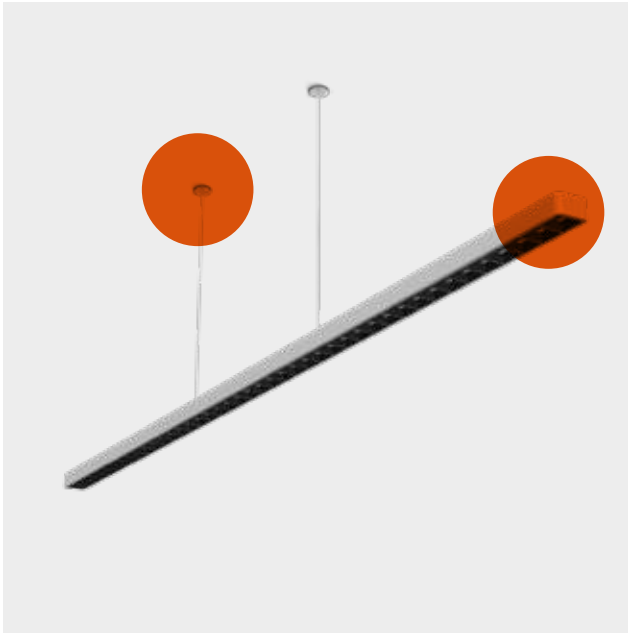

Alimentazione tramite cavo coassiale.

Powered by a coaxial cable.

1 L'installazione a soffitto avviene tramite un sistema di aggancio rapido ad incasso brevettato che consente di regolare la lunghezza dei cavi in fase di montaggio.
The ceiling installation is carried out by means of a patented recessing system for quick adjustment that allows you to adjust the cables length during the installation.

2 L'uscita cavi nell'apparecchio è individuale per il controllo dell'emissione diretta e indiretta ed è contrassegnata da un elemento stampato dedicato che riporta le scritte "Up Light" e "Down Light".
The device's cable outlet is individual for direct and indirect emission control, and is marked by a specific printed element showing the words "Up Light" and "Down Light".

1

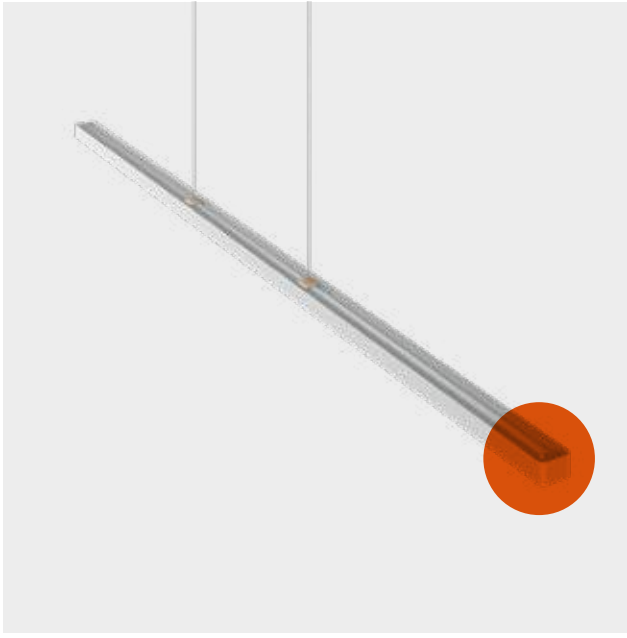

2

Ottica esclusiva brevettata.

Exclusive patented optical solution.

3 La lente primaria è realizzata in PMMA con una texturizzazione superficiale dedicata e finitura Frosted al fine di garantire la massima omogeneità dell'effetto luminoso.
The main lens is made of PMMA. It features a dedicated surface texturing and Frosted finish to guarantee the maximum homogeneity of the lighting effect.

4 Il profilo superiore dell'apparecchio è stato sviluppato in combinazione con la lente per evitare che la luce indiretta lo colpisca causando sgradevoli fenomeni di abbagliamento alla vista.
The upper profile of the luminaire has been developed in combination with the lens to prevent indirect light from hitting it, which would cause an unpleasant glare to t he eye.

3

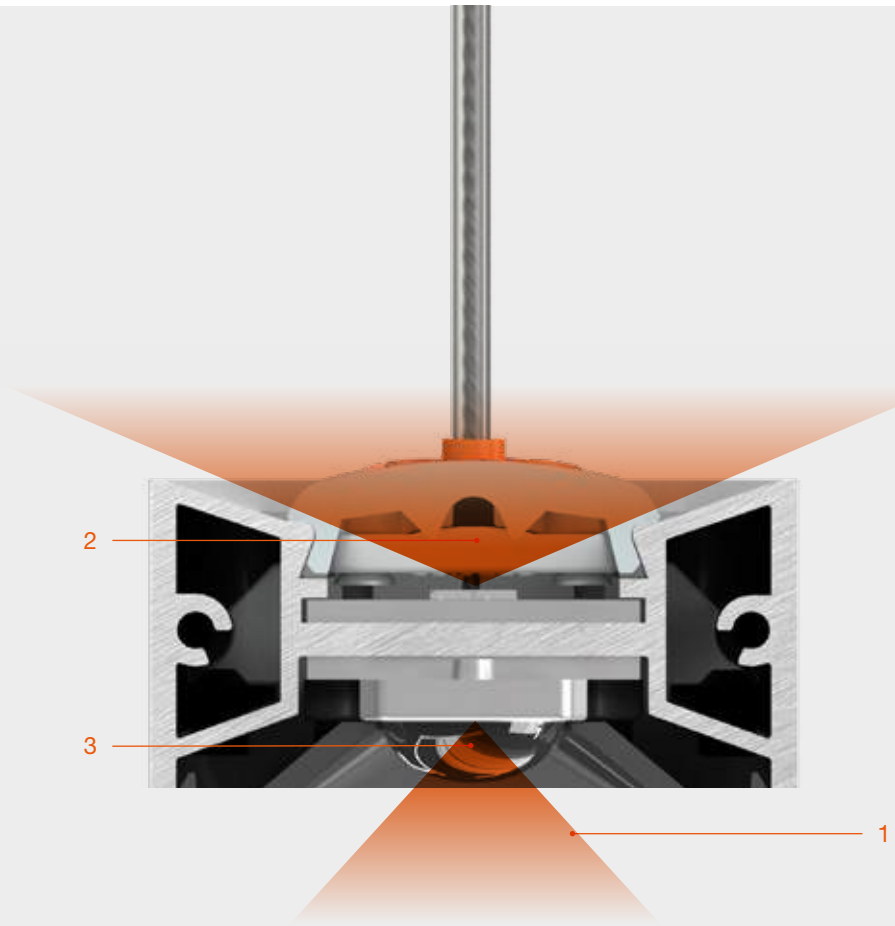

4

750lx
700lx
600lx

La sorgente luminosa utilizzata per la gestione dell'emissione diretta è particolarmente arretrata all'interno del profilo per sfruttare il massimo controllo dell'abbagliamento diretto. Il gruppo ottico brevettato è stato sviluppato specificatamente per applicazioni in ambienti Office.

The light source used for managing the direct emission is positioned far back inside the profile in order to seize the maximum control of the direct glare. The patented optical unit was specifically developed for applications in Office environments.

1 Angolo di schermatura estremo senza rinunciare alle dimensioni ultracompatte e a valori di efficienza elevati.
Extreme shielding angle that does not compromise the ultra-compact dimensions and high efficiency values.

2 Scheda LED integrata.
Integrated LED PCB.

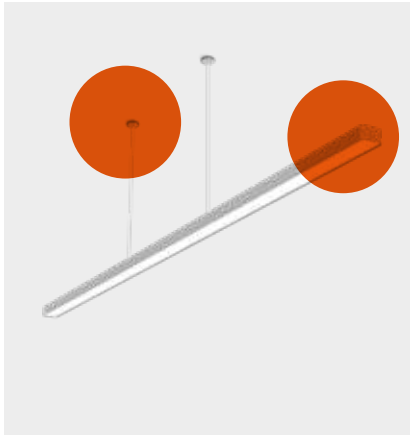

3 Lente primaria texturizzata.
Textured primary lens.

Elemento ornamentale per l’installazione con apparecchio remoto.

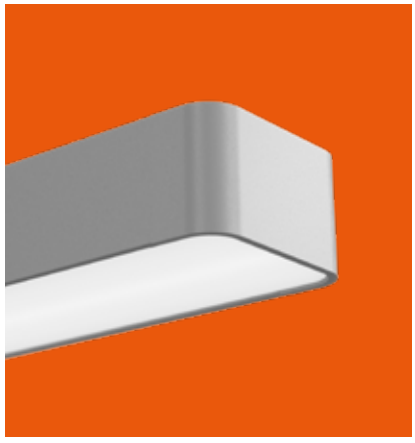

Embellishment for installation with remote equipment.

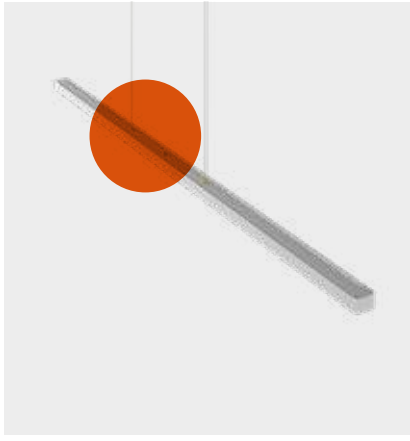

Lo speciale diffusore opale che completa l'apparecchio caratterizzando l'emissione diretta assicura la massima uniformità e una distribuzione pressochè lambertiana.

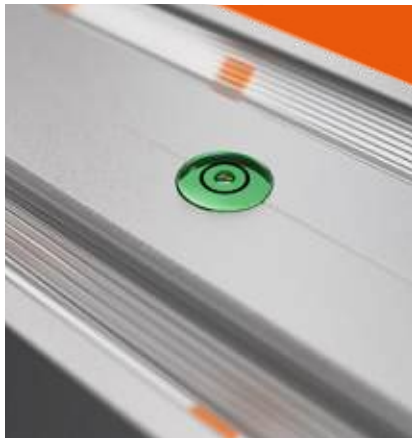

The special opal diffuser that completes the luminaire, characterizing the direct emission, ensures maximum uniformity and a practically Lambertian distribution.

Nonostante le sue dimensioni supercompatte e la vicinanza dei punti LED al diffusore, la luce è distribuita in modo omogeneo. Non si vedono i punti LED.

Although its dimensions are extra compact and the LED tips are close to the diffuser, it offers homogeneous light distribution. The LED tips are not visible.

KAP dim to warm rappresenta l'avanguardia nel controllo della temperatura colore. L'esclusiva tecnologia dim to warm copre un range che va da 2850K a 1800K con un'ottima resa cromatica attraverso un impeccabile controllo sincronizzato di intensità luminosa e temperatura di colore. Il sistema simula la dimmerazione delle tradizionali lampade incandescenti sfruttando il meglio della tecnologia LED attuale.

KAP dim to warm represents the state of the art in color temperature control. The unique dim to warm technology covers a range from 2850K to 1800K with optimal color performance thanks to a flawless synchronized control of light intensity and color temperature. The system simulates the regulation of traditional incandescent lamps exploiting the best current LED technology.

1800K 2850K

EASY KAP 30 FIXED

La misura 30 di Easy Kap rappresenta il modello più piccolo di tutta la famiglia KAP. Un punto luce piccolo, elegante e discreto da soffitto, per un'illuminazione generale o d'accento con una presenza minima nello spazio.

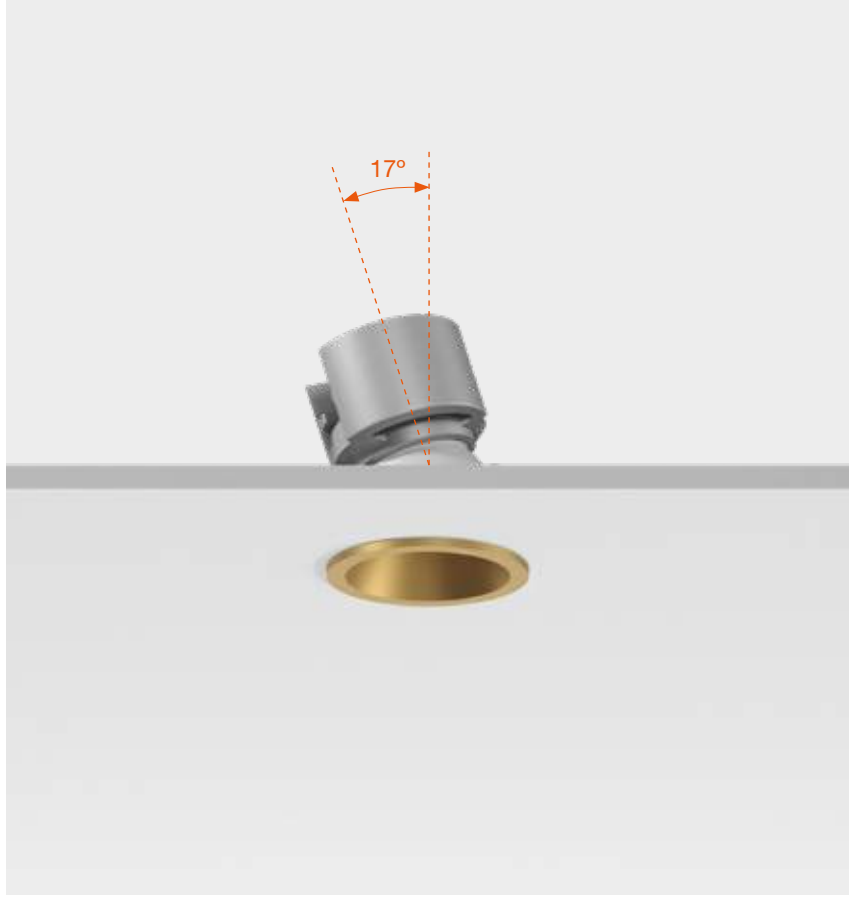

The Easy Kap 30 is the smallest model in the KAP product family. This is a small, sleek, understated ceiling light for general or focused lighting, taking up minimum space.

EASY KAP 30 ADJUSTABLE

La variante orientabile di Easy Kap 30 permette di regolare leggermente il fascio di luce di 17° su entrambi gli assi. Una lieve direzionalità che permette a questo modello di fare la differenza nell'illuminazione di un progetto.

With the adjustable Easy Kap 30 model the light beam can be slightly adjusted by an angle of 17° on both axes. The slight directionality featured in this model brings distinctive detail to the design of the light.

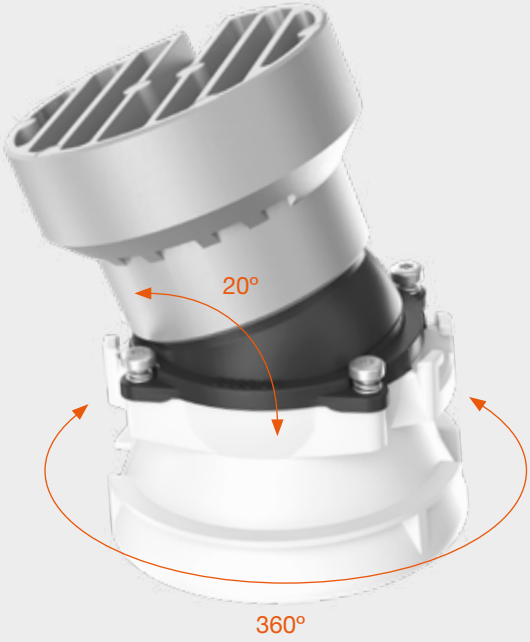

KAP 50

Kap 50 completa l'offerta in gamma con una soluzione compatta e performante che grazie alle tecnologie LED di nuova generazione assicura prestazioni di rispetto nonostante le sue dimensioni ridotte.

Kap 50 completes the range with a compact, high-performance solution that, thanks to new-generation LED technologies, guarantees optimal performance despite its small dimensions.

KAP 50 ADJUSTABLE

Dimensioni compatte e grande flessibilità grazie alle mini versioni orientabili, ideali per applicazioni domestiche e alberghiere.

Compact dimensions and great flexibility thanks to the mini adjustable versions, perfect for home and hotel applications.

Hotel Brooklyn, New York

Per l’installazione individuale delle versioni da incasso di KAP sono necessari degli accesori (precornice), dispobibili nella versione Trim e No Trim (consultare in base al modello). L’installazione ad incasso è possibile solo in soffitti di cartongesso (gesso).

The recessed versions of KAP require individual installation accessories (pre-installation frames) available in Trim and No Trim versions (depending on the models, please consult). This recessed installation method is valid only for plasterboard ceilings.

Disponibile box per installazione sul soffitto in cemento.

Available can for the installation in cement ceilings.

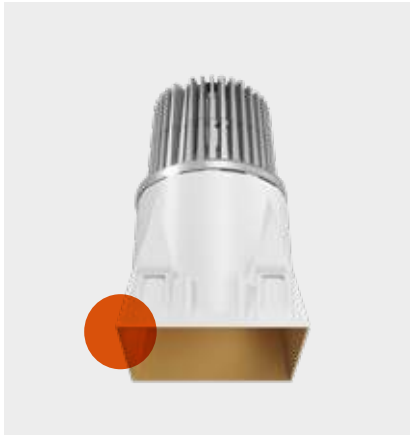

KAP SQUARE

La purezza del quadrato è disponibile in alternativa alla classica versione con riflettore circolare per tutte le soluzioni in gamma.

For all the solutions in the range, the purity of the square is available as an alternative to the classic version with a circular spotlight.

KAP ADJUSTABLE

Corpo orientabile con meccanismo di blocco del puntamento integrato. Ideale in abbinamento a ottiche intensive per regie di luce flessibili e ad alto contrasto.

Rotary body with integrated focal points locking mechanism. Perfect combined with intensive optics for flexible, high-contrast lighting controls.

KAP DEEP

Ottica a doppio fuoco ideale per la gestione di ambienti con doppi volumi o altezze elevate.

Dual-focus optics, ideal for managing environments with double volumes or high heights.

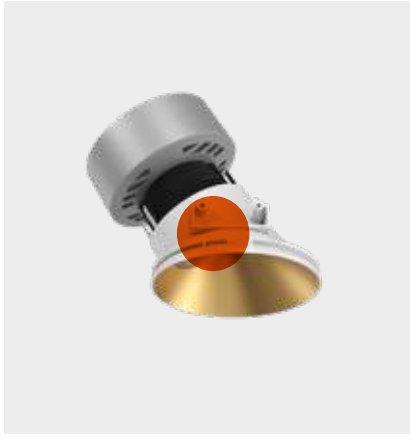

KAP WALL-WASHER

Ottica asimmetrica per l'illuminazione uniforme di piani verticali. Dona all'ambiente profondità e maggiore luminosità percepita.

Asymmetric optic for uniform lighting of vertical surfaces. Provides depth and greater perceived brightness to the room.

Arclinea Headquarters,
Italy

United Nations,
Geneva

Con lo stesso design di Kap 80, Kap 80 Plus si distingue grazie all'esclusivo dissipatore dedicato che incrementa la performance del prodotto mantenendo inalterata la qualià dell'efetto luminoso.

With the same design as Kap 80, Kap 80 Plus stands out thanks to the exclusive dedicated sink, which improves the product's performance without altering the quality of the lighting effect.

Tutti gli Easy Kap 80 LED hanno incluso un diffusore opale che si può montare per aumentare il comfort visivo e la schermatura dell’apparecchio di illuminazione.

All the Easy Kap 80 LED have an opaline diffuser that can be assembled to increase visual comfort and screening of the luminaire.

Effetto No Trim grazie ad un nuovo sistema di montaggio. Il montaggio a baionetta consente la sostituzione della lampada senza necessità di utilizzare utensili.

Total No Trim effect achieved due to a new installation system. The bayonet-based assembly allows to replace the lamp without using any particular tools.

Nell’apparecchio è incorporato un diffusore realizzato in materiale termoplastico per ottenere una perfetta distribuzione della luce sui piani orizzontali.

The luminaire includes a thermoplastic diffuser which ensures a perfect light distribution on horizontal surfaces.

ME FIND

Proiettore per interni con sorgente luminosa LED. Disponibile in tre versioni: la versione Mono Point (0, 1 e 2) -costituita da un corpo cilindrico removibile che funge da downlight nella sua posizione superiore e diventa un faretto orientabile nella sua posizione inferiore-, versione Find Me 3 Track e una versione a Sospensione.

Interior lighting projector with LED light source. Available in three versions: Mono Point version (0, 1 and 2) -consisting of a removable cylindrical body that acts as a downlight when set in its upper position and becomes an adjustable projector when set in its lower position-, Find Me 3 Track version and Suspension version.

FIND ME

Un'icona senza tempo. Find Me reinterpreta l'archetipo del proiettore tradizionale attraverso dettagli di stile e ricercatezza nell'installazione che lo rendono unico e inimitabile.

A timeless icon. Find Me reinterprets the traditional projector archetype through stylish and refined installation details that make it unique and inimitable.

Questo ingegnoso apparecchio per interni, incassato e orientabile, racchiude un design ultra-minimalista. Find Me 0 riduce le dimensioni del proiettore ai minimi termini reinterpretando in scala ridotta il talento del fratello maggiore Find Me.

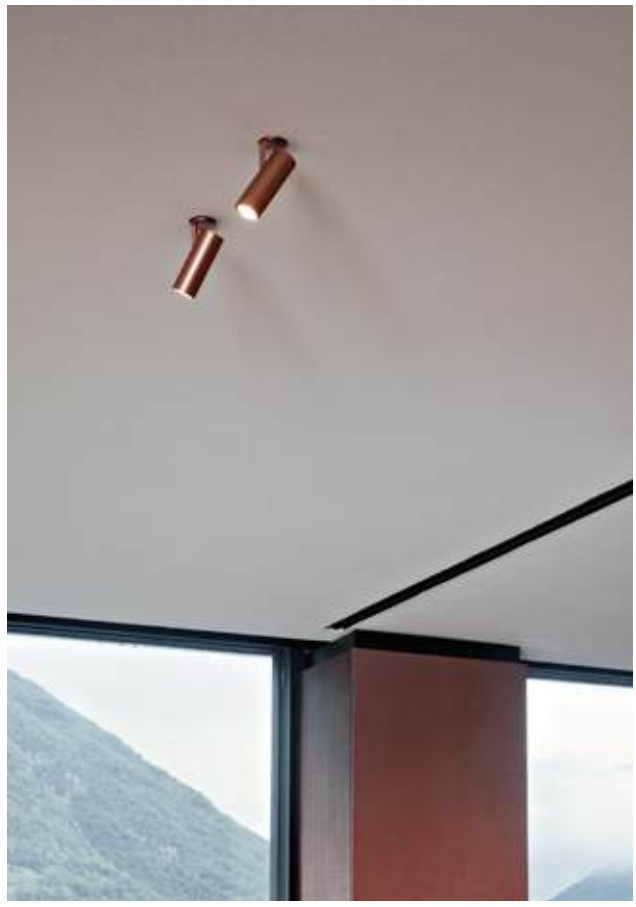

This ingenious, recessed and adjustable indoor device features an ultra-minimalist design. Find Me 0 minimizes the size of the projector, reinterpreting the talent of its big brother Find Me on a small scale.

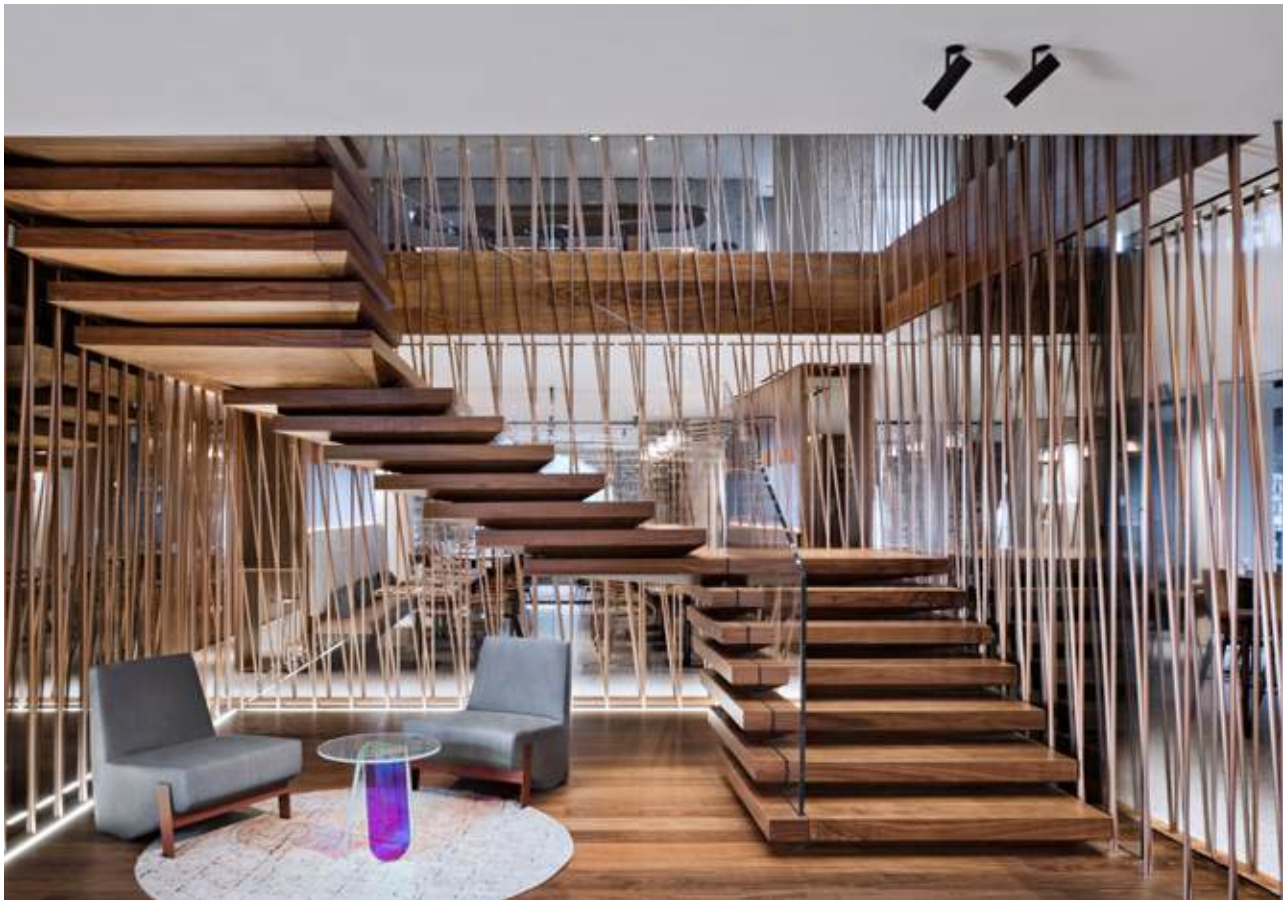

Il Sereno Hotel, Italy

360°

Orientabile ed oscillante grazie alla sua base in grado di ruotare a 360° e al suo braccio in zamak orientabile fino a 70°.

Directional and tilting thanks to its base with 360° rotation capacity and to its arm made of zamak, directional up to 70°.

Sistema di spostamento mediante raccordi elastici su una guida dentata che permettono ai faretti di nascondersi, rimanendo completamente integrati nell'ambiente.

An adjustment system with elastic flanges on a toothed guide, permits concealing the spotlights, thus becoming totally integrated into the environment.

SOPHISTICATED COMMODITIES

LED CURTAIN

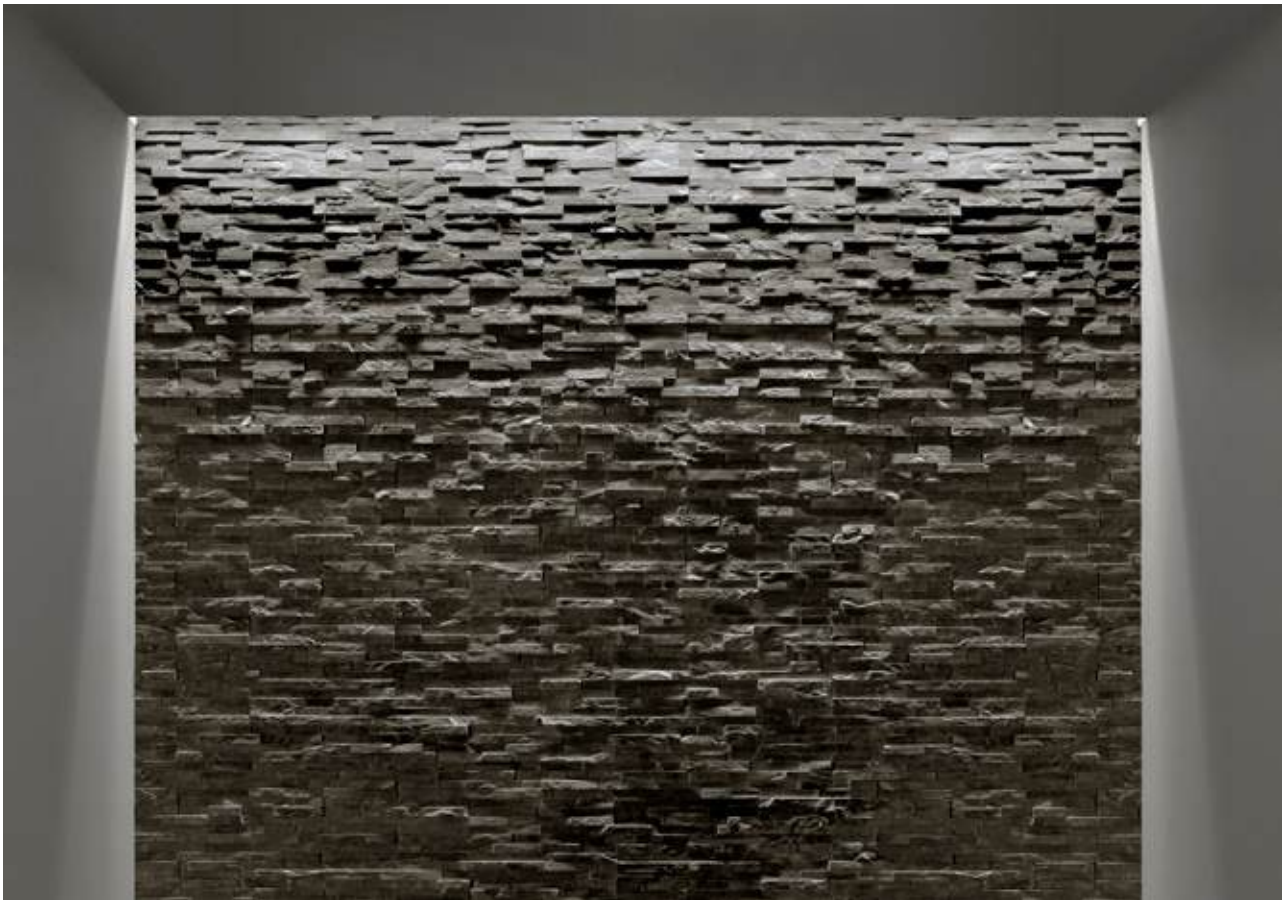

Designed by Flos Architectural

Apparecchio ad incasso con sorgente luminosa LED. Appositamente progettato per illuminazioni wall-washer, Led Curtain contiene lenti ellittiche che danno una perfetta distribuzione luminosa. La famiglia Led Curtain è prodotta in varie lunghezze modulabili tra loro, in modo tale da potersi adattare facilmente ai diversi spazi e, grazie alle sue ridotte dimensioni, si integra facilmente nell'architettura.

Family of circular ceiling-mounted recessed luminaires, which are totally integrated owing to Soft Architecture technology. The Circle of Light is comprised of an outer frame made with composite that houses a metal structure. This, in turn, acts as support for the latest generation LED spotlights. Its lenses optimise the luminous performance of the luminaire together with anti-glare cones that guarantee high visual comfort.

IN-FINITY

Designed by Flos Architectural

Per professionisti che cercano un impianto d'illuminazione principale per uffici o spazi pubblici: In-Finity è un sistema d'illuminazione LED che offre soluzioni adeguate per qualunque tipo di impianto, con apparecchi d'illuminazione disegnati per l'utilizzo sia come sorgente luminosa singola che come linea continua di luce. In-Finity non solo fornisce comfort visivo ed efficienza ma combina alte prestazioni con un'estetica impeccabile e una costruzione di massima qualità. Tutte le esigenze di un progetto possono essere soddisfatte avendo a disposizione tre larghezze del profilo, diverse alternative di installazione (incassata, trim e no trim, in superficie e a sospensione) e versioni di luce diffusa o spot per rispondere ai requisiti ambientali del progetto.

For lighting professionals looking for the backbone of a lighting installation for an office or public space project, the In-Finity LED lighting system offers coherent solutions suitable for any kind of installation, with luminaires designed for use as a single light source or arranged in an infinite light line. In-Finity delivers visual comfort and energy efficiency, combining high performance with impeccable aesthetics and top quality construction. All project needs can be satisfied with combinations of the three profile widths, the various installation options (recessed trim and no trim, surface-mounted and suspended) and diffuse or concentrated glare-free light versions to meet ambient design requirements.

Profilo modulare per installazione ad incasso. Disponibile in tre sezioni diverse (35 e 70 mm) può essere adattato a qualsiasi contesto architettonico grazie ad una estetica essenziale e puramente tecnica. L'emissione luminosa del profilo può essere personalizzata grazie agli schermi accessori disponibili per luce diffusa e luce controllata.

Modular profile for recessed installation. Available in three different sections (35 and 70 mm). It can be adapted to any architectural environment thanks to its subtle and purely technical aesthetics. The profile's lighting emission can be customized thanks to the optional screens available for both diffuse and controlled light.

UNDER-COVER© technology

Nello stabilimento di Flos Architectural, le tecniche tradizionali e le formule avveniristiche si fondono per creare prodotti mai esistiti prima. Grazie a un cartongesso dall'innovativa composizione, la nostra serie Soft Architecture di accessori di illuminazione "senza soluzione di continuità" prende vita nelle mani di esperti artigiani. Soft-Architecture di Flos è un grande esempio di produzione contemporanea, senza sprechi, modellata dagli stessi processi naturali.

In the Flos Architectural factory, traditional techniques and pioneering formulas blend together to create products that have never before existed. Making use of an innovative plaster composition, our Soft Architecture series of seamless lighting appliances comes to life through the hands of skilled local artisans. Flos Soft Architecture is a great example of contemporary, waste-free manufacturing, modelled by nature's very own processes.

WALL RUPTURE

Designed by Thierry Dreyfus

Wall Rupture è un apparecchio invisibile realizzato in Soft Composite. L'effetto è simile a quello di una piega segreta nella parete che nasconde il rilievo irregolare della terra. Disponibile in color oro e argento. È dotato di strisce di LED con varie temperature di colore: 2700K (versione oro) o 5000K (versione argento).

Wall Rupture is an invisible luminaire made of Soft Composite. The effect is like a secret fold in the wall that conceals the irregular relief of the earth. Available in gold and silver. It incorporates LED strips with different colour temperatures: 2700K (gold version) or 5000K (silver version).

Il nostro mondo si evolve continuamente. I progressi tecnici sono all'ordine del giorno nel nostro settore.

Lo scopo di Flos è offrire sempre la tecnologia più affidabile a disposizione, rivedendo continuamente i prodotti e aggiornandoli non appena le evoluzioni tecnologiche offrono vantaggi per i nostri partner e clienti.

Questa filosofia fa sì che il nostro catalogo e le schede tecniche dei nostri prodotti siano anch'essi in continua evoluzione, con la conseguente necessità di aggiornamenti e revisioni continue.

Per tanto, quando avete bisogno di dettagli tecnici e delle informazioni più recenti, sfogliate la sezione prodotti del nostro sito Web ufficiale Flos.com: è aggiornato quotidianamente e offre gli ultimi dettagli dei prodotti, dei codici degli articoli disponibili e tutta la documentazione per il download immediato.

www.flos.com

As our world is in constant evolution, technical upgrades happens every day in our business.

Flos aim is to offer always the best reliable technology available, constantly reviewing our products and upgrading them as soon as technologic evolutions offers benefits for our partners and clients.

This philosophy means that our technical catalogue and product data sheets also are in constant evolution, requiring upgrades and constants reviewing.

Thus, when you need technical details and the most recent product information, please browse the product section of our Flos.com official website: it is updated daily, and there you'll find the latest product details, all available part numbers, all product documents available for immediate download.
